MESSAGE FROM THE CHIEF

It is with great pride that I am able to present to you this annual report after my first full year serving as Fire Chief for Lincoln Fire & Rescue. Even with a record 12% increase in requests for response, our members rose to the challenge.

This annual report is intended to attempt to communicate the breadth of the workload imposed upon the dedicated members of this department and to also attempt to demonstrate the quality of the services provided through their efforts. Likewise, it serves as a way for us to mark the milestones and accomplishments in the previous year to help us measure and celebrate just how far we have come. In turn, it also provides us the opportunity to name the challenges we face in the year ahead and set goals for the next year to keep us all headed in the best direction.

Moreover, this report is an attempt to convey to all our personnel, city partners, elected officials, and community members just how grateful we are for their support and reinforce how important their support has been to our department’s ability to successfully respond to daily emergencies from car fires to medical episodes in service to the City overall, maintaining the department’s facilities and apparatus, and continually pushing to improve the department in all respects every day.

Accomplishments:
- Achieved record high cardiac survival rates
- Made significant headway towards replacing Station 8
- Made structural administrative changes to improve efficiencies with regards to budget oversight, logistics and restored the second assistant chief position
- Entered into longer-term and more comprehensive agreements for necessary medical equipment that will bring significant savings for the department over time
- Finalized an agreement to replace the aged, home-grown records management system
- Prepared for the implementation of a new, intuitive, and much less cumbersome patient care reporting system that will save a significant amount of time for providers in the field going forward
- Secured funding the city’s capital improvement projects program for a facilities and apparatus replacement schedule to ensure the continued improvement of the department’s facilities and maintenance of a healthy fleet
- Continued the focus on diversity and inclusivity in hiring to ensure the department represents the community it serves.
- Promoted the department’s second female battalion chief
- Obtained approval to put an eighth medic unit service to meet the increasing demand for service
- Implemented a new Computer Aided Dispatch (CAD) system that dispatches units based off their location

Challenges
- Filling leadership positions and ensuring the professional growth and success of an otherwise, somewhat young leadership team
- Repairing and rebuilding the department’s deteriorating facilities and establishing a method to better maintain the department’s facilities going forward
- Renovating the department’s existing facilities where appropriate to better align with the needs of a modern fire department including finding the space to address gender equity concerns, safety, and cancer prevention, as well as improved turnout times.
- Improving ambulance response time rates while requests for service increase
- Ensuring sustainable overtime rates as the department grows
- Recruiting and hiring the caliber of employees necessary to maintain the department’s high levels of service at a rate that keeps the pace with the city’s growth and the attrition in the department due to well-earned retirements
- Attempting to predict and stay ahead of the city’s physical growth through advance land purchases for new stations
- Redrafting the department’s strategic plan in light of all the changes experienced in the last few years not only in the department but in the city and globally in the wake of the pandemic
- Working toward reaccreditation in 2024
- Succession planning
CORE VALUES

HONESTY AND INTEGRITY: in the performance of our duties.

DEDICATION AND COMMITMENT: To doing what is in the best interest of our residents.

PROFESSIONALISM AND TEAMWORK: As we work to restore balance in the lives of our community.

COMPASSION: Empathy as we serve all people equally and without prejudice, making every responsible attempt toward reaching their level of expectation.

We will demonstrate these values as we relate to one another and as we relate to the community we serve.

VISION

Lincoln Fire & Rescue will be recognized by our residents, businesses, institutions and regional fire agencies as a fire rescue department which places a high premium on quality service to others.

Our organizational culture will reflect an honest and respectful team atmosphere that nurtures open internal communication processes. These processes will allow for a greater employee involvement in and understanding of decisions. Our mission will be accomplished by a physically-fit and well-trained work force who are capable of accomplishing lifesaving activities across a diverse set of response domains. Our dedicated professional staff will demonstrate a commitment to excellence by applying empathy and compassion equally to all persons in our community without prejudice. Our leadership and labor force will work in a unified manner that strives to reach consensus on organizational issues that achieve a healthy work environment and employee satisfaction.

