## Medicare Hospice Care

Medicare pays for hospice care for terminally ill beneficiaries who choose to receive hospice care rather than regular Medicare benefits for management of their illness. Medicare hospice is a program of care generally provided in the patient's home by a Medicare approved hospice provider. The focus is on care and not cure.

Ask your hospice care provider about specific Medicare coverage.

## Hospice & Palliative Care Services

Hospice and Palliative Care provides a full range of palliative and supportive services for terminally ill people who are in the final stages of their illnesses, and for their families. Services may include medical care, pain and symptom management, home nurse visitation, case management, counseling and bereavement services for the patient and family members.
