Cotner Emt Staff:

On , you received a call approx. 5:20pm regarding our father/husband/grandfather, Marvin He had choked at the nursing home and consequentially, his heart stopped. I watched as you worked on him performing CPR for what seemed like a lifetime. You were still working on him feverishly as you transported him to I will personally never forget any of you and all that you did to save my father's life. Unfortunately it was not God's will for him to survive. This is in no part upon you all. We, as a family, want to express our since gratitude for everything you did personally for us (and Marvin) and for everything you do on a daily basis for the entire city of Lincoln. Mere words cannot begin to express our gratitude and heartfelt thanks.

Thank you for everything.

God Bless you all!

The Marvin Family
