Neighborhood associations are eligible for both Community Improvement and Neighborhood Association grants. KLLCB will go over key aspects of the programs, be available for questions, and facilitate sharing by neighborhood associations that have taken advantage of the programs in the past.

Environmental Health Educators from KLLCB will also share about spring mobile collection events and extended seasonal hours at HazToGo – Lincoln's Hazardous Waste Center. The Center operates like a drive-thru and manages household hazardous waste for residents at no cost.
