

eBill Services

Pay your water and wastewater bill online!

Lincoln Water and Wastewater System wants to save you time and money when paying your bill. By enrolling in free "Paperless eBilling", you will receive notification by email when your bill is available for payment (no paper bill will be sent). Once your account is registered online, you will be able to pay your bill using VISA, Discover, MasterCard or American Express.

To begin eBilling, follow these simple steps:

1. Visit lincoln.ne.gov (keyword: water bill).
2. Follow the instructions under Option 1 Paperless eBilling.

Once you are enrolled in MyInterLinc, you may pay online immediately. Paperless eBilling will begin with the next billing cycle.

Automatic Bank Pay

Save time and money by having your water / wastewater bill paid directly from your bank account by signing up for Automatic Bank Pay.

Lincoln Water and Wastewater System will send you a bill for your records and automatically withdraw the bill amount on the due date.

Automatic Bank Pay is available through most financial institutions, including credit unions, savings and loans and banks. In order to enroll, your account must be paid in full.

1. Simply complete the information requested below.
2. Attach a VOIDED check for payment from a checking account or a savings account deposit slip for payment from a savings account.
3. Return it to:
Lincoln Water/Wastewater Business Office
Attn: Cashier
555 S. 10th Street, Ste. 203
Lincoln, NE 68508

Please sign me up to donate \$2 to "2 for Trees" with each bimonthly water billing.

Rate Survey

A rate survey was completed by Lincoln Water System in November 2020. The rates identified below are based on a monthly bill.

Water

Residential customer with a 3/4" meter using an average of 11 units of water per month (including service charge).

11 units of water equals 8,228 gallons.

	Local	
Waverly, NE	\$30.82	
Lincoln, NE	\$30.86	
Nebraska City, NE	\$31.53	
Beatrice, NE	\$31.95	
Hickman, NE	\$39.00	
York, NE	\$41.93	
Rural Water District #1	\$50.00	
Seward, NE	\$55.55	
Bennet, NE	\$74.58	

	Regional	
Lincoln, NE	\$30.86	
Omaha, NE	\$42.17	
Wichita, KS	\$47.52	
Cedar Rapids, IA	\$51.33	
Springfield, MO	\$53.47	
Des Moines, IA	\$68.66	

Wastewater

Residential customer with a 3/4" meter using an average of 9 units of wastewater per month (including service charge).

9 units of wastewater equals 6,732 gallons.

	Local	
Lincoln, NE	\$26.57	
Beatrice, NE	\$28.50	
Bennet, NE	\$40.14	
York, NE	\$45.50	
Nebraska City, NE	\$44.65	
Seward, NE	\$51.37	
Hickman, NE	\$54.63	
Waverly, NE	\$56.51	

	Regional	
Lincoln, NE	\$26.57	
Cedar Rapids, IA	\$35.52	
Wichita, KS	\$36.88	
Springfield, MO	\$43.39	
Missouri River WW (Omaha)	\$67.31	
Des Moines, IA	\$73.79	

2020/21

Water and Wastewater Rates

Lincoln Water and Wastewater System
555 South 10th Street, Suite 203
Lincoln, NE 68508

Water & Wastewater Rates

The Lincoln City Council approved a 5 percent revenue increase, which is effective November 2020.

The Lincoln Water and Wastewater System is a utility and does not receive City General Fund tax dollars. The income derived from rates pays for the maintenance and other costs involved in operating the two utility systems. In addition, a portion of this income is invested in Lincoln's future through water and wastewater system improvements.

Residential Water Rates

Residential water bills are determined by an increasing block structure. Under this pricing formula, the more water you use, the higher the price per unit of water. Traditionally, residential water use has been a major cause of fluctuations between low winter and high summer use. The price structure's intent is to encourage the wise use of water.

