

Information & Fiscal Management Division

SERVICES & PROGRAMS

Information Management

The Division of Information and Fiscal Management provides core fiscal and information infrastructure for all Department programs. This is accomplished through:

- Availability: Making sure that information technology resources are organized and allocated so they are available and accessible to programs and staff engaged in accomplishing Department goals.
- Analyze and interpret data: Information is tracked, organized and reported to meet all programs, fiscal and legal requirements and to support strategic planning and decision-making.
- Provide information: Provide reports and access to fiscal, service encounter, assessment and surveillance information.
- Workforce Development: Assist staff to acquire the skills needed to efficiently and effectively access and use information to meet program and department objectives.
- Integration: Provide tools to bring information from the varied sources together so that staff can access and use it to support their activities.

Fiscal Management

Fiscal Operations Section keeps the attention and the focus on what is the most effective use of resources to achieve the Department's goals. Activities include: budgeting, revenue collection, payment of expenses, grant monitoring, audit, fiscal oversight, permitting and billing, and fiscal reporting. Fiscal and budget decisions are based on community input, department and program strategic direction, and analysis of program impact on the health status of the population.
