

**Table 1-1 – Preferred Path for System Definition**

| Option/Topic                                    | Options Decision for System Definition  |
|---|---|
| Source Reduction                                | Expand Programs that Lead to Greater Source Reduction.  |
| Toxics Reduction                                | Expand the Toxics Reduction program and create a place to provide year round access.  |
|   |   |
| Yard Waste                                      | Maintain Status Quo (Seasonal Ban)  |
| Residential Recycling and Diversion             | Residential Curbside Recycling to be provided <sup>(1)</sup> to all single family and duplex dwellings City wide.                           |
| Commercial Recycling and Diversion              | Commercial Recycling to be provided <sup>(2)</sup> to multi-family dwellings, businesses, industries and institutions.                      |
| Construction and Demolition Materials Recycling | Preferred Path not yet identified   |
| Organic Waste Diversion (Composting)            | Develop/Support programs to reduce the quantity of organics, especially food waste, going to the City's MSW disposal site.                  |
|   |   |
| Waste Conversion Technologies                   | Pursue the development of Waste Conversion Technology(ies) as a part of a long-term strategy for energy recovery and resource conservation. |
|   |   |
| Municipal Solid Waste Disposal                  | Expand on City-owned property to the east of the currently permitted site.  |
| Construction and Demolition Waste Disposal      | Expand on City-owned property.  |
| Bioreactor/Bio-Stabilization Technologies       | No further consideration is given in the System Definition to pursuing the development of a bioreactor/bio-stabilization technology.        |
|   |   |
| Transfer Station and Processing Facilities      | Develop a municipal solid waste Transfer Station if a feasibility study shows it can be cost effective.                                     |

1. The term “provided” was explained in the meeting as meaning “Universally Available” which was further defined as being mandatory that recycling services be provided to all single family and duplex dwellings but resident participation would be voluntary.
2. The term “provided” was explained in the meeting as meaning “provided by ordinance” which would mean it would be mandatory that it be provided to all multi-family dwellings, businesses, industries and institutions either as hauler provided or building owner/operator provided.

**Table 1-1 – Preferred Path for System Definition**

| Option/Topic                                    | Options Decision for System Definition  |
|---|---|
| Source Reduction                                | Expand Programs that Lead to Greater Source Reduction.  |
| Toxics Reduction                                | Expand the Toxics Reduction program and create a place to provide year round access.  |
|   |   |
| Yard Waste                                      | Maintain Status Quo (Seasonal Ban)  |
| Residential Recycling and Diversion             | Residential Curbside Recycling services to be available to all single family and duplex dwellings City wide, however resident participation would be voluntary. |
| Commercial Recycling and Diversion              | Commercial Recycling to be available to multi-family dwellings, businesses, industries and institutions, however participation would be voluntary.              |
| Construction and Demolition Materials Recycling | Preferred Path not yet identified   |
| Organic Waste Diversion (Composting)            | Develop/Support programs to reduce the quantity of organics, especially food waste, going to the City's MSW disposal site.                                      |
|   |   |
| Waste Conversion Technologies                   | Pursue the development of Waste Conversion Technology(ies) as a part of a long-term strategy for energy recovery and resource conservation.                     |
|   |   |
| Municipal Solid Waste Disposal                  | Expand on City-owned property to the east of the currently permitted site.  |
| Construction and Demolition Waste Disposal      | Expand on City-owned property.  |
| Bioreactor/Bio-Stabilization Technologies       | No further consideration is given in the System Definition to pursuing the development of a bioreactor/bio-stabilization technology.                            |
|   |   |
| Transfer Station and Processing Facilities      | Develop a municipal solid waste Transfer Station if a feasibility study shows it can be cost effective.   |
