OFFICE OF THE MAYOR

555 South 10th Street, Suite 301 | Lincoln, NE 68508 402-441-7511 | F: 402-441-7120 | mayor@lincoln.ne.gov

February 24, 2020

Dear Honorable City Council members and residents of Lincoln:

City government - at its best - helps people coexist and reach their full human potential. The work we do is fundamental to freeing members of our community from worry about the basics of city living so that they can pursue opportunities that improve their lives and their futures.

A significant responsibility of that work is ensuring both fiscal and operational accountability in our use of public resources. To that end, this letter serves as an introduction to the City of Lincoln's Comprehensive Annual Financial Report for the fiscal year ended August 31, 2019.

This report provides a complete and accurate picture of the City's financial status and fulfills our continuing disclosure responsibilities in accordance with governmental reporting standards. Our ability to manage the City's fiscal affairs and provide a full disclosure of the City's fiscal condition is exhibited by the unmodified audit opinion that follows.

I am proud to report that the 2018 report submitted to the Government Finance Officers Association was recognized with the prestigious Certificate of Achievement for Excellence in Financial Reporting for the 36th consecutive year. This recognition is a credit to the City and a compliment to our dedicated public servants in the Finance Department.

I would like to thank our Finance Department employees for their continued commitment to ensure our public accounts are accurate and to all City departments for their cooperation in the preparation of this document. Their excellent work lays a strong foundation for us to achieve our vision of leading Lincoln toward a more successful, secure and shared future.

Sincerely,

Leirion Gaylor Baird
Mayor of Lincoln

FINANCE 555 South 10th Street, Suite 103 Lincoln, NE 68508 402-441-7411 F: 402-441-8325

February 21, 2020

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Lincoln:

Both the City Charter and State law require an annual audit of the City's funds and accounts be made by a recognized independent and qualified accountant covering all financial transactions, affairs, and financial condition of the City, with the audit report published within six months after the close of the fiscal year. Pursuant to this requirement, the Comprehensive Annual Financial Report (CAFR) of the City of Lincoln, Nebraska for the fiscal year ended August 31, 2019, is hereby submitted.

Responsibility for both the accuracy of the data found in this report, and the completeness and fairness of the presentation, including all disclosures, rests with management. In developing and evaluating the City's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss, theft, or misuse, and to ensure the reliability of financial records for preparing financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) and maintaining accountability for assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state and local financial assistance, the City is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to these programs. The federal government, under Title 2 U.S. Code of Federal Regulations Part 200, requires local governments that expend \$750,000 or more in federal funds in any fiscal year to have a financial and compliance audit performed. As part of the City's Single Audit, tests were made of the City's internal control structure over compliance and its compliance with applicable laws and regulations, including those related to major federal financial assistance programs. The Single Audit for the year ended August 31, 2019, disclosed no material internal control weaknesses. The independent auditor's reports are included in the Single Audit section found at the end of the CAFR.

To the best of management's knowledge and belief, the enclosed data are accurate in all material respects and reported in a manner designed to present fairly the financial position and financial activities of the City. All disclosures necessary to enable the reader to gain an understanding of the government's financial activities as specified by all currently effective statements of the Governmental Accounting Standards Board have been included.

A firm of licensed certified public accountants has audited the City's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City are free from material misstatement. The audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering unmodified opinions that the City's financial statements for the fiscal year ended August 31, 2019, are fairly presented in accordance with GAAP.

Generally accepted accounting principles require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found in the Financial Section immediately following the report of the independent auditors.

Profile of the City

The City of Lincoln, capital city of Nebraska, was originally incorporated on April 7, 1869. Lincoln is located in the southeastern corner of the state, is midway between Chicago and Denver, and is currently one of the fastest growing metro areas in the Midwest. It occupies a land area of approximately 99 square miles, serves a population of approximately 287,000, and in its growth and development has annexed five other municipalities so that the City includes most of the urban area of Lancaster County. It enjoys a unique position in Nebraska as the center of the state's governmental and educational activities.

The City operates under a Home Rule Charter and has a Mayor-Council form of government with an elected full-time chief executive, the Mayor, and an elected legislative body, the Council, composed of seven members. Three Council members are elected at large and four by district on a nonpartisan basis for a term of four years. All legislative powers of the City are exclusively vested in the Council, as well as the power to adopt the budget, set the tax levy, and equalize taxes and assessments. The Mayor is responsible for the proper conduct of the affairs of the City, with the administration of City government performed under the direction of the Mayor through administrative departments.

The City of Lincoln provides a full range of services, including public safety (police and fire); the construction and maintenance of highways, streets, and other infrastructure; health; planning and zoning; golf courses, parks and recreation; urban development; mass transportation; ambulance transport; electric, water, and wastewater utilities; solid waste management; entertainment center; parking facilities; and general administrative services.

The City Council exercises budgetary and/or rate setting authority over the City Library and Lincoln Electric System (LES), neither of which are legally separate from the City and are thus included as part of the primary government. The Lincoln Water System, Lincoln Wastewater System, Emergency Medical Services, Solid Waste Management, Parking System, Golf Courses, Pinnacle Bank Arena, Broadband Enterprise, and Community Health Endowment are all part of administrative departments under the direction of the Mayor and are included as part of the primary government. The City is considered to be financially accountable for the West Haymarket Joint Public Agency, and has included the Agency as part of the primary government as a blended component unit. Separately audited financial statements are available for LES, Lincoln Water System, Lincoln Wastewater System, Emergency Medical Services, Solid Waste Management, Parking System, Community Health Permanent Endowment Fund, and West Haymarket Joint Public Agency.

The biennial budget serves as the basis for the City of Lincoln's financial planning and control. Following public hearings and not later than five days prior to the beginning of the biennium, the budget is legally adopted by resolution of the City Council. Appropriation controls are required at the department level, however, as a matter of policy and practice, appropriations generally are controlled at the next level of organization (division) or by fund within a department. The Mayor has the authority to transfer balances within a department as well as lower appropriations in any fund where actual revenues are less than appropriated in order to avoid incurring a budget deficit for the year. Appropriation transfers between departments may only be authorized by resolution of the City Council. The Council may not make any appropriations in tax supported funds in addition to those authorized in the biennial budget, except in the event of an emergency threatening serious loss of life, health, or property in the community.

Economic Condition and Outlook

Population growth is one of the best indicators of a community's economic well-being. As such, the Lincoln metropolitan area's population growth during the past several years reflects a community that is economically viable and is strongly positioned to meet future challenges.

The Lincoln metropolitan area population base (Lancaster County) continues to demonstrate a pattern of sustained growth. According to the U. S. Census figures, Lancaster County's rate of growth between 2010 and 2018 has been 10.9% or approximately 1.30% per year. The 2018 population of Lancaster County has been estimated to be in excess of 317,000 persons.

While such a growth rate may be modest by some standards, this healthy pace of expansion places Lincoln as one of the fastest growing communities in this region. Recent projections envision Lincoln to continue to grow at a rate of over 1% per year. As importantly, the City of Lincoln continues to absorb about 90% of all growth in Lancaster County.

Lincoln's unemployment rate at August 31, 2019, was 2.9%, well below the national average of 3.9%, with employment strongest in the categories of government, educational & health services, and retail trade. Lincoln's current value of construction permits is up 71% when compared to levels 5 years ago.

To more aggressively pursue economic opportunities, the City, Lancaster County, and LES have partnered to hire an economic development coordinator to facilitate job creation in the private sector. In addition, the Mayor's Technology Council completed its technology audit, which led to a new strategic plan for economic development.

Net sales and use tax revenue decreased \$9,644,716 or 10.7% from the previous fiscal year, of which \$11,914,344 comes from the ending of a voter approved .25% tax increase, effective October 1, 2018, to fund replacement of the City's emergency 911 radio system and the construction and/or relocation of four fire stations.