We will honor our community’s trust by providing the most effective, efficient and fiscally-responsible service possible to all areas of our community. By identifying our community risks and the demands of that risk, we will improve our response capacity by identifying resource and deployment strategies that carry the best interest of our community and increases the probability of fulfilling our mission.

We will expand our community information and education initiatives so that our priorities, philosophy and operations are clearly understood. We will explore all opportunities for quality fire and rescue service delivery while expending time and energy toward developing the best strategies for continued improvement. We will be driven by professional standards to ensure that the City of Lincoln receives outstanding fire and rescue services.

LF&R MISSION

“Our mission is to protect lives, property, and the environment through the highest level of professionalism while working efficiently as a team with the community and the resources provided.”

EMERGENCY SERVICES GOALS - 2021 PERFORMANCE

Lincoln Fire & Rescue recognizes that service to the community is sometimes difficult to measure and that the value of the services we provide must outweigh the cost to operate. LF&R uses a third-party to analyze and validate its data and performance metrics. The following list of performance measures are only a sample of the high level indicators used to determine effectiveness and efficiency in service delivery outcome areas.

- Save at least 95% of the value of property and contents threatened by fire.
- Contain structure fires to area of origin 80% of the time or better.
- First Unit Arrival – Total Response Time for Fire Incidents = 7 Minutes & 20 Seconds at 90%, and not less than 70%.
- Effective Response Force of 17 firefighters at High Risk Fire Incidents = 12 Minutes & 5 Seconds at 90%, and not less than 70%.
EMERGENCY SERVICES GOALS - 2021 PERFORMANCE

**First Unit Arrival** – Total Response Time for EMS Incidents = 7 Minutes at 90%, and not less than 70%.

**Lincoln Bystander CPR Rates**

- 2017: 63.00%
- 2018: 62.70%
- 2019: 60.06%
- 2020: 70.08%
- 2021: 67.20%

**National Average**

- 2017: 29%
- 2018: 60%
- 2019: 70%
- 2020: 80%
- 2021: 90%

**LF&R will achieve a CPR fraction of at least 90%, and not less than 80%**.

**Ambulance Arrival** – Response Time for Delta and Echo EMS Incidents = 8 minutes at 90%, and not less than 70%.

**Maintain bystander CPR rate at or above 60%** (CARES Data)

Cardiac survival rate equal to or better than the National average. (Utstein)
**SUPPORT ACTIVITIES SERVICE GOALS**

**2021 PERFORMANCE**

**Support Goal: Cost/Per Capita (Annual Budget / Population Served - Revenue)**
- Below $221
  - City Comparison: Des Moines, Ft. Wayne, Madison, St. Paul, Omaha, Kansas City, Cedar Rapids

**Support Goal: Insurance Services Office Rating**
- Class 2 or Better (Class 2 or 1)

**Support Goal: Prevent Civilian Deaths Due to Fire (Accidental / Unintentional)**
- Goal = 0
  - 2015 = 2
  - 2016 = 1
  - 2017 = 2
  - 2018 = 1
  - 2019 = 0

**Support Goal: Total Employee Workers Compensation Claim Costs**
- Less than 3.5% of total department annual budget
  - 2015 = 3.3%
  - 2016 = 3.8%
  - 2017 = 3.1%
  - 2018 = 2.5%
  - 2019 = 3.9%

**Support Goal: Accreditation Status Through CPSE**
- Maintain

**BATTALION 2 WAS REINSTATED 08/09/19, MEDIC 1 BECAME MEDIC 10 ON 08/01/19, AND ENGINE 15 WENT INTO SERVICE ON 10/31/19. TRUCK 7 WAS MOVED TO STATION 12 AND BECAME TRUCK 12 ON 05/01/20. ENGINE 16 WENT INTO SERVICE ON 05/27/20.**
Response types are broken down by both frequency and time commitment. EMS incidents total 80% of the call volume and encompass 74% of total time spent on incidents.

