These fees reflect the most recent price quotes for meters and automated reading modules received by the City. The permit fees for new water services include the cost of 15 units of construction water (for all sizes).

Also, please be advised Public Works & Utilities will assess a \$30 fee for cancelled taps, except for weather related cancellations. Refer to Water Service Manual for details on cancellations at <http://lincoln.ne.gov/city/pworks/water/contract/pdf/servcman.pdf>.

Should you have questions relative to these fees, please do not hesitate to contact Doug Luedtke at 402-441-7554, Steve Owen at 402-441-5925, or myself at 402-441-7537.
