

OPEN HOUSE NOTICE

The City of Lincoln is proposing improvements to the storm water drainage system within the shaded area.

Improvements will increase the capacity of the existing storm drainage pipes which generally follow the green line.

These improvements will help protect neighborhood properties from flooding caused by storm water runoff.

The City of Lincoln will be hosting an informal Public Open House to discuss proposed drainage improvements in your neighborhood. You are invited to attend this open house to discuss this storm drain project.

Date: Tuesday, October 2, 2007

Time: 5:30 p.m. - 7:30 p.m.

Location: Helen Hyatt Elementary School,
5140 Calvert Street
