Jane Raybould, Council Member, asked about the number of violations and the total amount for these violations.
Mr. Meyer stated that there were 32 properties that were enforced on twice, one property three times, for a total of $41,000.00 dollars. Discussion followed.

Mr. Campa stated that on October 11, 2015 while driving on West O St. by Salt Valley Creek Bridge he drove over a pothole that damaged the underside of his vehicle and will cost approximately $3000.00 dollars.

Jeff Kirkpatrick, City Attorney, came forward and stated on October 12, 2015 the City was notified of this pothole and that same day the City went out to place a temporary patch on it until it could be permanently fixed in November. Mr. Kirkpatrick stated a City street crew noticed the pothole on October 12, and placed a temporary patch over the pothole that same day, since the City was not aware of the pothole until October 12, they are not liable for the damages to Mr. Campa’s vehicle on October 11.

Jon Camp, Council Member, inquired if this claim was in the same area of claim several months ago from another driver on West O Street.

Mr. Kirkpatrick stated he was unsure of the time frame of this past claim, but the city was monitoring this area after it was noticed the joints were getting larger, and that is how they became aware of the pothole.

Teri Pope-Gonzalez, 349 S 1st St., Founder of Neighborhood Association in that area, came forward and stated that she has made several calls regarding potholes in that area. Discussion followed.

TEXT AMENDMENT 15023 - AMENDING SECTIONS 1 THROUGH 10 OF CHAPTER 2.05 ENTITLED “STORMWATER DRAINAGE DESIGN STANDARDS” TO ADD DEFINITIONS, TO PROVIDE INFORMATION REGARDING THE DRAINAGE CRITERIA MANUAL, TO UPDATE THE DESIGN STANDARDS TO CLARIFY REFERENCES TO OTHER DOCUMENTS; AND UPDATE THE DESIGN STANDARDS TO MATCH PROVISIONS IN CHAPTER 28.03 OF THE LINCOLN MUNICIPAL CODE ENTITLED “REGULATIONS FOR POST CONSTRUCTION STORM WATER MANAGEMENT” AND CHAPTER 8 TO THE CITY OF LINCOLN’S DRAINAGE CRITERIA MANUAL - Ben Higgins, Public Works, came forward and stated that this is just a guidance, the ordinances were passed in early 2014. He stated that this is a companion document that is part of the design standards in chapter 2.05.

Cyndi Lamm, Council Member, inquired about how far down stream we would inspect pipes to ensure that the existing pipes are up to standards.

Mr. Higgins stated that in the past ordinances were passed that stated if you have open channels you need to leave them open, and a lot of times with the development you do not have a big drainage system that affect streams. He also stated that you do not want someone to up size a pipe to bring more drainage downstream. Mr. Higgins stated that when they do big projects they work from downstream to upstream.

Mr. Higgins stated that the water quality standards are for minor events. Minor events are approximately 80% of the storms in Lincoln that are 0.83 inches or less and that is what the quality standards are meant for, not for major events. The Clean Water Taskforce recommended 90% for all development and 80% for redevelopment, the compromise was that 80% for developments and 70% for redevelopments. The one year sunrise clause was another compromise and changed from one year to two years. Discussion followed.

This matter was taken under advisement.

APPEAL BY CARL ESKRIDGE OF THE STARTRAN ADVISORY BOARD ACTION APPROVING THE TRANSIT DEVELOPMENT PLAN (TDP) AND THE NEAR-TERM ROUTE CHANGES THAT ARE PART OF THE TDP - Thomas Wittmann, Consultant with Nelson/Nygaard, 1402 Third Avenue, Seattle, Washington, came forward and stated there are consistent demands from the public on bus service wanting
better service, later service, and more frequent service. Mr. Wittmann stated that the three areas that the Transit Development Plan were based on were marketing, how the current system is operating, and what the public response was. Three different alternative plans were developed and presented to the public in an online survey with over 300 responses, two different open houses, discussions with the different advisory board, and multiple meetings with the drivers. Using some of the feedback that was received, a Preferred Alternative Plan was developed and a public hearing was held a month ago. Using some of the feedback from this meeting additional changes were made to the Preferred Alternative Plan.

