## Project Title

**Broadband Infrastructure**

### Description:

This program component includes dedicated funding for an upgrade and expansion of the City’s communications system infrastructure in support of the Lincoln Technology Improvement System. This funding supports the administration’s vision of an Innovative and Operationally Excellent City. The ongoing program will help implement a coordinated system of broadband infrastructure designed for use by public and private broadband service providers. Examples of broadband infrastructure projects to be funded by this program include new and updated backbone conduit, innerduct, pull boxes, fiber optic cables and other system equipment. In addition, technology applications for advanced wireless research, DSRC radios, vehicle to infrastructure components, and smart cities applications are also included.
