

Dear Commissioners,

The following images pertain to the NeighborWorks application for the Hawley Landmark District.

The site at 600 N. 26th Street has been occupied by a two-stall garage of relatively recent vintage.

South of the site at 550 N. 26th is a large apartment building.

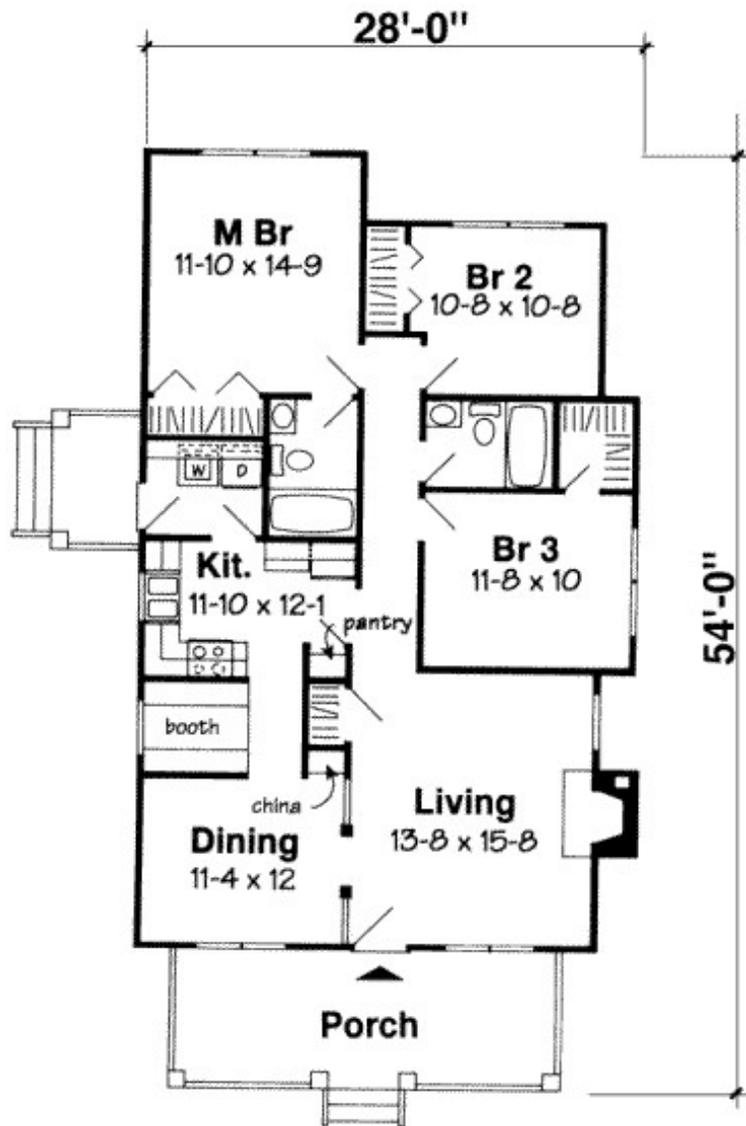

North of the subject property is an early cottage at 606 N. 26th.

The proposed infill house is a traditional bungalow design. Hawley District is very mixed in dates, size, and design of historic structures. The proposed design appears to be highly compatible with the overall character of the district.
