

LANCASTER COUNTY PSYCHOLOGIST III

NATURE OF WORK

This is responsible administrative and supervisory work with responsibility for planning, coordinating, supervising and evaluating the activities of a major division within an overall mental health program.

Work involves responsibility for planning, coordinating, supervising and evaluating the activities of a major division within an overall mental health program. Work also involves participating in the preparation and administration of the divisional budget; assisting in developing, implementing and interpreting policies and procedures to improve effectiveness of counseling services; selecting, administering, scoring and interpreting psychological tests designed to assess client's intelligence, aptitudes, abilities and interests; evaluating data to identify problem causes and to determine advisability of counseling or referral to other specialists or institutions; counseling clients including children, adults and families experiencing a wide variety of emotional, mental and related problems; providing program and case consultation services to various community agencies; maintaining appropriate client records reflecting treatment provided and client progress. Supervision is received from the agency or clinical director with work being reviewed in the form of conferences, reports submitted and client case review. Supervision is exercised over subordinate professional staff.

EXAMPLES OF WORK PERFORMED

Interview and evaluate individuals in a forensic setting; testify at County mental health boards regarding clients' mental health status and recommended legal commitments.

Plan, coordinate, supervise and evaluate the activities of a major division within an overall mental health program; plan and assign work performed by subordinate professional staff; provide clinical supervision to subordinate psychologists and trainees.

Participate in the preparation and administration of the divisional budget.

Assist in developing, implementing and interpreting policies and procedures to improve effectiveness of evaluation and counseling services.
