RE: Agenda of December 11, 2013

DATE: December 6, 2013, 2013

I expect a shorter meeting than in November, focusing on updates on several of the projects previously discussed.

Item #2 is UDC's follow-up look at the "Block 68"/Gold's parking lot mixed-use development proposal. The developers indicated that would have additional information on the N St. retail spaces and on the overall streetscape plans.

Item #3, the mixed-use "Lincoln Exchange" project east of 21st St. between L and N Streets, was also reviewed in November, when the Committee asked for updated information on the mixed-use building on N Street.

Item #4, the Hartley Flats at 27th & S Streets, is listed to provide an opportunity for updates on questions the Committee raised in November regarding the 27th St. entrances and the north end wall.

Item #5, the Enersen Urban Design Award, will update the Committee and seek guidance on plans to select an award winner in January 2014.
