

COMMUNICATIONS SITE LICENSE AGREEMENT (SHELTER SPACE)

This Communications Site License Agreement ("Agreement") is entered into this \_\_\_\_\_ day of \_\_\_\_\_, 2006, by and between **NEXTEL WIP LEASE CORP., a Delaware corporation, d/b/a Nextel Partners** ("Licensor"), and City of Lincoln, a political subdivision of the State of Nebraska ("Licensee").

For good and valuable consideration the receipt and sufficiency of which is hereby acknowledged, the parties hereto agree as follows:

**1. Premises.**

(a) Licensor currently licenses approximately two thousand (2,000) square feet of ground space ("Ground Space") located on real property at 7480 Olive Creek Road, Firth, NE 68358 ("Land") and owns and operates an equipment shelter thereon ("Building") (the Ground Space and Building are, collectively, the "Property"). The Land is more particularly described in Exhibit A annexed hereto. Licensor hereby licenses to Licensee and Licensee licenses from Licensor approximately eight (8) square feet in Licensor's Building and all access and utility easements, if any (collectively the "Premises"), as described and depicted in Exhibit B annexed hereto.

(b) The Premises are located on the Land leased to the Licensor under that certain Tower Site Lease between TowerCo., Inc., as landlord, and Nextel WIP Lease Corp., a Delaware corporation, d/b/a Nextel Partners, as tenant, dated November 14, 2005 (the "Prime Lease"), which is attached hereto and made a part hereof as Exhibit 1. Except as otherwise expressly provided herein or except as the terms of the Prime Lease may be in conflict with or inconsistent with the terms provided herein, all of the terms, covenants, and provisions in the Prime Lease are hereby incorporated into and made a part of this Agreement as if fully set forth herein; the Licensor herein being substituted for the landlord named in the Prime Lease, and the Licensee herein being substituted for the tenant named in the Prime Lease, as it relates to the Premises only. To the extent that the provisions of the Prime Lease are not incorporated herein, the provisions above as to the respective substitution of the Licensor and Licensee for the landlord and the tenant named in the Prime Lease shall not apply. Licensee acknowledges that this Agreement is contingent upon Licensor obtaining consent hereof from the Prime Lessor. Should Licensor be unable to obtain such consent, Licensor shall provide Licensee with written notice thereof, and this Agreement shall be deemed null and void.

**2. Use.** Licensor, for the term set forth herein and subject to the terms and conditions of this Agreement, hereby grants to Licensee a non-exclusive license to use the Premises for (i) the reception of VHF/UHF signals and (ii) the construction, maintenance, repair and replacement of related equipment, cables and facilities and improvements related thereto, and (iii) activities related to any of the foregoing, provided such activities do not require an expansion of or change in the Premises and/or the Licensee Facilities, as defined in paragraph 6(a) (collectively, "Licensee's Permitted Use"). If any increase in the insurance premiums paid by Licensor is caused by Licensee's use and occupancy of the Premises, then Licensee shall pay as additional Rent the amount of such increase to Licensor.

**3. Tests and Construction.**

(a) None of the Licensee Facilities (as defined in Paragraph 6(a)) shall be installed on the Premises nor shall any construction pertaining to the Licensee Facilities commence until Licensee has submitted its construction and installation plans, contractors and subcontractors to Licensor in writing and such plans have been approved in writing by Licensor. Licensor shall give such approval or provide Licensee with its requests for changes within ten (10) working days after Licensor's receipt of Licensee's plans. Licensee shall not alter any plans so approved without following the same procedures. During the Term of this Agreement, subject to Licensor's approval, which may be withheld at Licensor's sole discretion, Licensee shall have the option to add additional equipment or other facilities to the Premises. Should Licensee add such additional equipment or other facilities to the Premises, Licensor and Licensee agree that Rent may be charged which shall be in a mutually acceptable dollar amount agreed upon in writing, prior to any equipment additions or modifications. Licensee shall be responsible for grounding all external and internal wiring and cabling installed by Licensee. Licensee shall obtain Licensor's prior written approval of such grounding plans. Any deviation from the aforementioned shall result in a default of this Agreement.

(b) Licensee shall provide all labor for the installation, maintenance and repair of Licensee's equipment on the Premises, unless Licensor, in its sole discretion, elects to provide such labor, in which case Licensee shall pay Licensor for such labor; provided, however, that such labor costs shall be reasonable and that Licensor shall provide Licensee copies of all bills and invoices for such work.

(c) Notwithstanding anything to the contrary, in the event that any permit, approval or authorization required for Licensor's use, operation or right to license space to Licensee of the Property is challenged by any governmental authority or third party as part of any governmental, regulatory or legal proceeding, Licensee acknowledges that (i) Licensor shall reserve the right to withhold its approval of the Licensee Facilities or modification of its equipment on the Property until such time as such challenge has been finally adjudicated or settled and Licensor prevails, (ii) prior to the installation of the Licensee Facilities, Licensor may terminate this Agreement or (iii) following prior written notice from Licensor to Licensee, specifically referencing this paragraph, Licensee may elect to install its equipment on the Premises at its sole cost and risk and acknowledges that in the event of a governmental or legal order requiring the removal of the Licensee Facilities from the Premises that Licensee shall do so promptly at its sole cost and expense.