Long-Term Planning and Major Initiatives

Urban Development

The City anticipates approximately \$60 million of public expenditures funded through various urban development projects and programs over the next three years. These projects are varied in type and size and are located in the Downtown and Haymarket areas, the Antelope Valley project area, older commercial areas, and in low-to-moderate income neighborhoods throughout the City.

Public financing will be provided by a variety of sources, including Tax Increment Financing (TIF), Parking Revenues, CDBG and HOME federal grants, Advanced Land Acquisition funds, Special Assessments, and General Fund. Funding is often combined with developer, grant or other private sector funds.

The City's involvement will vary depending upon the project and could likely include property acquisition, relocation and demolition; housing rehabilitation and development; commercial development; and construction of public improvements including parking, sidewalks, infrastructure and streetscapes.

Ongoing and anticipated future projects include:

- Parking Services Projects:
 - 1) The redevelopment agreement with Speedway Properties for a residential development on Block 4 in the West Haymarket has been completed. The City has committed to construction of a 700 space parking garage as part of this project. Construction should start in the summer of 2020 with a completion date of August 2021.

- 2) The renovation of the Eagle Parking Garage started in December 2019 and work will continue throughout 2020. Completion of the project is anticipated in December 2020 and the parking garage is scheduled to reopen in 2021.
- 3) Parking Services acquired property on Block 65 totaling 75,000 square feet with the intention to build a new parking garage. The need for this parking garage was indicated by the results of an internal study conducted by Parking Services. Parking Services will begin design work on the new parking garage during 2020, while at the same time issuing a request for an expression of interest to determine if there is development interest in the property. Parking Services will also explore financing options for this structure during 2020.
- Downtown Redevelopment Projects:
 - 1) West Haymarket, Block 2 (north half).
 - 2) West Haymarket, Block 4.
 - 3) West Haymarket, Block 5.
 - 4) Pershing Redevelopment.
 - 5) Greater Downtown Primary Corridors Revitalization.
 - 6) South Haymarket Parking & Streetscape.
- Antelope Valley Redevelopment Projects:
 - 1) Telegraph District Redevelopment.
 - 2) Hoppe Block Redevelopment.
- University Place Redevelopment:
 - 1) 48th and Madison.
- West O Street Redevelopment:
 - 1) Lincoln Sports Complex project.
 - 2) West O Street Streetscape.
- North 27th Street Redevelopment Project:
 - 1) 28th & Vine Container Housing.
 - 2) Oriental Market.
 - 3) 27th and Star Housing.
- Skate Zone Redevelopment.
- Innovation Campus Redevelopment.
- 56th and Arbor Road Redevelopment.
- North Cotner Redevelopment.
- VA Victory Park Redevelopment.

Ongoing and anticipated Livable Neighborhood projects include:

- Housing rehabilitation programs for quality, affordable housing and home ownership:
 - 1) Continuation of First-time Homebuyer and Owner-Occupied Housing Rehabilitation Loan programs and lead-based paint abatement grant program.
 - 2) Partner with other non-profit and for-profit housing organizations for affordable housing projects in low-to-moderate income neighborhoods.
 - 3) Continue RESCUE program for neglected/problem properties.

- 7) Campion Redevelopment.
- 8) Huber Redevelopment.
- 9) Willys Knight Redevelopment.
- 10) 9th and O Redevelopment.
- 11) Lied Place Redevelopment.
- 12) Gold's Block Redevelopment.

4) Coordinate with other City Departments to implement neighborhood improvement projects in focused geographic areas. Projects may include, but are not limited to, infrastructure, parks, trails and housing improvements.

Ongoing and anticipated Administration projects include:

- Real estate major acquisition, negotiation and relocation projects:
 - 1) Sale of 27th and Old Cheney.
 - 2) For effective transportation:
 - ✓ A Street, 89th to 93rd and 93rd to 98th.
 - ✓ Pine Lake Road, 61st to Hwy 2.
 - ✓ Rokeby Road, 40th to 56th and 70th to 84th Streets.
 - ✓ 14th and Cornhusker Hwy safety project.
 - ✓ 33rd and Cornhusker Hwy RTSD project.
 - ✓ 14th/Old Cheney/Warlick intersection.
 - ✓ South 84th, Hwy 2 to Rokeby Road.
 - ✓ East Beltway preliminary acquisitions.
 - ✓ South 40th Street Improvements.
 - ✓ West A Street, Folsom to SW 40th Street, 2 Phases: East/West.
 - ✓ New LFR & LPD station acquisitions/surplus.
 - ✓ StarTran site acquisition and bus shelter projects.
 - ✓ Arterial/residential rehabs, executive order, traffic signals & bridge replacement.
 - ✓ 56th & Yankee Hill Road Improvements.
 - 3) For environmental quality:
 - ✓ Park sites citywide, Prairie Corridor, Jensen Park, Salt Creek wetland acquisitions.
 - ✓ Stevens Creek Phase V, Cardwell Branch, Beal Slough Trunk Sewer and miscellaneous sanitary sewer upgrade projects.
 - 4) Relocation activities:
 - ✓ 14th/Old Cheney/Warlick intersection project.
 - ✓ Downtown library site project.
 - ✓ West A Street widening project.

- ✓ 98th Street water main, Holdrege to Alvo and Holdrege, 98th to Sky Ranch.
- ✓ 56th & Morton, Dead Man's Run 46th & High/Hillside, 84th & Glynoak, conservation easements, wetlands acquisitions and storm water improvements.

West Haymarket Project

The West Haymarket Redevelopment Project is a multi-faceted endeavor to revitalize underutilized property that lies on the western edge of Lincoln's downtown and Haymarket district. On May 11, 2010, the citizens of Lincoln voted to approve the issuance of arena bonds, which signaled approval for the project to proceed. The project involved the relocation and elimination of existing railroad tracks and completion of other site preparation activities, the construction of a 15,223 seat civic arena, a community ice center, private retail and office space, a new Amtrak Station, residential units, surface and decked parking, public gathering areas, street and utility improvements, landscaping, trails and walkways, pedestrian bridges, and environmental enhancements. The public portion of the project cost to date is approximately \$365 million. The arena opened and became fully operational in September 2013.

The West Haymarket Joint Public Agency (WHJPA) is the governmental agency responsible for oversight of the project, for issuing bonds, collecting revenue, and making bond payments over the course of the Project. Participants in the agency are the City and the Board of Regents of the University of Nebraska.

Beginning January 1, 2011, an occupation tax was imposed on car rental, hotel, restaurant and bar charges within the City of Lincoln. This revenue has been pledged to repayment of any outstanding WHJPA bonds.

Wastewater System

The Lincoln Wastewater System is projecting a capital improvements program in the amount of approximately \$91,888,000 over the 5-year period of fiscal year 2019-20 through fiscal year 2023-24. Funding for these projects will come from impact fees, revenue bonds, and utility revenue fees. The majority of these dollars are needed for replacement and maintenance of existing infrastructure, new infrastructure to serve development in various basins throughout the City, and improvements to both the Theresa Street and Northeast treatment plants.

Water System

The Lincoln Water System is projecting a capital improvements program in the amount of approximately \$143,729,400 over the 5-year period of fiscal year 2019-20 through 2023-24. These projects will be financed through impact fees, revenue bonds, and utility revenues. The major projects contributing to these total dollars include the installation of transmission lines, replacement mains, replacement and new wells, and additional storage reservoirs.

Streets and Highways

The 2020-2024 Streets and Highways capital improvements program and Transportation improvement program identify average annual expenditures of \$43 million for the next five years. Funding for these projects includes \$136 million in City revenues, \$30 million in federal aid, and \$47 million in other funds.

<u>Infrastructure Impact Fees</u>

The City's growth in both population and employment have created demands for new residential and nonresidential development, which in turn creates the need for additional public facilities, including water and wastewater systems, arterial streets, and neighborhood parks and trails. The City's laws, taxes, fees, utility charges, and other forms of revenue generated from new development do not provide sufficient funds to finance these new facilities.

