FROM THE CHIEF

Mayor Beutler,
City Council members,
Citizens of Lincoln,

As Chief of Police, I am pleased to share with you the Lincoln Police Department's 2013 Annual Report. This continues to be an exciting time for our organization. This past year was an exceptional year for the department by nearly every measure. I'd like to express my profound gratitude to every one of our employees who made it all happen. The real essence of the success of our department can be found in their enthusiasm, ability, and dedication - something I value and admire deeply. All of the members of the police department take seriously their responsibility to provide our community with professional, innovative and efficient police services.

We remain committed to our core values (Life, Empowerment, Accountability, Dedication, Education and Respect), which distinguish the department's leadership in excellence, creativity and innovation within the law enforcement community. The Lincoln Police Department continues to be recognized nationally as a leader in law enforcement. Our successes are based on our commitment and partnerships with the citizens we serve.

This past year we saw a reduction of 7.8% in Part I Crimes. Part I Crimes consist of murder, rape, robbery, aggravated assault, burglary, larceny/theft and auto theft, which are categories tracked nationwide by cities that participate in the FBI's Uniform Crime Reporting program. I believe our problem-oriented policing strategy contributed greatly to this decrease. Problem-oriented policing brings resources of the police and community stakeholders together and focuses on underlying problems that contribute to crime. The ability of Lincoln police officers to identify problem locations and apply solutions is a unique strategy. Rapid access to information resources, crime analysis and information technology has also played an important role in this reduction.

Our objective is to continue policing smarter, making the most of our resources, assisted by technology to deliver the best service possible. It is imperative that we maximize technology in determining the best use of these resources and place them where criminal activity is occurring.

I am confident with the commitment of our staff, the continued support of our public officials and City leadership, along with the unending support from community members, we will continue to face and overcome the challenges ahead.

James Peschong
Chief of Police

EXEMPLARY PROGRAMS

GANG STRATEGY

Looking back at 2013, it would be difficult not to mention the uptick in gang violence. The Lincoln Police Department investigated 4 deaths (3 homicides and a suicide) directly related to gang involvement. In evaluating our gang-related reports, the total number of gang related crime is decreasing; however, the overall percentage of violent crime within that total is increasing. Seven years ago, violent crime represented 10.94% of the gang crime in the city of Lincoln. In 2013, 21.96 % of the crimes identified as gang-related were violent crimes. (see chart) Anecdotally, the suspects display little to no regard for others or for the consequences of their actions.

At our department, gang intelligence is one area that is continually evaluated and monitored. While Lincoln clearly does not have a level of gang-related crime approaching that of other similarly sized cities, a significant number of teenagers and young adults claim to belong to gangs. The Lincoln Police Department has identified roughly 30 active gangs with 849 members (collectively). In 1996, the number of persons listed in the Lincoln Police Department intelligence data base as having gang involvement stood at 467. Those individuals have been identified through affiliations with other known gang members, while others readily admit to their involvement.

In 1996, the Lincoln Police Department developed a [gang strategy](#). We continue to revise and update those efforts. The gang strategy was last revised in 2008, with another revision planned for 2014. Our gang unit has also seen recent changes. This last year, we increased the number of investigators. In addition, the entire unit shifted locations. When the gang unit was first established, local gangs had a strong connection with narcotic activity. It made the most sense to have the gang unit as an arm of the Lincoln/Lancaster County Narcotics Task Force. Since then, gang activity has seen notable changes. Their activity is growing more toward robberies, burglaries and felony assaults. Therefore, the gang unit now works directly within our Criminal Investigations Unit.

Gang unit investigators know that they have a busy road ahead. It takes little time for gangs to gain a foothold in the community. We plan to continue to identify gang activity and manage it with prompt response and enforcement. Gang members need to know that their actions have consequences. Police do not own the problem and cannot solve the problem. We believe that it is crucial for the community of Lincoln to recognize a mutual responsibility shared by all citizens, all organizations, to prevent gangs and to respond to gang activity. When gang activity is evident in a neighborhood, residents are understandably fearful, and alter their lifestyle as a result. When good people abandon the porch, the sidewalk, and the street, the casual surveillance of the neighborhood by honest citizens diminishes, and the area is even more appealing to criminals as a result. Instead, we encourage citizens to actively surveil their neighborhoods – calling police about any suspected crime, gang activity, graffiti, or rumored conflicts.

EXEMPLARY PROGRAMS

PUBLIC SAFETY CAMERAS

In November 2012, a pair of public safety cameras was installed at the intersection of 14th & O Streets to monitor streets and sidewalks in the area. The cameras were purchased with money seized during drug enforcement and installed with the assistance of the Public Works Department. Their placement at 14th & O Streets was a calculated decision after examining calls for service throughout the city. In 2012, 110 assaults were reported within a 500-foot radius of the intersection. In 2013, that number was 111. The cameras were designed to put an extra set of eyes in an area with a high concentration of assaults. With the density of bars and foot traffic in the area, alcohol-induced fights erupt. The intersection of 14th & O Streets has long been known to be a gathering spot for socializing after bar closing time.

