

EMERGENCY ROOM
BRYAN HOSPITAL
EAST LOCATION

MR. VENTRY AND STAFF IN THE EMERGENCY ROOM

On Tuesday I came down with a very dizzy spell which lead me to call 911 (first time) and was taken to Bryan. Under your care which was excellent I was able to recover and go home the same day. The professional help you gave me was way above the excellent mark and I want to extend to all of you a strong thank you for what you did for me. I know this is your job but you did it in a very professional way.

I am sending this through Mr.Ventry as his daughter was on my tennis team as my No. 1 player a few years back. Of course I hope not to return again to the emergency room but if I ever do I will feel very good to be there and in such good hands.

I request this sent through you emergency room and also to all including the Doctor's involved in seeing this memo. If you can which is important to me that the people that responded to me which was the medic's who came to my house need to be commended for what they did. (Please let them know as well my appreciation).

Thanks again and I wish all a Merry Christmas and a great New Year.
