Bureau of Fire Prevention Policy
Public Liability Insurance and Bond Requirements
For
Pyrotechnic Display Permits

Section 3301.2.4, 2000 Edition of the International Fire Code: The Permittee shall furnish a bond or certificate of insurance in the amount deemed adequate by the Chief for payment of damages which could be caused either to a person, persons or to property by reason of the permitted display and arising from acts of the Permittee, agents, employees or subcontractors.

Public Liability of Insurance

The Permittee shall maintain during the life of this contract, Public Liability Insurance, naming the City of Lincoln as an additional insured against claims for damages resulting from (a) bodily injury, including wrongful death, and (b) property damage which may arise from operations from under this permit whether such operations be by himself/herself or by anyone directly or indirectly employed by him/her. The Permittee shall provide a certificate of insurance as evidence of coverage with the permit. The minimum acceptable limits of liability to be provided by such insurance shall be:

\$2,000,000.00 Combined Single Limit each occurrence

If the Permittee is an employee or subcontractor of the Insured, the certificate of insurance shall extend coverage to its employees or contractors and the Permittee shall provide evidence of its employee or contractual relationship to the insured when making application for a permit.

Name of Insured _____

Are you an employee or subcontractor of Insured? _____

Does the insurance coverage extend to employees or subcontractors of the Insured? _____

**Please provide evidence of your employee or contractual relationship by either a letter, on company letterhead, from your employer or contractor indicating that you are an employee or subcontractor covered under their insurance policy or provide a certificate of insurance specifically naming you as an insured. Please attach said evidence to the application. .

Bond Requirements

When the Chief determines that unusual or exceptional hazard exists, every applicant for a permit for a public display of fireworks shall file with the application, a bond in the sum of not less than five thousand dollars (\$5,000.00) executed by a bonding company for surety company authorized to do business in the State of Nebraska, or in lieu of such a bond, the application may be accompanied with a certified check payable to the City of Lincoln, Nebraska, in the sum of five thousand dollars (\$5,000.00). . Such bond or surety shall be conditioned that the person to whom such a permit shall be issued shall save and keep the City free and harmless from any and all loss or damages or claims for damages arising out of such public display of fireworks, and for the faithful performance and observance of all the terms, conditions, and requirements for the issuance of the permit for such public display of fireworks.

General Requirements for Proximate Audience Pyrotechnic Displays

1. **Storage**: Storage of all pyrotechnic materials shall be in accordance with NFPA 1126, Use of Pyrotechnics before a Proximate audience.
2. **Pyrotechnics Plans**: Before the performance of any production the applicant shall submit a plan for the use of pyrotechnics to the Bureau of Fire Prevention. After a permit has been granted, the permittee shall keep the plan available at the site for safety inspections by the Bureau of Fire Prevention.
 - Any additions to the pyrotechnic performance **must be approved by** the Chief of the Bureau of Fire Prevention.
3. **Fire Extinguishers**: Two or more fire extinguishers and proper classification and size as approved by the Bureau of Fire Prevention shall be readily accessible while the pyrotechnics are being loaded and prepared for firing or fired.

* Personnel shall have a working knowledge of the use of the application of the fire extinguishers. Fire Extinguishers shall be present while the pyrotechnics are being handled, used or removed.
4. **Separation Distance for Audience**: Each pyrotechnic device fired during a performance shall be separated from the audience by at least 15 feet but not less than twice the fall out radius of the device. Concussion motors shall be separated from the audience by a minimum of 25 feet. There shall be no glowing or flaming particles within ten feet of the audience.
5. **Age Requirements**: All pyrotechnic operators shall be 21 years old and the assistance should be 18 years old.

Safety Precautions

1. Pyrotechnic materials and devices shall be maintained in a neat and orderly condition and shall be kept free of any conditions that can create a fire hazard.
2. Pyrotechnic materials and devices shall be stored in accordance with the regulations promigated by the Bureau of Alcohol, Tobacco and Firearms, ATF.
3. No quantity of pyrotechnics greater than that needed for the production of the special affects in the performance or rehearsal shall be removed from storage.
4. Smoking shall not be permitted within 25 feet of the area where pyrotechnics are being handled or fired.
5. No pyrotechnics shall be left unattended.