In response to these funding needs the City of Lincoln passed an ordinance to provide for the imposition of impact fees to ensure that facilities are available to serve new growth and that new development bears its proportionate share of the cost of improvements to the City's facilities. Impact fees for all types of new construction are set and adopted by the City Council.

Pension Costs

The City currently contributes \$2 for every \$1 contributed by employees in the civilian retirement plans. In an effort to control this significant budget item, the City and the civilian unions, as well as non-union employees, have agreed to change these plans to a \$1.29 to \$1 match for new employees hired after a union specific effective date. Newly hired Department Directors and Mayoral Aides will receive a \$1 to \$1 match. The City is unable to legally change the match for current employees. The City anticipates saving 20 to 25 percent in retirement costs for each employee hired under this new arrangement.

Property Tax Collections

As of August 31, 2019, current tax collections by the County Treasurer were 97.62% of the tax levy, a decrease of 1% from last year. Allocations of property tax levy by purpose are as follows:

City Tax Levy by Purpose	<u>2018-2019</u>	2017-2018	<u>2016-2017</u>
General Fund	.2094	.1930	.1990
Library	.0373	.0413	.0444
Social Security	.0117	.0146	.0158
Police and Fire Pension	.0347	.0367	.0402
Unemployment Compensation	.0003	.0003	.0003
General Obligation Debt	.0231	. <u>0306</u>	.0340
Total	<u>.3165</u>	<u>.3165</u>	<u>.3337</u>

Parking Facilities

The City of Lincoln operates the following parking garages:

<u>Facility</u>	Number of Stalls	Date Opened
Center Park	1,057	November, 1978
Cornhusker Square	390	December, 1983
University Square	432	April, 1990
Que Place	810	October, 1994
Carriage Park	701	February, 1995
Market Place	385	August, 2000
Haymarket	408	August, 2002
Larson Building	647	July, 2012
Lumberworks	530	January, 2014
M Street	384	November, 2018
Eagle	301	March, 2019

The City's parking garages have been built to promote downtown redevelopment efforts by working with the private sector in providing necessary parking to various businesses in the downtown area.

Solid Waste Management

The City of Lincoln owns and operates a municipal solid waste landfill and a construction and demolition debris landfill that are subject to the U.S. Environmental Protection Agency rule *Solid Waste Disposal Facility Criteria*, which establishes closure and postclosure care requirements. As of August 31, 2019, the City estimates that it will incur costs approximating \$30 million to adhere to such requirements (see Note 18 of Notes to the Financial Statements).

Water and Wastewater System

The City's Wastewater Utility System showed an increase in operating revenues and a decrease in operating income. Comparative data for the past two fiscal years is presented in the following table:

Wastewater System	<u>2018-2019</u>	<u>2017-2018</u>
Operating Revenues	\$32,202,451	31,409,050
Operating Income	7,481,815	7,730,640
Revenue Available For Debt Service	18,218,916	17,518,091
Debt Service	7,022,081	6,961,103
Debt Service Coverage Ratio	2.59	2.52

The City's Water Utility System showed a decrease in operating revenues and a decrease in operating income. Comparative data for the past two fiscal years is presented in the following table:

Water System	2018-2019	2017-2018	
Operating Revenues	\$38,378,994	38,981,816	
Operating Income	11,127,322	12,366,484	
Revenue Available For Debt Service	23,574,739	23,704,752	
Debt Service	6,400,358	6,394,487	
Debt Service Coverage Ratio	3.68	3.71	

Lincoln Electric System (LES)

The City owns and operates its own electric utility system that is managed by an administrative board. Actions of the board with regard to rates, budgets, and long-term financing are subject to final review and approval by the City Council. In accordance with Section 4.24.090 of the Lincoln Municipal Code, LES operates on a January 1 - December 31, fiscal year. Audited financial information as of and for LES' fiscal year ended December 31, 2018, is included in the City's August 31, 2019, financial statements.

Certificate of Achievement

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Lincoln, Nebraska, for its comprehensive annual financial report for the fiscal year ended August 31, 2018. This was the thirty-sixth consecutive year that the City has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Finance Department. I would like to express my appreciation to all members of the department who assisted and contributed to its preparation. I would also like to thank the Mayor and members of the City Council for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Brandon Kauffman

Presented to

City of Lincoln Nebraska

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

August 31, 2018

Christopher P. Morrill

Executive Director/CEO

FINANCIAL SECTION

Independent Auditor's Report

The Honorable Mayor and Members of the City Council City of Lincoln, Nebraska

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Lincoln, Nebraska (the City), as of and for the year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Lincoln Wastewater System and Lincoln Water System, which are both major funds and represent 35%, 57%, and 17%, respectively, of the assets, net position, and revenues of the business-type activities. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for Lincoln Wastewater System and Lincoln Water System, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Lincoln, Nebraska, as of August 31, 2019, and the respective changes in financial position and, where applicable, cash flows, and the respective budgetary comparison information for the general fund and street construction fund thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension and other postemployment information as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We and the other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The supplementary and other information, consisting of combining and individual fund financial statements, budgetary comparison schedules and the introductory and statistical sections, and including the schedule of expenditures of federal awards required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards*, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements, budgetary comparison schedules and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and the other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the combining and individual fund financial statements, budgetary comparison schedules and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also have issued our report dated February 21, 2020, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Lincoln, Nebraska February 21, 2020

BKD,LLP

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the City of Lincoln, Nebraska (the City) offers readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended August 31, 2019. Please consider this discussion in conjunction with the additional information provided in the Letter of Transmittal (beginning on page vii) and the transactions, events and conditions reflected in the City's financial statements (beginning on page 16).

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at August 31, 2019, by \$2,201,930,601 (net position). Of this amount, \$346,568,158 (unrestricted net position) may be used to meet the government's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$92,539,524. Of this amount, \$15,039,965, or 16%, was an increase in governmental activities and \$77,499,559, or 84%, related to business-type activities. Please refer to the fund descriptions preceding the various combining statements (beginning on page 87) for information regarding constraints imposed on the City in spending available funds.
- As of August 31, 2019, the City's governmental funds reported combined ending fund balances of \$316,620,785 a decrease of \$23,570,900 in comparison with the prior year. Of this total fund balance, 12%, or \$36,649,493 is available for spending at the City's discretion (unassigned fund balance).
- As of August 31, 2019, unrestricted fund balance (the total of committed, assigned, and unassigned fund balance) for the General Fund was \$55,158,706, or 38% of total General fund expenditures. Following the implementation of GASB Statement No. 54, reference must be made to pages 89-91of this report for an accurate comparison of the City's General funds based on the structure used for budgeting.
- The City's total bonded debt increased by \$140,900,891 (13%) during the current fiscal year. Current year activity included the following: Lincoln Electric System issued \$121,205,000 in tax exempt bonds; Lincoln Water System issued \$10,170,000 in refunding bonds for an economic gain of approximately \$2,082,000; Lincoln Wastewater System issued \$25,805,000 in revenue bonds; and Lincoln Parking System issued \$21,285,000 in general obligation parking system and refunding bonds for an economic gain of approximately \$2,084,000.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and deferred outflows of resources, and the City's liabilities and deferred inflows of resources, with the net difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the City's net position changed during the year ended August 31, 2019. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are

reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general administrative services, public safety, streets and highways, health, planning and zoning, parks and recreation, libraries, aging services, job programs, urban development, mass transportation, engineering, self-insurance, and fleet management. The business-type activities of the City include water, wastewater and electric utilities; ambulance transport; solid waste management; golf courses; entertainment center; broadband facilities; and parking.

The government-wide financial statements can be found on pages 16-17 of this report.

FUND FINANCIAL STATEMENTS

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains twenty-nine individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General fund, the Street Construction fund, and the West Haymarket JPA fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of the nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts a biennial appropriated budget for its general fund and most other governmental funds. A budgetary comparison statement has been provided for the General and Street Construction major funds to demonstrate compliance with this budget. The West Haymarket JPA major fund is not required to adopt an annual budget so a budgetary comparison has not been provided.