(d) Licensee shall indemnify Licensor and hold it harmless from all expenses, costs, damages, loss, claims or other expenses or liabilities arising from any activities on the Premises by Licensee and its agents, engineers, contractors and other representatives, excluding, however, any liability arising from any pre-existing condition.

#### **4. Term.**

(a) The initial term of this Agreement commenced on \_\_\_\_\_, 2006 ("Commencement Date") and shall terminate on the fifth anniversary of the Commencement Date, ("Initial Term") unless earlier terminated as provided herein. Upon prior written approval of Licensor, and provided that Licensee is not in default of its obligations hereunder, Licensee shall have the right to extend the term for Four (4) successive five (5) year periods ("Renewal Term(s)") on the same terms and conditions as set forth herein. This Agreement shall automatically be extended for each successive Renewal Term unless either Licensor or Licensee notifies the other party of its intention not to renew at least ninety (90) days prior to commencement of the succeeding Renewal Term.

(b) Notwithstanding anything to the contrary in this Agreement, in the event that the Prime Lease expires or terminates prior to the end of the Initial Term or any Renewal Term hereunder, then this Agreement shall automatically terminate upon termination of Licensor's right to possession of the Property under said Prime Lease; provided that such Prime Lease has not been otherwise extended by Licensor. Licensor shall give Licensee no less than thirty (30) days written notice of its intention not to exercise any renewal option(s) which may be available to it under the Prime Lease. If the Prime Lease is terminated for any other reason by either party thereto, Licensor shall immediately provide Licensee written notice of such early termination.

#### **5. License Fee and Confidentiality.**

Licensee shall pay Licensor an annual license fee of One Dollar (\$1). Notwithstanding, the parties agree that the value of this License Agreement is \$2,400 per year. Licensee agrees Licensor may disclose and/or otherwise distribute the terms and conditions of this Agreement to any third party for any purpose, including publicity purposes.

#### **6. Facilities; Utilities; Access.**

(a) Licensee shall have the right, at its sole expense, to install, construct and maintain on the Premises from time to time a VHF/UHF receive facility for the Licensee's Permitted Use, including equipment in the Building and other improvements relating thereto (collectively, the "Licensee Facilities"). Exhibit C attached hereto further describes the Licensee Facilities. All work by Licensee shall be performed in compliance with applicable laws and ordinances. Title to the Licensee Facilities shall be held by Licensee. Licensee Facilities shall remain Licensee's personal property and are not fixtures, and Licensor waives any lien rights it may have concerning the Licensee Facilities. Licensee has the right to remove all Licensee Facilities at its sole expense on or before the expiration or earlier termination of the Agreement; provided, Licensee repairs any damage to the Premises caused by such removal and subject to Paragraph 3(b) above.

(b) Licensee shall not permit, obtain or cause to be obtained any lien against the Land, Tower or other property, real and otherwise, owned or licensed by Licensor; and if such lien shall at any time be so filed, within fifteen (15) days after notice of the filing thereof, cause it to be canceled and discharged of record. Violation of this Paragraph shall constitute a material breach of this Agreement.

(c) **Licensor shall pay for the electricity, provided the cost of electricity for the 911 equipment does not exceed Two Hundred Fifty Dollars and 00/100 (\$250.00) per month, at which time the Licensor shall require additional compensation from Licensee.** Licensee shall pay for any other utilities it consumes in its operations at the rate charged by the servicing utility company. Licensee shall have the right to draw electricity, by submeter, and other utilities from the existing utilities on the Premises or obtain, at its sole cost and expense, separate utility service from any utility company that will provide service to the Premises. Any

easement necessary for such power or other utilities will be at a location acceptable to Licensor, the Prime Lessor, and the servicing utility company.

(d) With prior notice to Licensor, Licensee, Licensee's employees, agents and subcontractors may enter on or across the Property, to perform or arrange to be performed normally scheduled installation, maintenance or repair of the Licensee Facilities on the Premises. Any emergency installation, maintenance or repair of the Licensee Facilities on the Premises shall be performed only with prior oral or written approval from Licensor. Licensor shall consider telephonic notification (with a live person, not by message) at the time of the emergency installation, maintenance or repairs responsive to the above stipulations. It shall be the responsibility of the Licensor to provide the Licensee with a security key to access the Premises in the absence of the Licensor.