“Other” response types are the requests for service that don’t fit the standard incident response model. Examples include, burst pipes, assisting an elderly person who has fallen, power lines down, etc.
THE HEALTH OF OUR FLEET

In 2021 we ordered 2 new engines, 2 new trucks, and 1 new ambulance. We expect delivery in 2022.

VEHICLE SCORE CARD

| AGE | One point for each year based on in-service date. |
| MILES/HOURS | One point for each 10,000 miles or 250 hours of usage. |
| TYPE OF SERVICE | Points assigned as one to five depending on the type of service the vehicle performs. Note: Convert engine hours into miles (30 to 40 miles per engine hour). |
| RELIABILITY | One to five points based on the frequency that a vehicle is in the shop for repairs per month. Preventive maintenance work is not included. |
| MAINTENANCE AND REPAIR (M&R) COST | One to five points based on the total life M&R cost, not including accident repairs. |
| CONDITION | One to five points for body condition, rust, interior condition, anticipated repairs, and so on. |
| POINT RANGE | Less than 18, Excellent; 18 to 22, Good; 23 to 27, qualifies for replacement; and 28 and above means immediate replacement. (Source: APWA Vehicle Replacement Guide) |

Population Growth vs Calls for Service

One of the challenges for LF&R is maintaining service levels when demand for service grows at a rate of more than 4 times the rate for population. Several factors contribute to the increased demand. Baby boomers have reached the age where they require a higher proportion of our emergency medical services. Their needs range from serious medical issues to minor calls for assistance due to absence of local family support. Further demand is caused by an increased number of people using 911 for medical needs that may be later addressed through a visit to a primary care physician or urgent care center.

Lincoln Fire & Rescue has worked closely with our Medical Director, area hospitals, and the 911 Dispatch Center center to ensure we are providing the absolute best chance for survival from pre-hospital cardiac arrest. Attention to performance, developing solid relationships, and continual improvement has resulted in an award-winning EMS system.

To ensure that LF&R is accurately measuring performance, LF&R is a member of the CARES (Cardiac Arrest Registry to Enhance Survival) Registry. Each year, approximately 300,000 persons in the United States experience an out-of-hospital cardiac arrest (OHCA) or sudden death; approximately 92% of persons who experience an OHCA die. Despite decades of research, median reported rates of survival to hospital discharge are poor (ROSC 7.8%) (Return of Spontaneous Circulation) and have remained virtually unchanged for the past 30 years. Without a reliable and uniform method of data collection, communities cannot measure the effectiveness of their response systems, nor can they assess the impact of interventions designed to improve OHCA survival.

Participation in an OHCA registry enables communities to compare patient populations, interventions, and outcomes with the goal of identifying opportunities to improve quality of care and ascertain whether resuscitation is provided according to evidence based guidelines.
This graph illustrates the value of property saved from fire in relation to the cost to operate the fire department. As you can see, on an annual basis, LF&R saves property at a value 3 to 10 times the cost of operation. These values do not include extended economic impacts such as the value of a commercial occupancy opening for business the next day versus closing forever, or the impact to real estate prices if an adjacent structure burns and creates blight for a long period of time, etc.

Significant Incidents:

April
1820 Spring Meadows
- 2-alarm fire- $350,000.00 loss
- Five displaced and 3 cats died

October
8201 Jones Ave
- 2-alarm fire- $500,000.00 loss
- Four people displaced

November
5500 Shady Creek Ct
- $100,000.00 loss
- Five people and a dog rescued from building

Property Values Saved from Fire:

- 2017: $28,183,000
- 2018: $29,567,000
- 2019: $29,526,722
- 2020: $31,057,854
- 2021: $33,977,249

General Fund Cost to Operate LF&R:

- 2016: $28,183,000
- 2017: $29,567,000
- 2018: $29,576,722
- 2019: $31,057,854
- 2020: $33,977,249
- 2021: $36,935,658
In the mid-1990s, Fire Chief Michael Merwick made the decision to seek accreditation for the then-named Lincoln Fire Department. After achieving accredited status in 1997, Lincoln Fire & Rescue (LF&R) has been recognized by the Commission on Fire Accreditation International (CFAI) as an accredited agency. This tenure places us in rare company as one of the longest running accredited agencies, and the only accredited municipal fire department in the State of Nebraska. There are over 300 accredited agencies, comprised of municipal fire departments (like LF&R), fire districts, industrial and tribal departments, and Department of Defense agencies.