The basic governmental fund financial statements can be found on pages 18-23 of this report.

<u>Proprietary funds</u> – The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its parking facilities and lots; golf courses; entertainment center; solid waste management; ambulance services; broadband system, and wastewater, water, and electric systems. Internal service funds are used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its data processing, engineering, insurance, fleet management, municipal services center operations, and telecommunications services. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water, Wastewater and Electric Systems, all of which are considered to be major funds of the City. Data from the other enterprise funds are combined into a single, aggregated presentation. Internal service funds are also combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for these funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 24-29 of this report.

<u>Fiduciary funds</u> – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary fund financial statements can be found on pages 30-31 of this report.

NOTES TO THE FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 33-83 of this report.

OTHER INFORMATION

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's progress in funding its obligation to provide pension benefits to its police and fire employees, and to provide other postemployment benefits. Required supplementary information can be found on pages 84-86 of this report.

The combining statements referred to earlier are presented immediately following the required supplementary information on pensions and OPEB. Combining and individual fund statements and schedules can be found beginning on page 87 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$2,201,930,601 at August 31, 2019.

Net Position:							
Net Investment in Capital Assets		891,303,701	846,442,664	765,731,464	793,807,694	1,657,035,165	1,640,250,358
Restricted		162,762,413	182,122,089	35,564,865	28,846,167	198,327,278	210,968,256
Unrestricted		94,424,924	104,886,320	252,143,234	153,286,143	346,568,158	258,172,463
Total Net Position	\$	1,148,491,038	1,133,451,073	1,053,439,563	975,940,004	2,201,930,601	2,109,391,077

By far the largest portion of the City's net position (75%) reflects its investment in capital assets (e.g., land, buildings, improvements, utility plant, infrastructure, and machinery and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net position (9%) represents resources that are subject to external restrictions on their use. The remaining balance of unrestricted net position (16%) may be used to meet the government's ongoing obligations to citizens and creditors.

At August 31, 2019, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities.

GOVERNMENTAL ACTIVITIES

Governmental activities increased the City's net position by \$15,039,965, accounting for 16% of the total growth in the net position of the City of Lincoln. Key elements of this increase are as follows:

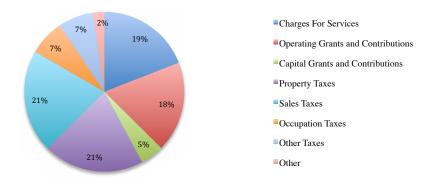

• Operating grants and contributions increased by approximately \$7.6 million (12.0%) during 2019. This can be attributed to increased funding in the areas of parks, libraries, and the City's bus system.

- Capital grants and contributions decreased by approximately \$19.7 million (51.9%) during 2019. This
 decrease is primarily impacted by changes in activity of the streets and highways programs and
 infrastructure contributions by new construction developers.
- Property Tax receipts increased by approximately \$4.1 million (5.5%) in 2019 primarily due to a 5.6% increase in the overall tax base.
- Unrestricted investment earnings increased by approximately \$4.2 million (138.6%) during 2019. Pooled cash investments increased 7.4% over the prior year and the investments yield increased 44% in 2019.
- Sales taxes decreased by approximately \$9.6 million (10.7%) during 2019. The .25% cent sales tax established to provide funding for a new 911 radio system and four new fire stations ended in October 2018.
- Governmental expenses increased by approximately \$33.3 million (9.7%) during 2019. The most significant increases were in the general government and culture and recreation programs.

Expenses and Program Revenues - Governmental Activities

Revenues by Source - Governmental Activities

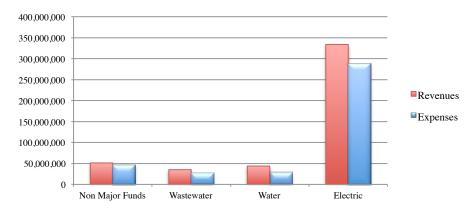

BUSINESS-TYPE ACTIVITIES

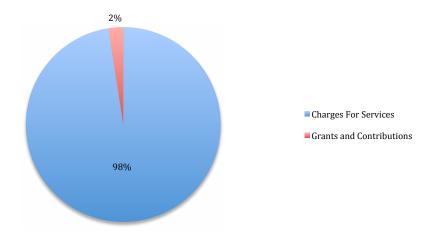

Business-type activities increased the City's net position by \$77,499,599, accounting for 84% of the total growth in the government's net position. Key elements of this increase are as follows:

- Lincoln Electric System operating revenue in 2018 was up 3.5% from 2017. Retail revenue was 3% higher primarily due to higher use per residential customer. Wholesale revenue increased 8% due to increased sales in the Southwest Power Pool Integrated Marketplace. Other revenue was up 2.3% primarily due to the year-over-year change in unbilled revenue amount. Operating expenses in 2018 were \$254,313,000, a decrease of 4.9%. Other non-operating expenses decreased \$12,484,000 primarily related to the one-time \$10,500,000 payment made for the termination of the Sheldon Generating Station agreement in 2017.
- Lincoln Wastewater System reported increased revenues primarily due to a 5% rate increase implemented November 2018. For operating expenses, categories were reevaluated and changes made as determined by the analysis. In general, overall operating expenses are expected to increase approximately 3% per year. Capital contributions decreased due to a decrease in developer contributions for the year.
- Lincoln Water System reported decreased revenues due to a considerably wet spring, including a flood in March 2019, which included voluntary water use restrictions. Lincoln Water System nonoperating revenues decreased due to a grant received from the State Water Sustainability fund in 2018. Capital contributions decreased during the year because of decreased development activity.

Revenues by Source - Business-type Activities

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

GOVERNMENTAL FUNDS

The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary spending at the end of the fiscal year.

As of August 31, 2019, the City's governmental funds reported combined ending fund balances of \$316,620,785, a decrease of \$23,570,900 in comparison with the prior year. Of this total amount, 12% constitutes unassigned fund balance, which is available for spending at the City's discretion. The remainder of fund balance is either nonspendable, restricted, committed, or assigned to indicate that it is not in spendable form (\$1,881,310), legally required to be maintained intact (\$37,160,000), restricted for particular purposes (\$142,005,826), committed for particular purposes (\$230,086), or assigned for particular purposes (\$98,694,070).

The General Fund is the chief operating fund of the City. At August 31, 2019, the unrestricted fund balance of the General Fund was \$55,158,706, while total fund balance reached \$64,171,006. As a measure of the General Fund's liquidity, it may be useful to compare both unrestricted fund balance and total fund balance to total fund expenditures. Unrestricted fund balance represents 38% of total General Fund expenditures, while total fund balance represents 44% of that same amount.

The fund balance of the City's General Fund decreased by \$5,669,635 during 2019. The City appropriates General Fund balance as a funding source for budget, with the allocation of balances spread over the two-year budget cycle.

The Street Construction Fund has a total fund balance of \$55,420,605, which is to be used in the construction and maintenance of streets and highways. The net decrease in fund balance during 2019 in the Street Construction Fund was \$11,115,902, with total revenues showing an 11% decrease and capital construction expenses showing a 2% increase. Included in current year expense is a \$15,000,000 contribution to the State of Nebraska South Beltway project.

The West Haymarket JPA Fund had a fund balance of \$40,878,626, which is to be used for funding improvements of the West Haymarket Redevelopment Project and debt service on the related debt. The current year change in fund balance is \$3,751,639. The fund balance is a result of the issuance of bonds in prior years, occupation tax and donation revenue, less the Agency's expenditures for construction, debt service and general operations.

PROPRIETARY FUNDS

The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Wastewater System, Water System, Electric System, and other enterprise funds amounted to \$27,368,741, \$39,670,428, \$185,198,000 and \$(93,935), respectively, at August 31, 2019 (December 31, 2018 for LES). Factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget and the final amended budget can be summarized as follows:

Revenue projections:

- \$(2,662,994) decrease in taxes collected by others.
- \$(650,000) decrease in court fees.