(e) Licensee shall, at Licensee's expense keep and maintain the Premises in commercially reasonable condition and repair during the term of this Agreement. Licensee agrees to maintain the Licensee Facilities in proper operating condition and within industry accepted safety standards. All installations and operations in connection with this Agreement by Licensee must be in compliance with all federal, state, and local laws, codes and regulations, including but not limited to local zoning requirements, and Licensee agrees to adhere to reasonable technical standards developed by Licensor as amended from time to time

## **7. Interference.**

(a) Licensee shall operate and maintain the Licensee Facilities in a manner that will not cause interference to Licensor or other lessees or licensees of the Property whose installations predate that of the Licensee Facilities ("Pre-Existing Users"). All operations by Licensee shall be in compliance with all Federal Communications Commission ("FCC") requirements. In the event that Licensor, or Pre-Existing Users on the Property, experience interference caused by Licensee or the Licensee Facilities, Licensor or such other Pre-Existing User shall notify Licensee of such interference in writing, and Licensee shall power down its equipment and/or cease operations in order to correct and eliminate such interference within 72 hours after receipt of Licensor's notice. Upon prior written approval of Licensor, Licensee may operate its equipment intermittently during off-peak hours for testing purposes only. If Licensee is unable to eliminate the interference, or reduce it to a level acceptable to Licensor or other Pre-Existing User, within a period of thirty (30) days, then Licensor may, in addition to any other rights it may have, terminate this Agreement. Licensor may, in its sole discretion and with prior written notice to Licensee, require Licensee to have a circulator and harmonic filter installed. Also, Licensor may, at its option, require Licensee to supply additional radio frequency interference (RFI) limiting equipment for installation on the equipment of each person whose equipment is experiencing such interference.

(b) Licensor agrees not to, and to cause any user of the Property whose equipment is installed or modified subsequent to the Licensee's then-current operation of the Licensee's Facilities not to, interfere with the operation of Licensee's Facilities. In the event Licensee experiences interference caused by any subsequent lessee or licensee of the Property or equipment of any subsequent lessee or licensee, Licensee shall notify Licensor of such interference in writing and Licensor shall, or shall cause any other subsequent lessee or licensee, to power down its equipment and/or cease operations in order to correct and eliminate such interference within 72 hours after receipt of Licensor's notice.

**8. Taxes.** Licensee shall be solely responsible for the payment of any taxes, levies, assessments and other charges including franchise and similar taxes imposed upon the business conducted by Licensee or upon the Licensee Facilities. Licensee shall further be responsible for payment of any increase in real property taxes directly attributable to the construction and placement of the Licensee Facilities upon the Premises. Licensor agrees to provide written proof of such increase attributable to the Licensee Facilities upon Licensee's request.

## **9. Termination.**

(a) This Agreement may be terminated by either party on one hundred and twenty (120) days prior written notice for any reason.

(b) No termination under this Paragraph 9 shall be effective until a termination notice is given by the terminating party to the other party and such notice is specifically identified as a termination notice under this Paragraph 9. The party exercising its termination rights in accordance with this paragraph shall have such cumulative rights and remedies as may be available at law or in equity. Termination shall not affect any obligations or liabilities arising under this Agreement prior to the effective date of such termination or those obligations that expressly survive such termination.

(c) Upon the termination of this Agreement by operation of this paragraph or as otherwise provided by the terms of this Agreement, Licensee shall remove all of the Licensee Facilities within thirty (30) days of the date of such termination and shall restore the Premises to its original condition, reasonable wear and tear excepted. Any of the Licensee Facilities remaining on the Premises

thirty (30) days following termination shall be declared abandoned by Licensee and disposed of at Licensor's discretion and Licensee's cost. All permanent alterations, installations, changes, replacements, additions or improvements that (a) have been made by Licensee to the Premises and (b) cannot be removed without material damage to the remainder of the Premises shall be deemed a part of the Premises and the same shall not be removed.

**10. Destruction or Condemnation.** If the whole or any part of the Property are damaged or destroyed by any casualty or condemnation and, as a result of such casualty or condemnation, the Property cannot be used by Licensee to conduct in all material respects its operations consistent with its past practices, Licensee shall notify Licensor and provide information to confirm the nature of the operational disruption to Licensee caused by such casualty or condemnation. In such event, Licensor shall have five (5) days after receipt of Licensee's notification to determine whether Licensor will repair, rebuild or restore the Property to the same condition as it was immediately prior to such casualty or condemnation. If Licensor chooses not to repair, rebuild or restore the Property and the Licensor does not provide an alternate location (whether in the same Building or on other Property, subject to Licensee's sole discretion as to the suitability of such alternate location) or if such repairs cannot be completed within 45 days after Licensor's receipt of Licensee's initial notice, either party hereto may terminate immediately without penalty by giving written notice of cancellation to the other party.

**15. Maintenance and Repairs.**

(a) Licensee shall have the sole responsibility to perform all repairs necessary or appropriate to keep Licensee Facilities on or about the Premises or located on any appurtenant rights-of-way or access to the Property in good and tenantable condition, reasonable wear and tear, damage by fire, the elements and other casualty excepted. Damage resulting from the acts or omissions of Licensee shall be repaired by Licensee, at Licensee's sole cost and expense.

(b) If the Licensor, in its reasonable opinion, determines that any structural modifications, repair or maintenance are needed to be made to the Property or surrounding premises, Licensor shall provide Licensee with reasonable notice of such modifications, repair or maintenance should such modifications, repair or maintenance impact the operation of the Licensee Facilities. Every effort will be made by Licensor to avoid an interruption of Licensee's operations. Licensee acknowledges that an interruption of service may, due to the nature of the modification, repair or maintenance, be inevitable but will work with Licensor to limit such interruption.
