

2025 Seward County Report

Last year, 604 individuals received over 52,089 total units of services delivered via Seward County Aging Services and Aging Partners. The need to grow services continues as services are currently only reaching 19 percent of county citizens who are age 65 and over. 23 percent of this population is impoverished (as depicted in chart 2.)

Between 2025 and 2040, the population of persons age 65 and over is expected to increase 13 percent, (as depicted in chart 1). More Seward County residents will seek services to remain healthy and independent in their own homes.

Dues paid to Aging Partners, the area agency on aging that supports Seward County, ensures that federal and state funds for aging services flow into the county. This year, Aging Partners is requesting \$44,662, a 2.5 percent increase in funding from FY24.