Mike Davis, Transit Manager for StarTran, came forward and stated that over the last 11 months they have been working on making several changes to this plan to address several issues. Some of the changes will be adding evening service, Saturdays scheduled that are like the weekday schedules to help with confusion on times, increase frequency of bus times, a new crosstown route, improving the transfer system, improving speed and reliability, and adding bus stops. They are excited to continue providing service and to continue to improve service. With these changes over the next three years, they predict an increase of 5%, currently our growth is less that one percent per year.

Cyndi Lamm, Council Member, questioned if the public has had enough time to go over these changes. Ms. Lamm stated that she has requested a date certain for a vote on February 8, 2016, to give the public time to review the new plan.

Roy Christensen, Council Member, asked what is the vision for the future and how does this plan fit in? Mr. Davis stated that 50% of riders today depend on the transit. And that all riders are wanting a better system. Our current system makes getting around the City difficult, with long waits and a bus system that doesn’t run into the evening.

Mr. Christensen asked if the two goals were to improve service and increase the number of choice riders.

Mr. Davis said yes.

Jon Camp, Council Member, asked about the bus fare. Mr. Wittmann stated that the fare should remain the same, and can be a very powerful tool to increase rider ship.

Jane Raybould, Council Member, asked about the later hours with the new plan and questioned the staggered times for some routes.

Mr. Wittmann stated that it is standard practice to look at each route and the needs for that route. This is why some of the routes have a later schedule than others.

Jeff Altman, 2319 Winding Way, stated that he was on the Transit Development Plan Advisory Committee, and feels that this was the most scientific and thorough process that he has seen on behalf of StarTran. Mr. Altman stated that taking the bus is better for the environment, helps our road system, saves the customer money, and it builds a strong base for the future in public transportation. He also feels that we need to invest more money into StarTran.

Sitaram Jaswal, 3325 Grimsby Lane, came forward and stated that he has been using the bus for 40 years, with the new plan he would need to walk an additional 7 blocks and would need to wait an one hour for the next bus. He also stated that the new plan shows that approximately 20% of the City of Lincoln with service will also change to one hour service. Mr. Jaswal stated that the current system is much better than what is being proposed, and that they need to make additional changes.

Richard Schmeling, 4612 Van Dorn St., came forward and stated his background is in transportation, and this new plan is badly flawed and will impact many people. He stated he feels that the transit system is needing more money. That we’re robbing Peter to pay Paul and now Mr. Jaswal is going from having service to not having service. There are areas in Lincoln that people will have to walk several blocks. This is creating transit deserts with the new plans. Costs for everything continue to rise and the money that is given to StarTran has remained the same for the past five years. Mr. Schmeling feels that we should keep the Transit Development Plan and improve it and not keep the Preferred Alternative portion.

Don Nelson, 2430 S Canterbury Lane, came forward and stated that he feels we need to change the way that we look at StarTran, and he feels we need to start restoring some of the resources that are necessary to provide a public transit system for a robust and growing community such as Lincoln.

Mr. Camp asked Mr. Nelson what he felt the top three elements of a public transit system what would be number one.

Mr. Nelson said his dream would be to link the public transit system with employers and education for the public.

Amy Dickerson, Lancaster County Event Center, 4100 N 84th, would like to see the Event Center put on the bus route, that they are the largest public facility that is not on the route. Ms. Dickerson stated that there are several events that are free or near free to the community. Ms. Dickerson stated that there are several openings at the Event Center and the nearest bus route is 14 blocks away and some of the employees of the Event Center are currently walking to work even in the winter.

Hardy Holm, 1617 Garfield St., is in favor of improving transportation. Mr. Holm stated that with the new plan he can see that the North side of Lincoln had more wins with the bus schedules and the South side of Lincoln does not. Mr. Holm said that he does like the later hours with this new plan.

Bob Reeves, 3236 Dudley St., likes to take the University bus that runs every 10 minutes. He also likes the talk about later hours, he feels that several things are going on later in the evening that he and his wife would do if they could get a later bus. Mr. Reeves stated that one night he missed his regular bus and he was going to have to wait an hour for the next bus.
John Braisted, 3825 S. 19, stated that he feels one of the issues is that several people have made housing choices based on bus stops like he has. Mr. Braisted said that if people had to walk farther to get to the bus less would ride to the bus. And that there should be a bus to the Lancaster Event Center and we should consider this for the future.

