This is a combined staff report for related items. This report contains a single background and analysis section for all items. However, there are separate conditions provided for the special and use permits.

**P.A.S.:**
- Change of Zone #04039 from H-4 to B-5
- Special Permit #2046A for Planned Service Commercial in H-4
- Use Permit #150A - Appian Way Phase II

**PROPOSAL:**
To increase the area zoned B-5 from 35.91 acres to 44.85 acres, and reduce the area zoned H-4 from 17.61 acres to 8.67 acres; and, to reconfigure the Appian Way Road/Amber Hill intersection. The development still contains a total of 357,500 square feet of commercial and retail floor area as originally allowed (325,000 square feet on ten lots in B-5; 32,500 square feet on two lots in H-4).

**LOCATION:**
Southeast of the intersection of South 84th Street and Highway 2.

**WAIVER REQUESTS:**
1. Eliminate the preliminary plat process.
2. Allow a cul-de-sac in excess of 1,000’.
3. Setbacks adjacent to outlots.
4. Sidewalk along Highway 2.
5. Transfer of sewage from one drainage basin to another.
6. Lot lines not at a right angle to the street.

**LAND AREA:**
Approximately 53.52 acres.

**CONCLUSION:**
This request revises the previously approved Appian Way Phase II development by allocating more area to B-5 while reducing the area in H-4. As before, the waivers are justified, and with minor revisions to the plan this request complies with the Zoning Ordinance and Comprehensive Plan.

**RECOMMENDATION:**

Waivers:

Special Permit #2046A:
1. Eliminate the preliminary plat process. Approval
2. Allow a cul-de-sac in excess of 1,000'. Approval
3. Setbacks adjacent to outlots. Approval
4. Sidewalk along Highway 2. Approval
5. Transfer of sewage from one drainage basin to another. Approval
6. Lot lines not at a right angle to the street. Approval

Use Permit #150A:
1. Eliminate the preliminary plat process. Approval
2. Allow a cul-de-sac in excess of 1,000'. Approval
3. Setbacks adjacent to outlots. Approval
4. Sidewalk along Highway 2. Approval
5. Transfer of sewage from one drainage basin to another. Approval
6. Lot lines not at a right angle to the street. Approval

GENERAL INFORMATION:

LEGAL DESCRIPTIONS:

Change of Zone #04039 - See attached.
Special Permit #2046A - See attached.
Use Permit #150A - See attached.

EXISTING ZONING: H-4 General Commercial and B-5 Planned Regional Business

SURROUNDING LAND USE AND ZONING:

North: Regional Shopping Center B5
South: Agriculture, Residential AG
East: Residential AG & AGR
West: Agriculture, Residential AG & AGR
ASSOCIATED HISTORY: April 16, 2004 - The final plat of Appian Way Phase II Addition was approved creating 2 lots and eight outlots.

March 15, 2004 - Annexation #03002, Change of Zone #3411, Special Permit #2046, and Use Permit #150 to allow 357,500 square feet of commercial and retail floor area (290,000 square feet on eight lots in B-5; 67,500 square feet on five lots in H-4).

November 5, 2001 - The annexation agreement covering the land on both sides of Highway 2 at South 91st Street was approved by the City Council.

November 5, 2001 - The preliminary plat and use permit for Appian Way (now Prairie Lakes) was approved by the City Council, north of Highway 2.

March 26, 2001 - The Southeast Lincoln/Highway 2 Subarea Plan was approved by the City Council.

COMPREHENSIVE PLAN SPECIFICATIONS:

Page F27 - Urban Growth Tiers - This site is within the City’s Future Service Limit.

Page F95 - Bicycle and Trail Standards for Developing Areas - The Plan calls for the trail system to extend along both South 91st Street and the Omaha Public Power rail line.

Page F156 - Subarea Planning - Southeast Lincoln/Highway 2 Subarea Plan.

Southeast Lincoln/Highway 2 Subarea Plan:

Figure 2 - Designates office, service and residential transition uses for this site.

Page 9 - Promote a Desirable Entryway - Calls for a 400’ wide open space corridor along this section of Highway 2.

Page 9 - Designates a regional shopping center at this location.

Page 10 - Commercial transition - Within commercial areas, office and lower intensity uses along with appropriate buffer areas should be developed as a transition to adjacent residential uses.

Page 13 - Entryway Corridor - To preserve the entryway corridor, the land use and transportation decisions are equally important as landscaping or architectural standards.

Page 57 - The Greenprint Challenge: Implementation Principles

-Obtain reasonably constrained regulations – Maintaining a balance between the natural and human built environment is always a delicate one. Planning policy and regulatory approaches employed in achieving the Plan’s Vision and Greenprint Challenge should strive to be effective, tempered, pragmatic, circumscribed, and respectful of private property rights.
-Prevent the creation of a “wall-to-wall city” through the use of green space partitions – As cities and villages expand, establishing corridors and districts of green should be part of the growth process. This often requires the advance delineation of these areas and the means for securing their on going maintenance.