Water is sold by the unit. One unit equals 100 cubic feet or 748 gallons. Each water bill indicates how many units of water you purchased in a billing period. Lincoln's rate structure has three price "blocks." While water rates are based on use in a one-month period, most customers are billed bi-monthly. To make computing your bill easier, the chart shows price blocks on a monthly and bi-monthly basis.

Price Blocks	\$1.571/unit	\$2.233/unit	\$3.460/unit
Monthly	1-8 units	next 15 units	all additional units
Bi-monthly	1-16 units	next 30 units	all additional units

For example, to compute a bi-monthly use of 49 units:

$$\begin{aligned} \text{units } 16 \times \$1.571 &= \$25.14 \\ \text{units } 30 \times \$2.233 &= \$66.99 \\ \text{units } 3 \times \$3.460 &= \$10.38 \\ 49 &= \$102.51^* \end{aligned}$$

* The water and wastewater service charge and wastewater fee must be added in to determine your total bill.

Reminder to all Lincoln Water and Wastewater System Users

Non-Residential Water Rates

A majority of non-residential or business customers use a consistent amount of water year-round. As a result, the Lincoln Water System can more readily predict their water use and provide for those needs. In addition, non-residential customers provide an economic base which is important to the development of our City. For these reasons a non-residential rate schedule was developed.

There are currently two levels of non-residential users. Customers who used less than 12 million cubic feet the previous calendar year will pay:

Price Blocks	\$1.571/unit	\$2.233/unit
Monthly	1-80 units	all additional units
Bi-monthly	1-160 units	all additional units

Non-residential customers who used more than 12 million cubic feet the previous calendar year are billed according to the high user schedule. On a calendar-year basis, a "base usage" of each high user customer is determined. The base usage is an average of the water usage of each high user customer for the previous three calendar years. The following rates would apply:

- \$1.491 per unit for water usage less than base to 5% above base
- \$1.546 per unit for water usage 5% to 15% above base
- \$1.595 per unit for water usage 15% to 25% above base
- \$1.644 per unit for all water usage more than 25% above base

Wastewater Fee

Unlike your water bill, the wastewater fee for residential customers will not change every billing period. Under this rate system, you pay for only the water sent into the wastewater lines.

To predict how much water you use for domestic purposes, the fee is based on your winter water usage. Water you use for summertime air conditioning, gardening, lawn watering and other outdoor uses is not included.

The wastewater rate is based on a flat fee of \$2.132 per unit and is the same for all customers.

For example, if you use 20 units of water during a winter billing period, then your sewer use fee would be:

$$\text{units } 20 \times \$2.132 = \$42.64$$

This fee remains the same even in the summer months when water use normally increases.

Wastewater fees for non-residential users are determined by each month's water use. In addition, some industries pay a surcharge for high-strength waste.

Water Service Charge

The water service charge on your bill covers the cost of accounting, billing, collecting money, meter services, etc. It also represents "an ability to serve" charge. This means that water will be supplied through public water lines large enough to meet the demands of each customer and the needs of a Citywide fire protection system.

The size of water meter determines what the service charge will be.

Water Meter Size	2020/21 Monthly Service Charge
5/8 inch	\$7.67
5/8 x 3/4 inch	\$11.59
3/4 inch	\$11.59
1 inch	\$19.35
1 1/2 inch	\$38.60
2 inch	\$61.77
3 inch	\$115.90
4 inch	\$193.19
6 inch	\$386.30
8 inch	\$618.09
10 inch	\$888.57

Wastewater Service Charge

Like the Water System, the Wastewater System must charge for services like accounting, sewer maintenance, etc.

The size of water meter determines what the service charge will be.

Water Meter Size	2020/21 Monthly Service Charge
5/8 inch	\$3.81
3/4 inch	\$7.38
1 inch	\$13.14
1 1/2 inch	\$26.05
2 inch	\$41.72
3 inch	\$78.37
4 inch	\$130.70
6 inch	\$261.18
8 inch	\$417.94
10 inch	\$600.98
