

2021 Saline County Report

Last year, 901 individuals received over 28,000 total units of services delivered via Saline County Senior Services and Aging Partners. The need to grow services continues as services are currently reaching 34 percent of county citizens who are age 65 and over. This percentage continues to rise annually.

Saline County is aging. In 2017, 20 percent of the county's population was 60 and over. Between 2015 and 2030, the population of persons age 65 and over is expected to increase 49 percent, as depicted in the graph below. More Saline County residents will seek services to remain healthy and independent in their own homes.

Revenue to support this work includes county tax support (43%), state and federal funds from Aging Partners (39%), state and federal funds direct to the county programs (1%), local public funds (5%) and local private funds (11%).

Dues paid to Aging Partners, the area agency on aging that supports Saline County, ensures that federal and state funds for aging services flow into the county. This year, Aging Partners is requesting \$32,389, a 2.5 percent increase in funding from FY20.
