

**Review and Advise**

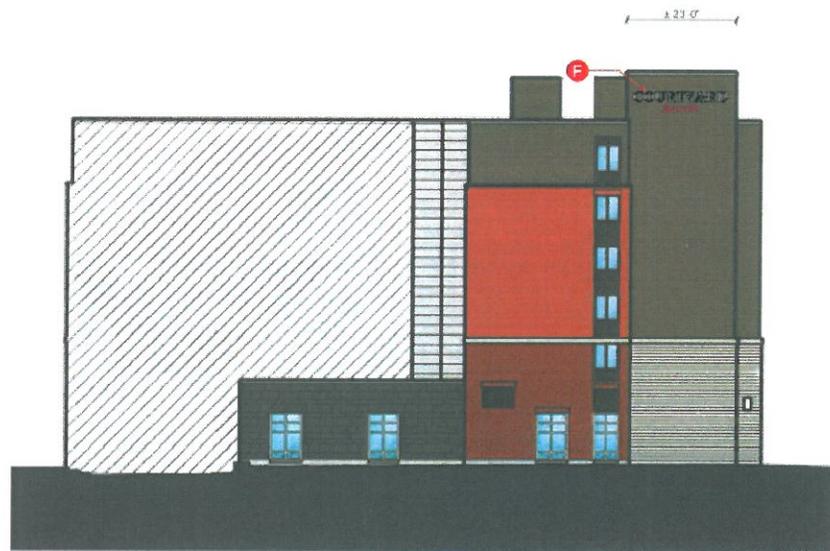

**PROPOSAL:**

The developers of Marriott Courtyard Hotel at 8<sup>th</sup> and R Streets have further developed their sign package and seek the Commission's input.

**DISCUSSION:**

HPC and UDC meet jointly on Sept. 5<sup>th</sup> and offered feedback on the hotel sign package.

The developers and hotel have agreed to use consistent designs (individual channel letters) on all the signs high on the facades (south, east, and north).

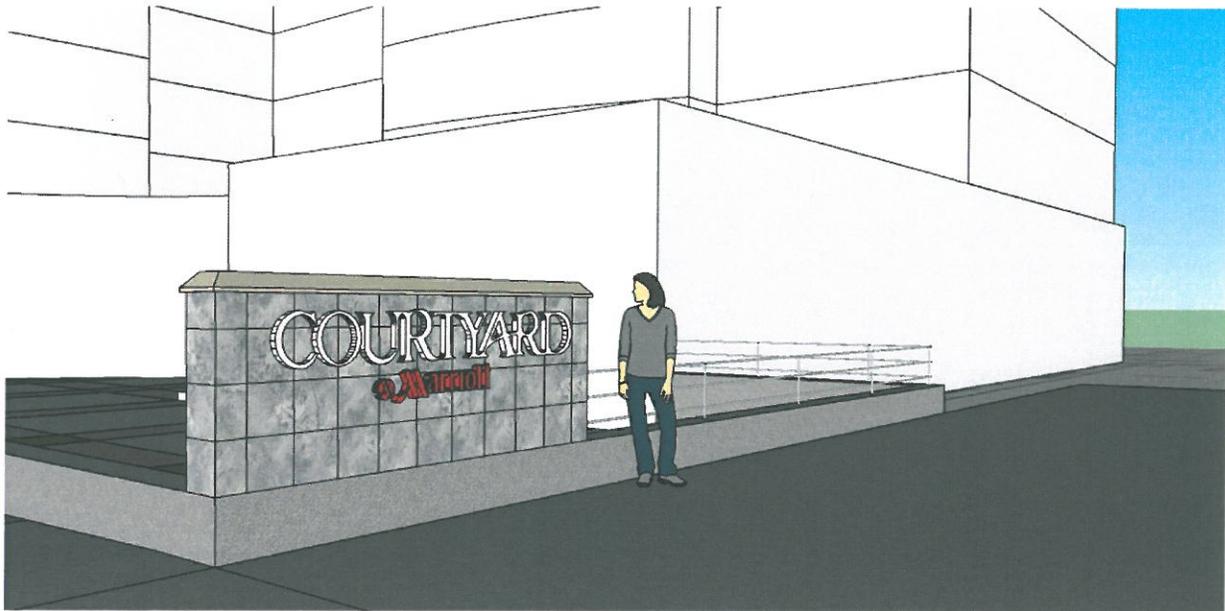

**EAST ELEVATION**  
SCALE: 1/32" = 1'-0"

The signs on the canopy in the R St. right of way have been set aside for further discussion.

The monument sign for the east wall of the entrance plaza has been more clearly depicted. If the museum is developed east of the hotel, the intention is to remove the north part of the wall, while retaining the

monument sign on the south part of the wall. The backing of the sign would be slate.

I believe that the review process has served both the hotel and the public interest, producing a more effective and attractive project.
