Would Lincoln street/traffic repairs and improvement qualify for Infrastructure funds? If so, has anyone begun the process to secure funding?

Also included should be sidewalk repairs and widening.

Lincoln is looking very run down. Our streets and public sidewalks are dangerous. Our traffic flow is a huge waste of time and use of fuel.

If this is not in your realm of responsibility please tell me who to contact. I have contacted the Mayor's office to no avail.

It is sad to see our town in such lowly and inefficient condition.

I see that you let the contract expire. Was that the reason for the delay tactic? To let it expire so you wouldn't have to account for the election malpractice/maladministration of turning our elections results over to a private uncertified company before turning them over to the public?

I mean, after all, they could really do anything they want with those elections results, because We the People don't have access to the paper ballots. All they might need to do is leave a few precincts intact for your fake random self-audits.

Whether it's ES&S, BPro, CIR or whomever, turning our votes over to private entities to be "counted" and/or "secured" behind closed doors without any accountability, transparency or verifiability to and for the People is a high crime and a total violation of the oath of office that the SoS took.

You should advise him better. Hand-counting is way safer (and cheaper) for everyone.

Dear Mr. Borer:

This email is regarding your records request received by our office on Thursday, March 23, 2023, in which you requested certain records from us under the Nebraska Public Records Statutes, Neb. Rev. Stat. §§ 84-712 through 84-712.09. Your request was as follows:

I am hereby requesting, pursuant to Nebraska Public Records Law § 84-712 et seq., a digital copy of the Certification of the KnowInk/BPro/TotalVote internet interface used by you and our county election officials on election night to transfer election results.

Our office responded, seeking clarification on your request. You replied as follows:

You have county election officials uploading "election" results through a private third party (totalvote) that has been proven to be compromised. I'd like to see the guarantee you were provided that there are no compromises. I'd also like to see the RFP. When bad actors start seeing election results in one place, they adjust results elsewhere.

We have no records responsive to your request.