Expenditure appropriations:

- \$(21,025) decrease in miscellaneous changes in general government activities.
- \$(500,000) decrease allocated to public safety.
- \$(467,005) in decreases to streets & highways.
- \$66,655 increase allocated to parks and recreation.
- \$(756,859) in decreases allocated for General Fund net transfers to other City funds.

Variances between actual General Fund revenues and expenditures and the final amended budget include the following:

- \$6,651,699 positive variance in miscellaneous general government expenditures. Significant savings were realized in several service line items that are reappropriated to cover future expenditures.
- \$4,085,829 positive variance in police expenditures. Salary related expenditure variances are the result of vacancies in positions during the year reducing actual costs compared to a fully staffed budget. Remaining balances are reappropriated to the next year to assist with one-time expenditures that are not ongoing operating expenditures.

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

The City's investment in capital assets for its governmental and business-type activities as of August 31, 2019, amounts to \$3,054,171,421 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, machinery and equipment, streets, bridges, storm sewers, electric plant, and water and sewer plant. The total increase in the City's investment in capital assets for 2019 was 4% (2.8% increase for governmental activities and 4.5% increase for business-type activities).

Major capital asset events during 2019 included the following:

- The City increased its investment in infrastructure, including streets, bridges, drainage and traffic systems, in excess of \$49 million.
- The City invested in energy efficiency projects for the Park & Recreation and Library departments at a cost of \$2.8 million.
- The construction of 5 new fire stations continued with current year expenses of \$12.6 million, along with 8 new fire trucks costing \$2.2 million.
- StarTran, the City's mass transit system, added 6 new buses and 2 new trolleys at a cost of \$3.9 million.
- LES is a 12.76% share owner in the Laramie River Station. LES' share of capital improvements for the plant in 2018 was \$17,242,000.
- Construction continues for the LES Operation Center (LOC). Capital expenditures in 2018 for this project totaled \$31,688,000. Phase one of the LOC, which includes a second LES operations center and fleet building, was completed in 2019. Phase two of construction, which will include an administrative building and control center is planned for completion in 2021. Total project cost is expected to be \$104,183,000.
- The Duct Installation Program (DIP), which started in 2012, is a 10-year project to install duct adjacent to distribution cable, allowing the cable to be replaced quickly when it reaches the end of its useful life. Capital expenditures in 2018 totaled \$3,533,000. The DIP project is now expected to be completed in 2020 with a total project cost of \$28,826,000, which is a reduction of \$1.5 million from last year's projection.
- Lincoln Wastewater System 2019 major capital asset events included construction of Stevens Creek development.
- Lincoln Water System 2019 capital assets activity included \$12 million in additions to power and production equipment and \$10.8 million in additions to distribution mains and accessories.

Additional information on the City's capital assets can be found in Note 7 of the notes to the financial statements on pages 52-54 of this report.

LONG-TERM DEBT

At August 31, 2019, the City of Lincoln had total bonded debt outstanding of \$1,238,504,264. Of this amount, \$419,149,264 comprises debt backed by the full faith and credit of the City. The remainder of the City's debt represents bonds secured by specified revenue sources (i.e., revenue bonds).

City Of Lincoln Outstanding Bonded Debt August 31, 2019 and 2018

The City's total bonded debt increased by \$140,900,891 (13%) during the current fiscal year. Current year activity included the following: Lincoln Electric System issued \$121,205,000 in tax exempt bonds; Lincoln Water System issued \$10,170,000 in refunding bonds for an economic gain of approximately \$2,082,000; Lincoln Wastewater System issued \$25,805,000 in revenue bonds; and Lincoln Parking System issued \$21,285,000 in general obligation parking system and refunding bonds for an economic gain of approximately \$2,084,000.

The City maintains the following credit ratings:

	Moody's Investors <u>Service</u>	Standard & <u>Poor's</u>	Fitch Investors <u>Service</u>
General Obligation Bonds	Aaa	AAA	=
West Haymarket JPA Bonds	Aa1	AAA

Commercial Paper	=	A-1+	F1+

Under the City's Home Rule Charter, there is no legal debt limit.

Additional information on the City's long-term debt can be found in Note 9 of the notes to the financial statements on pages 55-62 of this report.

ECONOMIC FACTORS AND FUTURE BUDGETS AND RATES

- In August 2018, the Lincoln City Council approved a 5% revenue increase for both fiscal years 2019 and 2020 for both the Water and Wastewater Systems. This will be attained through increases in the usage rates and service charges.
- The electric utility industry repeatedly has been faced with new and proposed environmental regulations. The increase in legislation has been a major issue facing LES and all electric utility providers. LES continues to work diligently with industry groups and government representatives to help shape legislation and to implement cost-effective means to comply with all regulations.
- Property tax revenue expected to fund the 2019-2020 budget increased \$5,243,439 from the prior year. Total valuation growth is 7.37%, with an increase of 1.05% in the current tax rate.
- The budgeted local sales tax rate is 1.5%, which supports the General Fund. Due to fiscal year 2018-19 sales tax receipts lagging below projections, the 2019-20 projected sales tax collections were reduced to a 2% increase over prior year projections in August 2019. Projected sales tax collections could be impacted by legislative changes and unanticipated changes in economic activity. Following a Supreme Court decision in the South Dakota vs. Wayfair case in June 2019, Nebraska began collecting online sales tax in July 2019.
- Lincoln voters approved a .25% cent sales tax increase in 2015, for three years only, to provide funding for a new 911 radio system and 4 new fire stations. This tax ended in October 2018. Lincoln voters approved another .25% cent sales tax increase in 2019, for six years only, to provide funding for street rehabilitation, reconstruction, and new construction of arterial streets in all quadrants of the City. This tax began on October 1, 2019 and ends on October 1, 2025.
- Health insurance is projected to increase 10% in 2020. Dental insurance is projected to increase 4%.
- The City negotiates with six different bargaining units. One contract will expire in August 2022, with the remaining five agreements in effect until August 2020.
- Staffing changes included in the 2019-2020 fiscal year budget resulted in an increase for all funds of 3.62 full-time equivalents.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of Lincoln's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Lincoln, Finance Department, 555 South 10th Street, Lincoln, NE 68508. This report and other financial information are also available online at www.lincoln.ne.gov/city/finance/.

CITY OF LINCOLN, NEBRASKA

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED AUGUST 31, 2019

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ (23,570,900)
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.	30,076,937
The net effect of various transactions involving capital contributions is to increase net position.	6,975,894
Revenues in the statement of activites that do not provide current financial resources are not reported as revenues in the funds: Change in revenues in fund statements previously recognized in the statement of activities.	542,161
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.	(1,583,689)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	(2,537,506)
Changes in the net pension liability, deferred inflows and outflows related to the net pension liability, total OPEB liability, and deferred inflows and outflows related to the total OPEB liability do not represent financial activity in the governmental funds. Internal service funds are used by management to charge the costs of certain services to individual funds. The net income of the internal	(4,758,009)
service funds is reported within governmental activities.	 9,895,077
Change in net position of governmental activities	\$ 15,039,965

NOTES TO THE FINANCIAL STATEMENTS

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY

The accompanying financial statements present the government of the City of Lincoln, Nebraska (City) and its blended component unit, the West Haymarket Joint Public Agency (WHJPA), established April 2, 2010, for which the City is considered to be financially accountable, as the City is ultimately responsible for the debt of the WHJPA if such revenues are insufficient to make the necessary debt service payments. Regarding related organizations, the City's Mayor appoints and the City Council approves all of the board appointments of the Housing Authority of the City of Lincoln. However, the City has no further accountability for this organization.

