

FEDERAL EMERGENCY MANAGEMENT AGENCY
NATIONAL FLOOD INSURANCE PROGRAM
FLOODPROOFING CERTIFICATE
FOR NON-RESIDENTIAL STRUCTURES

The floodproofing of non-residential buildings may be permitted as an alternative to elevating to or above the Base Flood Elevation; however, a floodproofing design certification is required. This form is to be used for that certification. Floodproofing of a residential building does not alter a community's floodplain management elevation requirements or affect the insurance rating unless the community has been issued an exception by FEMA to allow floodproofed residential basements. The permitting of a floodproofed residential basement requires a separate certification specifying that the design complies with the local floodplain management ordinance.

Building Owner's Name

Street Address (including Apt., Unit, Suite, and/or Bldg. Number) or P.O. Route and Box Number

Other Description (Lot and block Numbers, etc.)

City

State

Zip Code

For insurance company use
Policy Number
Company NAIC Number

Section I Flood Insurance Rate Map (Firm) Information

Provide the following from the proper Firm:

Community Numbers	Panel Numbers	Suffix	Date of Firm Index	Firm Zone	Bas Flood Elevation (In AO Zones, Use Depth)
-------------------	---------------	--------	--------------------	-----------	---

Section II Flood Information (By a Registered Professional Engineer or Architect)

Floodproofing Design Elevation Information

Building is floodproofed to an elevation of _____ feet NGVD. (Elevation datum used must be the same as that on the FIRM)

Height of floodproofing on the building above the lowest adjacent grade is _____ feet.

(Note: for insurance rating purposes, the building's floodproofed design elevation must be at least one foot above the Base Flood Elevation to receive rating credit. If the building is floodproofed only to the Base Flood Elevation, then the building's insurance rating will result in a higher premium.)

Section III Certification (By Registered Professional Engineer or Architect)

Non-Residential Floodproofed Construction Certification:

I certify that, based upon development and/or review or structural design, specifications, and plans for construction, the design and methods of construction are in accordance with accepted standards of practice for meeting the following provisions:

The structure, together with attendant utilities and sanitary facilities, is watertight to the flood proofed design elevation indicated above, with walls that are substantially impermeable to the passage of water.

All structural components are capable of resisting hydrostatic and hydrodynamic flood forces, including the effects of buoyancy, and anticipated debris impact forces.

I certify that the information on this certificated represents my best efforts to interpret the data available. I understand that any false statement may be punishable by fine or imprisonment under 18 U.S. Code, Section 1001.

Certifier's Name License Number (or Affix Seal)

Title Company Name

Address City State Zip Code

Signature Date Phone

Copies should be made of this Certificate 1) community official, 2) Insurance agent/company, and 3) building owner.

PAPERWORK BURDEN DISCLOSURE NOTICE

GENERAL-This information is provided pursuant to Public Law 96-511, (The Paper Reduction Act of 1980, as amended), dated December 11, 1980, to allow the public to participate more fully and meaningfully in the Federal paperwork review process.

AUTHORITY-Public Law 96-511, amended; 44 U.S.C. 3507; and 5 CFR 1320

PAPERWORK REDUCTION ACT NOTICE-Public reporting burden for Floodproofing Certificate is estimated to average 3.25 hours per response. Burden means the time, effort, or financial resources expended by person to generate, maintain, disclose, or provide information to the Federal Emergency Management Agency. You are not required to respond to this collection of information unless a valid OMB control number is displayed in the upper right corner of each form. You may send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collection Management, Federal Emergency Management Agency, 500 C Street SW Washington, DC 20427, Paperwork Reduction Project (3067-0077). To ensure timely receipt and processing of the completed forms, return them to the address provided in the instruction to the forms. Do not send form(s) to the above address. Your response to this collection of information is required to obtain or retain benefits under the National Flood Insurance Program.
