

RAIN BARREL (ADD-ON) REIMBURSABLE EXPENSES

A maximum of two rain barrels (40 to 60 gallons) may be added on to any qualifying project.

REIMBURSABLE EXPENSES

- Rain barrel and parts (e.g. spigot, overflow, screen, etc.)
- Gutter additions and downspout extensions to direct water to the rain barrel
- Materials to construct a rain barrel platform
- Design and installation labor performed by a landscape company or contractor
- Attendance of a rain barrel or stormwater workshop or educational class

NON-REIMBURSABLE EXPENSES

- Ornamental features (e.g. decoration)
- Tool purchases (e.g. power tools, etc.)
- Irrigation equipment including hoses and sprinklers
- Water or other utility bills, gasoline, etc.
- Labor done by the homeowner or a non-professional
- Rain barrels as a stand-alone project
- Additional landscaping or dirtwork that does not pertain to the rainscaping projects
- Expenses for work performed or projects completed prior to acceptance into the program