Mike Morosin, 1500 N. 15th St., stated that he rides the bus everyday to the Senior Center to eat lunch and inquired about the number on the back of his bus pass showing that he is a frequent customer, and that being a frequent customer he should have been contacted and asked about the changes with the new plan since this will affect frequent customers. Mr. Morosin stated that when he first came to Lincoln you could get around, but over the years he has watched all of the cut backs to the bus system.

Marilyn Kruger, 2324 A St., stated that she is a StarTran employee and is talking today for her customers that were unable to get to City Council. Ms. Kruger stated that the transit system needs more funding. The customers that take her bus will have to walk farther to get another bus and they are not able to do this and it will devastate her customers. She feels that it is a good plan it just does not go far enough, that we need to implement the entire five year plan now.

Carl Eskridge, Council Member, encouraged Ms. Kruger to have her customers write a letter and send it to City Council and encouraged others to do the same.

Charles Schroeder, President of A212-93, 5420 W. Chancery Rd., is speaking on behalf of drivers of StarTran, he feels that the system layout for the plan is about the best that we can do. He also feels with additional money we would be able to go into phase two that would extend all of the hours to 10 p.m. Mr. Schroeder did mention that it would take longer to cover areas that we are not currently covering. He also mentioned that new people to the area find it had to believe that as long as they are on the bus route the bus will stop at any corner to pick up customers without having a bus stop sign.

Lori Simms, 2525 S St., stated that she had been taking the bus for 40 years, now when she needs the bus the most she can’t get to where she needs on the bus system, that this is a good plan but not good enough. Ms. Simms said that they need to keep her bus stop. Ms. Simms stated that the bus system needs to do more, that she would do events if she could get to them, and she depends on the bus to get around.

Pat Shures, no address given, stated that she has a friend that rides the bus and with the new schedule her friends will need to walk a longer distance to get to the bus and cross a busy street. Ms. Shures stated that she would also have to make changes.

Trent Fellers, Council Chair, asked Mr. Wittmann and Mr. Davis to address some of the questions that came up during the public hearing.

Mr. Davis said that where the bus stops are something that they look at very closely and where the best place would be for a bus stop.

Mr. Wittmann stated the TDP does not say where the bus stops should be, and that it is easier to make changes and improvement to a bus stop with better amenities for the public. Mr. Wittmann also feels that customers will be willing to walk farther for better service and faster service.

Mr. Davis stated that they have put together 5 phases to this plan. They will need to do this project in phases. These phases will address several of the public concerns. The first couple of phases are more vital and that is increasing frequency and later hours for current routes.

Mr. Wittmann stated that 2.5 Million dollars is what is needed for all 5 phases of this plan and that there is a lot more needed today within the community than what is being provided for by the transit system. Discussion followed.

This matter was taken under advisement.

COMP. PLAN CONFORMANCE 15031 - DECLARING FOUR VACANT PARCELS OF LAND GENERALLY LOCATED AT NORTH 14TH AND NEW HAMPSHIRE, 2100 Y STREET, AND CITY-OWNED LOTS ON THE 400 BLOCK OF SOUTH 40TH STREET AND THE 400 BLOCK OF SOUTH 55TH STREET AS SURPLUS PROPERTY - David Landis, Urban Development, came forward and stated that this went before the Planning Department and was approved. Mr. Landis stated that this is land that the City does not need and would like to make it available for the public to purchase. The sale of this land will save the City money. Discussion followed.

This matter was taken under advisement.

Discussion followed. This matter was taken under advisement.

In Article 4 Section 12 of the Charter, it talks about the Executive Administrative Power of the City being best and exercised by the Mayor, and further into this section it states that the Mayor should be fully responsible for the proper conduct of the Executive Administrative Works and Affairs of the City. Under Duties and Powers, as listed in Subsection 5, it states that the Mayor exercises supervision over making purchases and contracts and personally makes or approves purchases and contracts in excess of $25,000.00 dollars. Mr. Hoppe stated that the City Charter states that the Mayor approves the contracts. The ordinance that is drafted doesn’t conform to that in several areas. Mr. Hoppe stated that he does not feel that City Council has the authority to make these changes as stated by the language in the City Charter. Discussion followed. This matter was taken under advisement.
