PART III

Program Description

A. Survey/Evaluation

Provide a narrative of program activities including identification and evaluation of historic resources in order to update or complete the local inventory of historic places. Cite projected number of contributing properties added to survey and inventory.

While we will continue survey fieldwork in SW Lincoln, a major emphasis this year will be integrating our existing survey files into the City's robust GIS system.

This in-house effort will involve staff and interns and will be accomplished over multiple years to include our thousands of surveyed sites, then can be maintained and updated with a lesser annual effort.

Statement of technical assistance needs

We will consult with H.P. Office staff to maximize the integration of our GIS layers with the N.S.H.S. system.

PART III

Program Description

B. Local Landmark Designation/National Register of Historic Places Registration/Tax Certification

Provide a narrative of program activities including local landmark designation, National Register nomination and tax certification of properties and historic districts within the CLG jurisdiction. Cite projected number of properties under each category.

In addition to designating several local landmarks and individual NR properties as is typical of our program annually, we'll work with the University Place (N. 48th) "main st." business community on a district centered on 48th & St Paul.

We also hope to see increased tax incentive utilization in our recently designated Blooms. & Woodshire districts, as well as Brown Bilt.

Statement of technical assistance needs

PART III**Program Description****C. Planning**

Provide a narrative of historic preservation planning activities including development of community-wide historic preservation plans, development of architectural guidelines and improvement of local historic preservation ordinances.

Planning Dept is undertaking a major effort to strengthen the community's design standards. We'll provide a preservation element in these standards where appropriate.

Statement of technical assistance needs

PART III

Program Description

E. Other Activities

Provide a narrative of "other" activities that address a particular preservation need or concern within the community but do not fall within other program areas (if applicable).

CLG staff will pursue continuing education through the NTHP annual conference in Spokane or similar opportunity.

Statement of technical assistance needs

PART III

Program Description

D. Public Participation/Public Education

Provide a narrative of educational activities, programs and publications that create awareness and understanding of local, state and federal historic preservation programs for both the historic preservation commission and the public at large, including student and adult audiences.

Public education is a centerpiece of the Lincoln program and will continue to utilize diverse means including direct tours and talks, television, and publications. We are also about to launch a revised webpage with enhanced, interactive content on our designated historic properties.