-Establish effective incentives for natural resource feature preservation. Securing the long term permanence of green space is a basic dilemma in natural resources planning. The use of “green space development incentives” (e.g., setting aside non-buildable areas, creating green space preserves, density bonuses) should be a primary consideration in implementing this Plan.

UTILITIES: All utilities are available to the site.

TRAFFIC ANALYSIS: The individual lots will be provided access with an internal private roadway system. The Subarea Plan shows the realigned South 84th and South 91st Streets as arterial streets. Highway 2 is also classified as an arterial street. The Capital Improvements Program (C.I.P.) currently identifies road improvements in South 84th Street in 2003-2004. South 91st Street for approximately 600’ south of Highway 2 is to be built by the developer. The 1.9 million square feet of commercial floor area permitted by the Appian Way annexation agreement for the land on both sides of Highway 2 generate a certain number of vehicle trips which trigger road improvements addressed in the agreement. A total of 5,283 p.m. peak hour vehicle trips were allowed by the annexation agreement, with 1,239 of those trips assigned to this development.

ANALYSIS:

1. Appian Way Phase II with the associated waivers was approved on March 15, 2004 in largely the same configuration shown now. The approximate eastern one-half of the development has been final platted as part of Appian Way Phase II Addition.

2. As approved, there are two H-4 tracts included in Special Permit #2046 for planned service commercial (one at the west edge of the development and another at the east edge). This combined request is proposing to change the zoning on the western H-4 tract to B-5 and include it in Use Permit 150A which covers the B-5 area.

3. The proposed layout enlarges former Lot 1, Block 3, and changes the use from warehousing to hotel/motel. H-4 was originally required to allow the warehousing, but with the change in use it is no longer needed. The remaining H-4 is in excess of five acres and can stand alone. These combined applications are to provide a larger Lot 1, Block 3 to accommodate a hotel/motel.

4. The site plan includes a 20’ easement for the bike trail. At the west end of the trail, it leaves the easement and is routed through Outlot F. The grading plan shows a small dam structure on Outlot F, and the trail is apparently routed over the top of it to provide
a suitable platform. The trail easement should be routed to follow the trail, and the final grading and trail location will be subject to approval by the Parks and Recreation Department.

5. The following minor corrections/additions to the plans are required:
   a. The total floor area shown in the Land Use Table is actually 351,800, not 357,500 as shown.
   b. A cumulative total for Net PM Trips added at the bottom of the column.
   c. Required parking for hotels/motels under Parking Ratios revised to include “PLUS 1 SPACE PER 100 SQUARE FEET OF FLOOR AREA FOR ACCESSORY USES.”
   d. General Note #13 revised to reference only LMC Section 27.37.025, and by deleting “OR WAIVED BY CITY COUNCIL.”
   e. The correct legal and metes and bounds descriptions for both the B-5 use permit area and the H-4 special permit area.
   f. The Waivers list revised to include: 6. LOT LINES NOT AT RIGHT ANGLES TO STREETS.

CONDITIONS:

Special Permit #2046A

Site Specific:

1. After the applicant completes the following instructions and submits the documents and plans to the Planning Department and the plans are found to be acceptable, the application will be scheduled on the City Council’s agenda:

   1.1 Revise the site plan to show:

      1.1.1 The developer is responsible for grading the trail platform in conjunction with this development. The trail easement must be routed to follow the trail, with the final grading and trail location subject to approval by the Parks and Recreation Department.

      1.1.2 The floor areas in the Land Use Table revised for a total 357,500 square feet, or the total changed to 351,800 to reflect the amounts shown.

      1.1.3 A cumulative total for Net PM Trips added at the bottom of the column.

      1.1.4 Required parking for hotels/motels under Parking Ratios revised to include “PLUS 1 SPACE PER 100 SQUARE FEET OF FLOOR AREA FOR ACCESSORY USES.”
1.1.5 General Note #13 revised to reference only LMC Section 27.37.025, and by deleting “OR WAIVED BY CITY COUNCIL.”

1.1.6 The correct legal and metes and bounds descriptions for both the B-5 use permit area and the H-4 special permit area.

1.1.7 The Waivers list revised to include: 6. LOT LINES NOT AT RIGHT ANGLES TO STREETS.

2. This approval permits 32,500 square feet of commercial and retail floor area with waivers to the preliminary plat process, to allow a cul-de-sac in excess of 1,000’, to reduce setbacks from 20’ to 0’ adjacent to outlots, to not require a sidewalk along Highway 2 and South 87th Street, to allow the transfer of sewage from one drainage basin to another, and to allow lots not at right angles to streets.

General:

3. Before receiving building permits:

3.1 The permittee shall have submitted a revised and reproducible final plan including 6 copies and the plans are acceptable.