Blended component units, although legally separate entities, are, in substance, part of the government's operations. The participants in the WHJPA are the City and University of Nebraska (UNL), and the agency is governed by a board consisting of the Mayor, a member of the UNL Board of Regents, and a member of the City Council. The purpose of the agency is to make the most efficient use of the taxing authority and other powers of the participants to facilitate the redevelopment of the West Haymarket Redevelopment Area. The WHJPA almost exclusively benefits the City as its primary function is to finance and construct those City owned assets located in the redevelopment area. The WHJPA is reported as a major governmental fund in the City's financial statements. Complete separate financial statements for the WHJPA may be obtained at the City of Lincoln Finance Department, 555 South 10th Street, Suite 103, Lincoln, NE 68508, or online at www.lincoln.ne.gov/city/finance/account/westhay/audits.htm.

FISCAL YEAR-END

All funds of the City, with the exception of Lincoln Electric System (LES), are reported as of and for the year ended August 31, 2019. December 31st is the fiscal year-end of LES as established by the City Charter, and the last separate financial statements were as of and for the year ended December 31, 2018. The amounts included in the City's 2019 financial statements for LES are amounts as of and for the year ended December 31, 2018.

GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component unit. Fiduciary activities, whose resources are not available to finance the City's programs, are excluded from the government-wide statements. The material effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Functional expenses may also include an element of indirect cost, designed to recover administrative (overhead) costs. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The government-wide financial statements are reported using the *total economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and trust fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. Agency funds, reporting only assets and liabilities, have no measurement focus but use the accrual basis of accounting.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, including interest on long-term debt, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Property taxes, sales taxes, highway user fees, interdepartmental charges, and intergovernmental revenues are all considered to be susceptible to accrual. Special assessments are recorded as revenues in the year the assessments become current. Annual installments not yet due are reflected as special assessment receivables and deferred revenues. Other revenue items are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The <u>General Fund</u> finances the day-to-day operation of the basic governmental activities, such as legislative, judicial, administration, aging services, police and fire protection, emergency communications, legal services, planning, and parks and recreation. Primary resources of the fund include property, sales, and occupation taxes.

The <u>Street Construction Fund</u>, a special revenue fund, accounts for the resources accumulated, primarily highway allocation fees received from the State of Nebraska, and the payments made for the maintenance, construction, and improvement of the streets and highways in the City. Certain capital outlay expenditures reported in this fund are paid with a combination of these restricted resources and the proceeds from previous bond issuances.

The <u>West Haymarket JPA Fund</u> accounts for the activities of the joint public agency, a blended component unit of the City, established to facilitate the redevelopment of the West Haymarket Area. Occupation taxes imposed on bar, restaurant, car rental, and hotel revenues, provides the resources to finance the activities of the JPA.

The City reports the following major enterprise funds:

The Lincoln Wastewater System Fund accounts for the activities of the City's wastewater utility.

The Lincoln Water System Fund accounts for the activities of the City's water distribution operations.

The <u>Lincoln Electric System Fund</u> accounts for the activities of the City's electric distribution operations.

Additionally, the City reports the following fund types:

<u>Internal Service Funds</u> account for data processing, engineering, risk management, fleet management, and municipal services center operations services provided to other departments or agencies of the government, or to other governments, on a cost reimbursement basis.

The <u>Pension Trust Fund</u> accounts for the receipt, investment, and distribution of retirement contributions made for the benefit of police officers and firefighters.

The <u>Agency Funds</u> account for the collection of various taxes, fines, and fees due to other government entities; funds held in escrow for homeowners; good faith money due to contractors upon project completion; funds held for payroll taxes and other payroll related payables; funds held to pay outstanding warrants; funds to pay phone system charges; funds to pay matured bonds and coupons for which the City Treasurer is trustee; and reserve funds held for the Public Building Commission Bonds.

The effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes, return on equity, and charges between the business-type functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, fines and forfeitures, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the government's internal service funds are charges to customers for goods and services. Operating expenses include the cost of sales and service, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

In 2011, the City Council approved an ordinance requiring LES to pay an annual dividend to the City for the City's ownership of LES, in an amount based on the total net position of LES as of the most recent audited year-end financial statements. The annual dividend shall be remitted to the City on a semiannual basis on the 20th day of February and August of each year, with each payment representing fifty percent of the annual dividend payment.

ASSETS, LIABILITIES, AND NET POSITION OR FUND EQUITY

Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. These investments are not specifically identified with any one fund. Interest is allocated to the individual funds on the basis of average cash balances.

The City may invest in certificates of deposit, in time deposits, and in any securities in which the state investment officer is authorized to invest pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act and as provided in the authorized investment guidelines of the Nebraska Investment Council and the City Investment Policy in effect on the date the investment is made.

Investments in the Pension Trust Fund are carried at either fair value or net asset value. Investments in other funds are carried at fair value, except for short-term investments, which are reported at amortized cost, which approximates fair value. Securities traded on a national exchange are valued at the last reported sales price. Investments that do not have an established market are reported at estimated fair value, based on relevant

market information of similar financial instruments. Income from investments held by the individual funds is recorded in the respective funds as it is earned.

Receivables and Payables

Loans receivable in governmental funds consist of rehabilitation and redevelopment loans that are generally not expected or scheduled to be collected in the subsequent year.

Noncurrent portions of long-term receivables due to governmental funds are reported on their balance sheets, in spite of their spending measurement focus. Recognition of governmental fund type revenues represented by noncurrent receivables generally is deferred until they become current receivables.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by noncurrent liabilities. Since they do not affect current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

Inventories and Prepaid Items

Materials, supplies, and fuel inventories are stated at cost, which is generally determined using the average cost method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Amounts of governmental fund inventories and vendor prepaid items are reported as nonspendable net position to indicate that they do not represent "available spendable resources".

Plant Operation Assets

LES' interest in jointly owned facilities Laramie River Station and Walter Scott Energy Center (see Note 23), is reported as plant operation assets on the statement of net position.

Costs Recoverable from Future Billings

Certain income and expense items of the Wastewater System, Water System, and LES, which would be recognized during the current period are deferred and not included in the determination of the change in net position until such costs are expected to be recovered through rates, in accordance with the regulated operations provisions of GASB Statement No. 62.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, drainage systems, street lights, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Prior to September 1, 2017, and the implementation of GASB Statement No. 89, interest incurred during the construction phase of capital assets of business-type activities was included as part of the capitalization value of the assets constructed.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	Years
Buildings	10 - 50
Improvements	5 - 40
Infrastructure	20 - 100
Equipment	2 - 20

The exceptions to this rule are library media, which is depreciated using a composite depreciation method, and LES, which depreciates it's utility plant on a straight-line basis using composite rates ranging between 2% and 20%, depending on the respective asset type.

Compensated Absences

City employees generally earn vacation days at a variable rate based on years of service. In the event of termination, an employee is reimbursed for accumulated vacation time up to a maximum allowed accumulation, which is in no case longer than 37 days.

Employees earn sick leave at the rate of one day per month with total accumulation unlimited. Upon retirement, an employee is reimbursed for a percentage of accumulated sick leave with percentages and maximums depending on the employees' bargaining unit contract. Upon resignation from City service an employee may also be compensated for a percentage of accumulated sick leave, again, based on the employees' bargaining union contract. In some cases payment may be placed in a medical spending account rather than reimbursing the employee directly.

LES is covered by a separate personnel plan regarding vacation and sick leave with the liability for these benefits recorded in accrued liabilities.

Vacation leave and other compensated absences with similar characteristics are accrued as the benefits are earned if the leave is attributable to past service and it is probable that the City will compensate the employees for such benefits. Sick leave and other compensated absences with similar characteristics are accrued as the benefits are earned only to the extent it is probable that the City will compensate the employees for such benefits through cash payments conditioned on the employee's termination or retirement, and is recorded based on the termination method. Such accruals are based on current salary rates and include salary-related payments directly and incrementally associated with payments made for compensated absences on termination.

All vacation and sick leave is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. In the governmental funds, only compensated absences that have matured as of year-end, for example, as a result of employee resignations and retirements, are recorded as a fund liability.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. For current and advance refundings of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense over the remaining life of the old debt or the life of the new debt, whichever is shorter. The unamortized balance of the refunding gain or loss is reported as deferred inflows or outflows of resources, as applicable, on the statement of net position.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as another financing source. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as current expenditures.