Shortly after the cameras' activation, the public expressed concerns over the legality and intended usage of such devices. The cameras were then turned off to allow time for further review. Over the next year, we encouraged public discussion and solicited input from Lincoln citizens. During this time, a new department policy was created to combine the procedures for all recording devices utilized by the Lincoln Police Department. The mayor and Citizens' Police Advisory Board were actively involved in the process to ensure oversight and that camera placement, operation and retention were justified.

On December 12, 2013, the cameras were re-activated and recording began. The cameras are not continuously monitored, but set on a 36 hour recording loop. If an officer feels that evidence may have been captured, a request is routed to a supervisor to secure the footage for that time frame. By year end, requests were received to examine possible evidence in a large melee and in a suicide. Though it is too soon to determine whether the cameras have made an impact, it is something we will examine annually to assess the value of each camera's placement and determine if changes are needed to camera quantity and location. Ideally, these cameras will be a deterrent to crime and provide video evidence to help identify and prosecute criminals.

QUALITY SERVICE AUDIT

Since 1993, the Lincoln Police Department has been participating in a survey to gauge citizen satisfaction with the delivery of police services. The Quality Service Audit was developed in conjunction with Gallup, Inc. and it continues to be a valuable tool for both officers and administrators. Officers hired after 1991 are designated as participants in the survey and receive feedback from citizens on their performance. The QSA is a telephone survey which is conducted by student interns, volunteers and recruit officers. Contact is made with citizens who have had a recent police contact, whether they are a crime victim or the recipient of a traffic ticket. A sample of survey questions and the responses are listed below from the 5,854 surveys administered in 2013.

CANINE UNIT

The beginning of 2013 brought sadness to the Lincoln Police Department and in particular, the [Canine Unit](#). Officer and head trainer John Clarke died February 25 of medical complications. It was with heavy hearts that we said goodbye to him. Prior to passing away, Officer Clarke and PSD Remo did have a successful track where PSD Remo located a suspect after a brief foot chase and the suspect was arrested by perimeter units. Officer Clarke and PSD Remo were able to take 8 service dog calls before his passing.

Officer Tyler Dean and PSD Kony were utilized many times in 2013. Highlights for the team include assisting the Fugitive Task Force locate Gabriel Muratella who was found hiding in a basement bedroom by PSD Kony in March. Muratella was arrested on 6 warrants, 3 felonies, 2 misdemeanors and several traffic infractions. In June, 2 suspects were located by PSD Kony hiding under a vehicle used in a robbery that ended in a car accident. PSD Kony was utilized for several cash seizures totaling \$43,000 and other narcotics sniffs yielded 4 pounds of methamphetamine during the year.

Officer Chris Howard and PSD Johann were introduced as a new canine team and had a productive year. Shortly after completion of training Officer Howard and PSD Johann located 29 grams of methamphetamine during a routine parole check. Officer Howard and PSD Johann were utilized for 10 felony and 13 misdemeanor arrests.

DASHBOARD INDICATORS

In 2008, the City of Lincoln began its long-term commitment to moving away from incremental budgeting and toward outcome-based budgeting. In outcomes-based budgeting, city priorities and performance criteria are identified and assessed with active input from residents. The Lincoln Police Department plays an integral part in two areas seen as priorities for the City of Lincoln: Safety and Security and Livable Neighborhoods. This dashboard presents the status of the Lincoln Police Department's performance indicators, measuring progress toward the City goals.

Safety and Security Goal 1 : Maintain a Low Crime Rate

Maintain a violent crime rate 25% under the average for similar-sized cities.
(452 offenses per 100,000 residents)

Maintain a burglary rate 20% below the average for all cities within 50,000 of Lincoln's population.
(755 offenses per 100,000 residents)

Maintain a case clearance rate of at least 24%.
(National average is 19%)

DASHBOARD INDICATORS

Safety and Security Goal 3 : Traffic Safety

Livable Neighborhoods Goal 2: Reduce neighborhood disorder by providing services that abate nuisances, solve issues, resolve conflict and support the quality of life.

INJURY CRASHES PER 100,000

Maintain an injury traffic crash rate of no more than 850 crashes per 1000,000 residents.

SAFE & SECURE OVER 75%

Maintain a positive response rate of 75% on the Quality Service Audit question: "How safe and secure do you feel in the neighborhood where you live?"

RESPONSE TIME UNDER 10 MINUTES, 90% OF THE TIME

Maintain a ten minute response time for 90% of priority 1 and priority 2 dispatches.
