SNOW EMERGENCY Parking Restrictions

Snow Emergency Routes ——
Arterials ————————
Bus Routes *(Look for Bus Stop Signs)*

RESIDENTIAL Parking Ban

Even/Odd Parking Ban Area

Lincoln's Snow Plan

The intensity of a winter storm will dictate which steps in Lincoln's snow removal plan are implemented. Please refer to this explanation of key steps in the plan.

During inclement weather, please keep informed on the status of snow removal operations. The news media will announce when Snow Emergencies or Residential parking bans are declared. If you have questions about snow removal efforts or the parking bans, call the **SNOW CENTER, 441-7644**.

Sanding Operations

When freezing precipitation begins to fall, Public Works trucks begin spreading material on major streets, bus routes and known trouble spots. This phase doesn't involve a parking ban. However, the status of snow removal operations may change as the storm intensifies, so keep informed.

Snow Emergency

When major streets must be plowed, the Mayor may declare a SNOW EMERGENCY. During a Snow Emergency, parking is banned on ***Emergency Snow Routes, all Arterial Streets and Bus Routes.*** Snow routes must remain open for emergency vehicles, so these streets receive top priority. Snow routes and arterial streets are shown on the map on the preceding page. Look for bus route signs to identify bus routes in residential areas.

Residential Parking Bans

Residential streets are NOT plowed after every storm. When a residential clean-up operation is required, the Mayor may declare a Residential Parking Ban. In high density population areas, parking will be banned on either the even or odd-numbered sides of the street. In the remaining residential areas, parking will be banned on both sides. The news media will indicate when these bans go into effect and when they are rescinded. Following is an explanation of the residential parking restrictions.

Even/Odd Parking Ban. For shaded areas on the map, the Mayor will declare a parking ban on the even numbered side of the street. Once all streets have been cleared on one side, the ban will be switched to the odd-numbered side. The news media will indicate when the ban is switched or is rescinded.

Total Parking Ban. Parking will be banned on both sides of the street in residential neighborhoods not included in the shaded areas of the map. Parking will be allowed on these streets, once snow is cleared from both sides. If you anticipate an off-street parking problem, please plan in advance where you will park. While this plan saves time and money, it will require community cooperation.

Tickets/Towing

Cars parked illegally during Snow Emergency or Residential Parking Bans are subject to fines, towing and storage costs at the owner's expense.