Maintaining our accredited status is not easy and is a continuous process. Every five years LF&R begins a nearly year-long process of reflection, review, and evaluation to ensure we meet an ever-evolving set of competencies known as the self-assessment. This also includes our strategic planning efforts, Standards of Cover Development, and culminates in a nearly week-long peer assessment.

During peer assessment, several officers from agencies around the nation thoroughly examine our policies, procedures, documentation & references, facilities, and interview us to ensure we are compliant with what is expected by the CFAI. We then sit before a panel of commissioners who confer and ultimately approve or disapprove the recommendation to accredit based upon the assessors’ site visit. Opening our doors in this manner could be viewed as intentional vulnerability. We embrace it and work each year to meet the recommendations made to us.

This substantial time investment into accreditation benefits everyone on multiple levels. Simply stated, the CFAI provides the baseline framework in which agencies should operate to ensure credibility, quality assurance, and quality improvement. This includes and is not limited to: administration, human resources, emergency deployment & performance, apparatus fleet, training, public education, and community stakeholder processes. In other words, everything we do to provide great service. This stamp of approval by the CFAI proudly states that LF&R continuously pursues excellence and strives to evolve with the City of Lincoln. Further information about the CFAI can be found here.
Quick shout out to Greenwood Fire & Rescue, Eagle Fire & Rescue and Lincoln Fire & Rescue for the assist this morning for both the fire and medical nature of this incident.

Your volunteers arrived on location to a fully involved vehicle and initiated fire attack and setup our water supply to ensure we had adequate resources to complete the job. A LFR engine pulled a secondary attack line and assisted your volunteers. Eagle responded with additional engine and tankers for water supply. Greenwood responded with an ambulance to assist with the medical.

We thank our law enforcement professionals at Lancaster County Sheriff and Nebraska State Patrol for managing the traffic while we worked the incident.

- Waverly Fire & Rescue

This national son’s day I am forever thankful for our two wonderful sons. They are the best...Last night was one of the scariest nights of my life as our youngest son choked on a piece of candy corn and lost consciousness for 2-3 minutes while turning blue. I was able to give him the Heimlich at the same time as my mother-in-law sweeping his mouth for pieces. We successfully got him coughing again just as the paramedics arrived. So thankful for the 911 dispatcher who talked to me the whole time and to my husband, and mother-in-law and father-in-law who all were there to help. Thank you also to Lincoln Fire & Rescue and Lincoln Police, the ambulance driver, and the Bryan Health East hospital emergency room staff too. It was a terrifying night but so thankful it was a happy outcome.

- Local hero. I want to thank the man that stopped to help my husband after his accident with our 5th wheel camper, stayed with him and called 911. You are an angel sent by God. Thank you to our wonderful local fire department and the wonderful people that chose the career that saves lives and property. My husband lost his leg but still has his life due to everyone’s prompt actions I bless you all and can never thank you enough!

- David

Lincoln Fire has 309 frontline responders. Of the 309, 36 or 12% are women. According to the National Fire Protection Association (NFPA), less than 5 percent of career firefighters across the country are women.

This is a note of appreciation to the Lincoln Fire & Rescue staff.

My husband had a seizure in our home and I had to utilize your services for the first (and hopefully only) time.

It was a very scary experience, however, the quick response from the professional staff at Lincoln Fire & Rescue made all of the difference.