Fund Equity

Fund balances reflect assets plus deferred outflows of resources minus liabilities and deferred inflows of resources in the governmental fund statements. Fund balance is divided into five classifications; nonspendable, restricted, committed, assigned and unassigned. Fund balance is reported as nonspendable when not in spendable form or legally or contractually required to be maintained intact. Fund balance is reported as restricted when constraints placed on the use are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.

Fund balance is reported as committed when constraints are imposed by formal action (ordinance) of the City Council, the City's highest level of decision-making authority. Once adopted, the limitations imposed by the ordinance remain in place until the adoption of another ordinance to remove or revise the limitation.

Fund balance is reported as assigned when the intent of the City (resolutions approved by Council and executive orders approved by the Mayor) is to use the funds for a specific purpose. Unlike commitments, assignments generally only exist temporarily, as an additional formal action does not have to be taken to alter an assignment. Unassigned fund balance is the residual amount and only the General Fund can report a positive unassigned balance.

The City has established a policy intended to address the primary consideration of meeting unanticipated short-term cash flow needs of the City and the long-term goal of managing General Fund balances in a manner that at all times preserves the City's ability to meet its cash flow needs. No less than twenty percent of the ensuing year's General Fund budget is to be set aside to meet excess cash flow needs. Currently \$35,146,421 of the General Fund's spendable and unrestricted fund balance meets the requirements of this policy.

Net Position Classification

Net position is assets plus deferred outflows of resources minus liabilities and deferred inflows of resources and is shown in the entity-wide, proprietary, and fiduciary fund financial statements. Net position is required to be classified into three components – net investment in capital assets, restricted, and unrestricted. These classifications are defined as follows:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvements of those assets. Deferred outflows of resources and deferred inflows of resources that are attributable to the acquisition, construction, or improvements of those assets or related debt also should be included in this component of net position. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of net investment in capital assets.

Restricted – This component of net position consists of restricted assets, reduced by liabilities related to those assets, with constraints placed on their use through external parties such as creditors (debt covenants), grantors, contributors, or law or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation. The government-wide statement of net position reports \$198,327,278 of restricted net position, of which enabling legislation restricts \$31,840,323.

Unrestricted – This component consists of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the "restricted" or "net investment in capital assets" components of net position.

When both restricted and unrestricted resources are available for use, it is generally the City's policy to use restricted resources first, then unrestricted resources as they are needed.

BUDGETARY DATA

The City Council follows these procedures, set out in the City Charter, in establishing the budgetary data reflected in the financial statements:

- 1) No later than June 15, prior to the beginning of the biennial budget period, the Mayor submits to the City Council a proposed biennial budget for the ensuing years. The biennial budget is a complete financial plan for the biennial period and consists of an operating budget and a capital budget.
- 2) Public hearing on the proposed budget is scheduled for not later than 10 days prior to the budget adoption date.
- 3) Not later than 5 days prior to the end of the biennial period, the budget is legally adopted by resolution of the City Council.
- 4) The Mayor is authorized to transfer unencumbered balances between appropriations of the same department or agency during the biennium. The Mayor also has authority to lower appropriations in any fund where actual revenues are less than appropriated in order to avoid incurring a budget deficit for that fiscal or biennial period.
 - Appropriation transfers between departments or agencies may only be authorized by resolution of the City Council. The Council may not make any appropriations in addition to those authorized in the biennial budget, except that it may authorize emergency appropriations in the event of an emergency threatening serious loss of life, health, or property in the community.
- 5) Budgets for all funds are adopted on a basis inconsistent with accounting principles generally accepted in the United States of America (GAAP). Since encumbrances are included in the City's budget accounting, year-end encumbrances are reappropriated to the next year in the budget process. Various funds have expenditures automatically appropriated through the budget resolution, based on funds available. These expenditures are reflected in the original and final budgets at amounts equal to the actual expenditures. Budget basis expenditures are presented on a cash basis.
 - Amendments to the adopted budget were made this year and resulted from prior fiscal year encumbrances identified subsequent to budget adoption, appropriation of unanticipated revenues to certain funds as provided in the budget resolution, and appropriation revisions between or among departments as provided for under the City Charter.
- 6) Appropriation controls are required at the departmental level. However, as a matter of policy and practice, appropriations generally are controlled at the next level of organization (division) or by fund within a department.
- 7) Operating appropriations lapse at the end of the biennial period for which authorized except for those reappropriated by Council resolution, capital improvement appropriations and year-end encumbrances against operating budgets. Capital improvement appropriations are continuing appropriations through completion of the project.
- 8) Budgets are adopted by resolution for the following fund types: general, special revenue, debt service, capital projects, permanent, enterprise, internal service, and pension trust. Legally adopted annual budgets are not established for the West Haymarket JPA component unit, certain special revenue (Advance Acquisition, Police & Fire Pension Contributions, Special Assessment, Impact Fees, Parks & Recreation Special Projects, RP Crawford Park and Vehicle Tax Residual Revenue), debt service (Special Assessment), permanent (JJ Hompes), Fast Forward, and agency funds. In addition, capital project funds are budgeted on a project rather than a biennial basis.

ENDOWMENTS

The Community Health Permanent Endowment Fund was established in 1997 with the \$37,000,000 cash proceeds realized by the City from the sale of Lincoln General Hospital, and may be increased by donations, bequests, or appropriations to the fund. Investment earnings of the fund are used for funding health and health-related programs that further the health, safety, or welfare of the citizens of Lincoln. Earnings deposited with the City Treasurer shall be paid out only by order of those persons designated by the Community Health Endowment (CHE) Board of Trustees as outlined in the Fiscal and Budget Directives policy between the CHE and the City. State law directs that, subject to the intent of a donor expressed in the gift instrument, an institution may appropriate for expenditure or accumulate so much of an endowment fund as the institution determines is prudent for the uses, benefits, purposes, and duration for which the endowment fund is established. The current amount of net appreciation available for expenditure is \$26,580,678, which is reported along with \$865,000 of contingency funds as expendable health care restricted net position in the statement of net position. The initial endowment principal is reported as nonexpendable health care restricted net position in the statement of net position.

ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows, liabilities, and deferred inflows and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results could differ materially from those estimates.

IMPLEMENTATION OF NEW ACCOUNTING PRINCIPLES

In 2019 the City implemented the provisions of the following GASB Statements:

GASB Statement No. 83, *Certain Asset Retirement Obligations*. This Statement enhances comparability of financial statements among governments by establishing uniform criteria for governments to recognize and measure certain asset retirement obligations. An asset retirement obligation is defined as a legally enforceable liability associated with the retirement of a tangible capital asset. It also enhances the decision-usefulness of the information provided to financial statement users by requiring disclosures related to the asset retirement obligations. The implementation of Statement 83 did not have an impact on the City's current financial statements.

GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements. This statement specifies disclosures that should be made in the financial statements related to debt. It also provides a definition of debt so that governments know which type of liabilities should be included in those disclosures. If a government has direct borrowings or direct placements, disclosure related to these should be provided separately from disclosures related to other types of debt. The implementation of Statement 88 is evidenced by changes in the Debt Obligations footnote and separate disclosure of the City's direct borrowings.

