Lincoln Downtown Traffic Study

Two-Way Conversion Feasibility Study

**City Project No. 702998
Olsson Project No. 019-2997**

Prepared By:

Olsson
601 P Street, Suite 200
Lincoln, NE 68508

December 2020

TABLE OF CONTENTS

1.0	Executive Summary.....	1
2.0	Introduction and Objective	3
3.0	Field Inventory and Observations	6
3.1	Existing Street Network	6
3.2	Geometry and Intersection Control	6
3.3	Traffic Volume	10
3.4	On-Street Parking Inventory	10
3.5	Guide/Wayfinding Signage	16
3.6	Pedestrian/Bicycle Facilities	16
3.7	Transit Facilities	18
3.8	Parking Garage Access.....	18
4.0	Traffic Operations and Safety.....	22
4.1	Scenario 1 (No Build) Traffic Operations.....	22
4.2	Two-Way Volume Development.....	27
4.3	Scenario 2 (Short-Term) Traffic Evaluations	27
4.4	Scenario 3 (Long-Term) Traffic Operations.....	35
4.5	Safety	38
4.6	One-Way vs. Two-Way Comparison	39
5.0	Design Considerations	40
5.1	Parking Impacts.....	40
5.2	Guide/Wayfinding Signage	46
5.3	Pedestrian and Bicycle Facilities	46
5.4	Ingress/Egress Conflicts.....	48
5.5	Curbside Management	49
5.6	Transit and AV Shuttle Accommodations.....	51
6.0	Phasing.....	52
6.1	13 th Street Corridor	52
6.2	Project Coordination	52
7.0	Cost Estimates	54
7.1	Concept 2A.....	54
7.2	Concept 2B.....	55
8.0	Conclusions and Next Steps	57
8.1	Pedestrian Safety	57
8.2	Bicycle Safety.....	58

8.3 Vehicle Safety	58
8.4 Vehicle Mobility	58
8.5 Multimodal Accommodations	59
8.6 Delivery Accommodations.....	59
8.7 Parking Inventory	60
8.8 Parking Friction	60
8.9 Parking Garage Ingress/Egress	61
8.10 Ease of Circulation	61
8.11 Cost of Implementation	61
8.12 Event Operations.....	62
8.13 Ease of Understanding.....	62

LIST OF TABLES

Table 1. Downtown Street Characteristics	7
Table 2. Parking Summary (North/South Streets)	14
Table 3. Parking Summary (East/West Streets)	15
Table 4. Intersection Level of Service Criteria	23
Table 5. Movement LOS	24
Table 6. Concept 2A Parking Summary.....	41
Table 7. Concept 2B Parking Summary.....	41
Table 8. Total Pedestrian Exposure.....	48
Table 9. Ingress/Egress Modifications	49
Table 10. Dynamic Parking Example.....	51
Table 11. Concept 2A Cost Summary	55
Table 12. Concept 2B Cost Summary	56

LIST OF FIGURES

Figure 1. Corridor Group Location Map.....	2
Figure 2. Study Area Map	5
Figure 3. Existing Lane Configuration and Intersection Traffic Control (North).....	8
Figure 4. Existing Lane Configuration and Intersection Traffic Control (South)	9
Figure 5. Existing Vehicular Traffic Volumes (North)	11

Figure 6.	Existing Pedestrian and Bicycle Volumes (North).....	12
Figure 7.	Existing Traffic, Pedestrian, and Bicycle Volumes (South)	13
Figure 8.	Existing Guide/Wayfinding Signage	17
Figure 9.	Existing Bike Network and BikeLNK Stations	19
Figure 10.	Existing StarTran Service Routes	20
Figure 11.	Existing Multi-Level Parking Facilities	21
Figure 12.	Scenario 1 Capacity Analysis (North)	25
Figure 13.	Scenario 1 Capacity Analysis (South).....	26
Figure 14.	Scenario 2 Projected Two-Way Volumes.....	28
Figure 15.	Scenario 3 Projected Two-Way Volumes (North)	29
Figure 16.	Scenario 3 Projected Two-Way Volumes (South).....	30
Figure 17.	Scenario 2A Capacity Analysis	33

LIST OF APPENDICES

Appendix A	Existing Count Data
Appendix B	Existing Signal Warrants
Appendix C	Scenario 1 Capacity Analysis Reports
Appendix D	Scenario 2 Signal Warrants
Appendix E	Scenario 2 Capacity Analysis
Appendix F	Scenario 3 Signal Warrants
Appendix G	Scenario 3 Capacity Analysis
Appendix H	Concept 2A and Concept 2B
Appendix I	Cost Summary