As a citizen of Lincoln it makes me feel safe to know there are such caring and dedicated staff prepared to help in the most difficult of scenarios at a moment’s notice.

Thank you for all you do on a daily basis! It does not go unnoticed!
- Kelcy

I would like to send a (literal) heartfelt thank you to the crew of Station #4 for saving my life during a medical emergency in the early morning hours of December 23, 2021. They, along with all of the other first responders, are truly the every day heroes of our community!
- David

TRANSITIONS AND AWARDS

DOUG WELLS FIREFIGHTER OF THE YEAR

Captain Wiebe is the 2021 Doug Wells Memorial Firefighter of the Year. Here’s what Scott’s peers had to say about him:

Captain Scott Wiebe has accumulated numerous accolades over his 25 years of service at Lincoln Fire & Rescue. Throughout his career, Scott has continuously strived to better himself and to improve the organization.

Scott began his service by precepting numerous paramedics for the Lincoln EMS system.

Scott has developed and taught cutting-edge procedures to enhance protocols for our progressive methodology. Scott has served on the NETF-1 US&R team for 19 years as a Medical Specialist, deploying numerous times since joining the team in 2004.

In 2013, Scott was an integral part in the initiation of the comprehensive effort to improve survival from sudden out-of-hospital cardiac arrest.

With Scott’s leadership and dedication, LF&R became the first in Nebraska to join CARES, meticulously entering cardiac arrest data in CODE-STAT.

Scott has continued this mission by leading and encouraging continuous improvement for cardiac arrest survival.

Scott is an EMS Supervisor, serving and developing the position since it began. Scott not only lives each day to better himself but inspires others to do the same.

For the above mentioned, along with many other reasons, Captain Scott Wiebe is the Lincoln Fire & Rescue 2021 Firefighter of the Year.

THE FIRE CHIEF’S AWARD OF EXCELLENCE

The Fire Chief’s Award of Excellence recognizes outstanding individuals for their excellent performance and dedication to achieve the mission of Lincoln Fire & Rescue during the past twelve months.

Kim McKay truly has given 100% every day in everything she does. She is incredibly organized and her attention to detail has proven to be essential in ensuring our personnel meet their training requirements every year. Kim has been deserving of this award not just for the past twelve months, but for many years.

Fire Apparatus Operator
Nominated for: his diligent attention to detail and dedication to his fellow firefighters.

CODY L. MADSEN
Firefighter Paramedic
Nominated for: his positive attitude and compassionate approach to our community members in need.

SHAWN MAHLER
Fire Captain
Nominated for: his dedication to LF&R every day and for being an integral part of the new Technical Rescue Program.

JUSTIN MAAS
Firefighter
Nominated for: dedication and commitment to the community and detailed attention to his job.

BRADY STUDNICKA
Firefighter
Nominated for: his positive attitude and continually exceeding expectation.

MIKE WRIGHT
Fire Captain
Nominated for: his leadership and willingness to mentor and coach.

COLE HENN
Fire Captain
Nominated for: his dedication to improving the recruit academy to provide an elite group of firefighters to serve our community.

BRIAN LESAC
Fire Apparatus Operator
Nominated for: his professionalism and exemplary performance as an FAO and EMT and dedication to the community.

ROXANN BUCHHOLZ
Firefighter
Nominated for: her consistent hard work and dedication in always going above and beyond in everything she does.

These units were dispatched to a Hazmat Delta at on 12/28/2021. Initial dispatch information indicated a chemical exposure from CO, with possible suicide attempt and son of involved party on scene with vehicle being described as running in the garage. LFR crews found vehicle running in garage with a victim in living room of said residence. Crews were able to rescue victim and provide necessary patient care. This rescue was performed in an expedient manner, thus affecting the patient’s condition and survivability. The patient care provided by crews had a big impact on the survivability of such patient as well. All crews that responded, should be applauded for the service that they provided on this particular incident. The son of said patient, should be applauded as well, for his quick actions in activating the 911 system in a very quick manner. The outcome would’ve been different without his actions.
