Subject: the sheriff who can't interpret laws (revised)
Date: Saturday, January 6, 2024 11:54:36 AM

Dear Friends,

This will be short.

In [part one](#), we [quoted](#) local Lancaster County (NE) "Sheriff" Terry Wagner as saying he can't interpret our Constitution/s.

Well, guess what? Upon further investigation, it appears **he can't interpret our statutes, either!**

Statutory law requires that he **"suppress all riots."**

Quoting [Nebraska Revised Statute 23-1701.02](#):

It shall be the duty of every sheriff to . . . suppress all riots, affrays, and unlawful assemblies which may come to his or her knowledge, and generally to keep the peace in his or her proper city.

Does it get any clearer?

Statutory law also requires that the mayor of a city **"Cooperate with and assist the county sheriff** in suppressing riots."

Quoting [Nebraska Revised Statute 14-221](#):

It shall be the duty of the mayor of a city of the metropolitan class to:

(3) Cooperate with and assist the county sheriff in suppressing riots and mobs and in the arrest and prosecution of persons charged with crimes.

Again, does it get any clearer?

Who's in charge here? Is it the mayor, who's in charge of a lower political subdivision of the State? ...or the sheriff, who's in charge of a higher political subdivision?

Obviously the latter. The mayor assists the sheriff, **not the other way around.**

(There are good reasons for that hierarchy, that I won't go into right now. Perhaps you could brainstorm it for yourself? Of course, if I were the mayor, and the sheriff wasn't willing to do his job, I would stand up whatever resources I had, do the job for him, and deal with him later.)

At any rate, I say all of the above to say this. Early in the summer of 2020, Wagner was faced with rioting (by a bunch of outsiders) in the **seat** of his county—the City of Lincoln, which also happens to be the Capital of the State (Nebraska).

The mayor of Lincoln told him to stand down. (She's a NWO useful idiot.)

Rather than obey the law, perform his duty and suppress the rioting, Wagner chose to **disobey/break** the law, neglect his duty, obey LGBairdon, and stand down. (How embarrassing for citizens of Nebraska.)

Months later, the local Lincoln Journal Star ran the following headline:

Tens of millions in damage done to public and private property.

And even worse, no one was held accountable. Not the rioters, not Bairdon, not Wagner. (Baridon turned all the rioters loose. How was she able to do that? Did anyone expose her?)

The only ones held "accountable" were the taxpayers, who were stuck with a big fat bill.

I ask you, what good is there in having such a feckless, self-serving government?

Not much, when they've set a precedent for allowing criminals to openly walk all over them.

Frankly, it's hard to tell the criminals from the government any more. Especially given the maladministration of our elections by career bureaucrats and deep state propaganda officers like Wayne Bena and Todd Wiltgen (with vote-count manipulation machines).

No one who's allegedly been "elected" can actually prove they were elected, **nor do they want to!** They're content with a corrupt election system.

This makes **every member of "government"** complicit in criminal activity. (I'll allow for the exception of one or two, but that's all. Auditor Foley is actually pushing back.)

I don't need to tell anyone that things can't continue this way for much longer, or we will not have a country left. Better to get on the right side, **before the eruption happens.**

Dear Friends,

Nebraska elections are a complete shit show, and every thinking person knows it.

ES&S can and does manipulate election results however they choose because Nebraska legislators have refused to build any safeguards into the process for securing verifiably honest results. SoS Evnen and his bureaucrat sidekick Bena lie through their teeth about the security of our elections. They are all talk and no show.

Legislators (who can't verify their own "election") are happy to have their coveted piece of the power pie in their pursuit for self-esteem. They don't give a damn about our Constitution or the rights of We the People.

Only in America will we stop a football game, drag out measuring chains and look at a play 15 times from 6 different angles to make sure the right call was made, but refuse to verify the integrity of an election of the highest office in the land, or any other election in the land.

This is criminal maladministration of government at the most basic level.

Thinking People call it treason. There is more than one way to levy war against a state. It doesn't require bullets or cannon balls.

Regarding the subject line above—

Read all about it at the link below (take note that county election officials in South Dakota are called "Auditors"):

<https://southdakotac canvassinggroup.substack.com/p/vindication-at-last>

This is not going to turn out well for lots of election fraud deniers in Nebraska.

Their sin of speaking falsely about things they may or may not know of shall find them out. (Does this include you?)

Stealing elections constitutes treason.

Stealing elections leads to all kinds of other evils being perpetrated upon the People.

There's no other reason for the complete lack of transparency in our vote-counts than to steal elections.

Subject: speak up for human rights and local community members

Hello Councilmembers - I live in Lincoln and wanted to express my concern about unwarranted attacks on Palestinian citizens funded by the US government. I know there is an attitude of sovereignty that other countries know best for themselves but in this case tens of thousands of unarmed citizens are being attacked. And our tax dollars are being used to fund this horror. It reminds me of the early months and year of the attacks against Jews, Black people and gay people in Germany during which time the US stood by for months ignoring the information and steady attempts to exterminate groups of people. Only much later after thousands and thousands died did the US oppose and intervene. At the time, the information was available about the genocide but leaders did not act immediately. What does it take to prompt leaders to oppose human rights violations? How many have to die before more leaders in US society will say, "No, this is not right!?" Some are acting - there was a UN report calling it genocide and South Africa has filed a case at the International Court of Justice.

How does this relate to your role in Lincoln? First of all as city leaders, you have connections and influence with others and this creates an opportunity for you to speak up and educate others about what's going on. Yes, Hamas attacked and took hostages which is scary but it does not explain or justify the Israeli control of food and movement for Palestinians, and bombing of medical facilities which are not close to military operations, killing of journalists, and long history of imprisonment of Palestinians. I encourage you to follow the lead of Iowa City Council which passed a resolution for a ceasefire to amplify the concerns of residents that had not been heard in Washington.

This is also relevant to city council because CAIR reports that harassment and violence in the US targeted towards Muslims has risen in the months since Oct 7. This impacts our community and a strong message should be sent that Muslims are welcome in Lincoln and that we will not accept attacks on our community members.

Thank you for your leadership and service in the community.

Warmly, Stephanie Bondi