3.2 The construction plans shall comply with the approved plans.

3.3 Final Plats shall be approved by the Planning Director consistent with the approved use permit.

Standard:

4. The following conditions are applicable to all requests:

4.1 Before occupying the buildings all development and construction shall have been completed in compliance with the approved plans.

4.2 All privately-owned improvements shall be permanently maintained by the owner or an appropriately established association approved by the City Attorney.

4.3 The site plan accompanying this permit shall be the basis for all interpretations of setbacks, yards, locations of buildings, location of parking and circulation elements, and similar matters.
4.4 This resolution's terms, conditions, and requirements bind and obligate the permittee, its successors and assigns.

4.5 The applicant shall sign and return the letter of acceptance to the City Clerk within 30 days following the approval of the special permit, provided, however, said 30-day period may be extended up to six months by administrative amendment. The clerk shall file a copy of the resolution approving the special permit and the letter of acceptance with the Register of Deeds, filling fees therefor to be paid in advance by the applicant.

Use Permit #150A

Site Specific:

1. After the applicant completes the following instructions and submits the documents and plans to the Planning Department and the plans are found to be acceptable, the application will be scheduled on the City Council's agenda:

1.1 Revise the site plan to show:

1.1.1 The developer is responsible for grading the trail platform in conjunction with this development. The trail easement must be routed to follow the trail, with the final grading and trail location subject to approval by the Parks and Recreation Department.

1.1.2 The floor areas in the Land Use Table revised for a total 357,500 square feet, or the total changed to 351,800 to reflect the amounts shown.

1.1.3 A cumulative total for Net PM Trips added at the bottom of the column.

1.1.4 Required parking for hotels/motels under Parking Ratios revised to include “PLUS 1 SPACE PER 100 SQUARE FEET OF FLOOR AREA FOR ACCESSORY USES.”

1.1.5 General Note #13 revised to reference only LMC Section 27.37.025, and by deleting “OR WAIVED BY CITY COUNCIL.”

1.1.6 The correct legal and metes and bounds descriptions for both the B-5 use permit area and the H-4 special permit area.

1.1.7 The Waivers list revised to include: 6. LOT LINES NOT AT RIGHT ANGLES TO STREETS.
2. This approval permits 325,000 square feet of commercial and retail floor area with waivers to the preliminary plat process, to allow a cul-de-sac in excess of 1,000', to reduce setbacks from 20' to 0' adjacent to outlots, to not require a sidewalk along Highway 2 and South 87th Street, to allow the transfer of sewage from one drainage basin to another, and lot lines not a right angles to streets.

General:

3. Before receiving building permits:

3.1 The permittee shall have submitted a revised and reproducible final plan including 6 copies and the plans are acceptable.

3.2 The construction plans shall comply with the approved plans.

3.3 Final Plats shall be approved by the Planning Director consistent with the approved use permit.

Standard:

4. The following conditions are applicable to all requests:

4.1 Before occupying the buildings all development and construction shall have been completed in compliance with the approved plans.

4.2 All privately-owned improvements shall be permanently maintained by the owner or an appropriately established association approved by the City Attorney.

4.3 The site plan accompanying this permit shall be the basis for all interpretations of setbacks, yards, locations of buildings, location of parking and circulation elements, and similar matters.

4.4 This resolution's terms, conditions, and requirements bind and obligate the permittee, its successors and assigns.

4.5 The applicant shall sign and return the letter of acceptance to the City Clerk within 30 days following the approval of the special permit, provided, however, said 30-day period may be extended up to six months by administrative amendment. The clerk shall file a copy of the resolution approving the special
permit and the letter of acceptance with the Register of Deeds, filling fees therefor to be paid in advance by the applicant.

Re: Applian Way Phase II (Revised)

Staff members of the Lincoln Parks and Recreation Department have conducted a plan review of the above-referenced application/proposal and the following comments:

1. The Bikeway trail illustrated within Outlot E and along the east side of relocated Yenisee Hill Road to be constructed by the City. The developer is responsible for grading the trail platform in conjunction with the adjacent developer/property owner(s).

2. The Parks Department will verify grading of trail and platform and notify developer and/or developer’s engineer if changes are required.

3. The Parks Department will work with Lincoln Electric System regarding the portion of the trail that runs through the substation site.

If you have any additional questions, comments or concerns, please feel free to contact me at 441-8248. Thank you.
The Lincoln-Lancaster County Health Department (LLCHD) has reviewed the proposed development with the following items noted:

- All wind and water erosion must be controlled during construction. The Lower Plate South Natural Resources District should be contacted for guidance in this matter.

- During the construction process, the land owner(s) will be responsible for controlling off-site dust emissions in accordance with Lincoln-Lancaster County Air Pollution Regulations and Standards Article 2 Section 32. Dust control measures shall include, but not limited to application of water to roads, driveways, parking lots on site, site frontage and any adjacent business or residential frontage. Planting and maintenance of ground cover will also be incorporated as necessary.