(2) RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUNDS BALANCE SHEET AND THE GOVERNMENT-WIDE STATEMENT OF NET POSITION

The governmental funds balance sheet includes a reconciliation between *fund balance* – *total governmental funds* and *net position of governmental activities* as reported in the government-wide statement of net position. One element of that reconciliation explains, "Long-term liabilities, including bonds payable, are not due and payable in the current period and, therefore, are not reported in the funds." The details of the \$562,543,658 difference are as follows:

Bonds Payable	\$	421,261,646
Less issuance discounts		(988,582)
Plus issuance premiums		13,494,999
Plus deferred gain on refunding		843,272
Less deferred loss on refunding		(641,514)
Capital Leases Payable		25,258,856
Accrued Interest Payable		4,301,362
Net Pension Liability		74,070,489
Deferred Outflows for Pension		(21,646,007)
Deferred Inflows for Pension		7,582,293
Total OPEB Liability		15,065,257
Deferred Outflows for OPEB		(844,389)
Deferred Inflows for OPEB		1,938,989
Compensated Absences		22,845,798
Other	_	1,189
Net difference	\$	562,543,658

EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES AND THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES

The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between *net change in fund balances* – *total governmental funds* and *change in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$30,076,937 difference are as follows:

Capital outlay	\$ 74,881,566
Depreciation expense	 (44,804,629)
Net difference	\$ 30,076,937

Another element of that reconciliation states, "The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$(1,583,689) difference are as follows:

Debt issued or incurred:

Issuance of general obligation stormwater bonds	\$ (9,900,000)
Issuance of direct borrowing loan	(2,175,079)
Issuance of tax allocation bonds	(128,200)
Issuance of certificates of participation	(3,440,000)
Issuance premiums	(1,600,192)
Amortization of deferred premiums, discounts,	
and amounts from refundings	853,234
Principal repayments	14,806,548
Net difference	\$ (1,583,689)

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds." The details of this \$(2,537,506) difference are as follows:

Loss on disposal of capital assets	\$ (893,379)
Accrued interest	83,986
Compensated absences	(1,662,136)
Other	(65,977)
Net difference	\$ (2,537,506)

(3) RESTRICTED ASSETS

Certain proceeds of the enterprise funds revenue bonds and resources set aside for their repayment are classified as restricted assets on the statement of net position because their use is limited by applicable bond covenants. Assets included in the Bond Principal and Interest Account and the Bond Reserve Account are restricted for the payment of bond principal and interest. Assets included in the Surplus Account and in the Renewal and Replacement Account are restricted for specific purposes including improvements, repairs and replacements, acquisition of equipment, and the payment of bond principal and interest. Assets included in the Construction Account are restricted for paying the cost of capital improvements. Also, Lincoln Electric System has assets restricted for paying employee health claims and for deposits provided by both customers and developers.

A recap of the proprietary funds restrictions and related balances at August 31, 2019, are as follows:

Fund Account		Parking System	Solid Waste Management	Lincoln Wastewater System	Lincoln Water System	Lincoln Electric System	Total
Principal and Interest	- \$		Wanagement	1,711,986	405,374	17,352,000	19,469,360
Reserve	Ψ	-	1,117,084	6,977,186	5,211,450	19,235,000	32,540,720
Surplus		-	-	15,964,880	7,824,949	-	23,789,829
Renewal and Replacement		2,521,620	-	-	-	-	2,521,620
Capital Construction and Equipment Customer/Developer		19,087,303	50,365	-	-	-	19,137,668
Deposits		-	-	-	-	2,136,000	2,136,000
Claims						1,935,000	1,935,000
Total	\$	21,608,923	1,167,449	24,654,052	13,441,773	40,658,000	101,530,197

Resources of the permanent funds totaling \$37,160,000 are legally restricted to the extent that only earnings and not principal may be used to support the City's programs.

(4) <u>DEPOSITS AND INVESTMENTS</u>

DEPOSITS

Custodial credit risk is the risk that in the event of a bank failure, a government's deposits may not be returned to it. The City's deposit policy for custodial credit risk requires compliance with the provisions of state law.

State Statutes 15-846 and 15-847 R.R.S., 1943 require banks either to provide a bond, provide a Federal Home Loan Bank letter of credit, or to pledge government securities (types of which are specifically identified in the Statutes) to the City Treasurer in the amount of the City's deposits. The Statutes allow pledged securities to be reduced by the amount of the deposit insured by the Federal Deposit Insurance Corporation (FDIC).

The City's cash deposits, including certificates of deposit, are insured up to \$250,000 by the FDIC. Any cash deposits and certificates of deposit in excess of the \$250,000 FDIC limits are covered by collateral held in a

Federal Reserve pledge account or by an agent for the City, or a letter of credit issued by a Federal Reserve Bank, and thus no custodial risk exists. No legal opinion has been obtained regarding the enforceability of any of the collateral arrangements.

INVESTMENTS

Fair Value Measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1 Quoted prices in active markets for identical assets or liabilities.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying financial statements measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at August 31, 2019.

Money Market Funds and External Investment Trusts are carried at cost, and thus are not included within the fair value hierarchy. Certain investments that are measured using the net asset value per share (or its equivalent) practical expedient have also not been classified in the fair value hierarchy. Other than the pension trust fund investments noted specifically on page 48, the City's remaining investments carried at net asset value have no unfunded commitments and these investments can be redeemed at any time. These investments have been noted with NAV in the table below.

At August 31, 2019, the City had the following investments, maturities, credit ratings, and fair value measurement:

	August 31, 2019							
	Maturities in Years							
_						Credit		Hierarchy

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The City has no investments at August 31, 2019 that are classified within Level 3 of the hierarchy.

INVESTMENT POLICIES

General City Policy

Generally, the City's investing activities are managed under the custody of the City Treasurer. Investing is performed in accordance with the investment policy adopted by the City Council complying with state statutes and the City Charter. The City may legally invest in U.S. government securities and agencies, U.S. government sponsored agencies, and in bank repurchase agreements. It may also invest to a limited extent in corporate bonds, bankers' acceptances, and investment agreements.

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investment securities that are in the possession of an outside party.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits current operating funds to be invested with maturities of not longer than twenty-four months. Fixed income investments held in construction funds, operating funds, and other nonoperating funds are limited to ten-year maturities. Investment agreements are not subject to interest rate risk, as the issuer guarantees the interest rate. Money market mutual funds and external investment funds are presented as investments with a maturity of less than one year because they are redeemable in full immediately. Tax Increment Financing investments are allowed to exceed 10 years as the interest rates are guaranteed by the fund and the investment is made within the City's funds.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City's investment policy establishes requirements for certain investment securities to be rated at certain rates or higher without having collateral pledged to the City. The following investment types must be rated at the minimum rates noted below:

	<u>S&P</u>	Moody's
Money Markets	AAm	
Corporate Notes	AA-	Aa3
Investment Agreements	AA-	Aa3
Commercial Paper	A-1	P-1
Bankers' Acceptance	A-1	P-1
Local Government Debt	AA	Aa

The external investment funds are held in the City's idle fund pool and are comprised of Nebraska Public Agency Investment Trust (NPAIT) and Short-Term Federal Investment Trust (STFIT) funds. These Funds are carried by the City at amortized cost. NPAIT and STFIT invest in only the highest quality securities, including U.S. government, rated U.S. sponsored agencies, and guaranteed student loans, and their investment portfolios are valued at amortized cost, which approximates fair value based on the short-term nature of the instruments.

Concentration of Credit Risk. The City's investment policy places various limits on the amount that may be invested in any one issuer. Per the policy, allocation limits do not apply to the investment of proceeds from issuance of debt. These investments shall be governed by the debt covenant included in the debt instrument. Non-compliance due to a decrease in investment balance does not require corrective action.

Туре	Portfolio Composition	Policy Limits on Issuer
U.S. agency obligations:		
Federal Home Loan Bank	15.80 %	40.00 %
Federal Home Loan Mortgage Corporation	13.35	40.00
Federal National Mortgage Association	5.33	40.00
Federal Farm Credit Bank	6.38	40.00
Federal Agricultural Mortgage Corporation	0.00	25.00

Community Health Endowment (CHE) Policy

As a public endowment fund, under State law, CHE is permitted to invest in the manner required of a prudent investor acting with care, skill and diligence under the prevailing circumstance, without restrictions as to the type and limits of investments. CHE has engaged one of the world's largest institutional investment firms to advise on portfolio management. That investment firm and affiliates are also the sponsor and investment manager for all of the institutional funds listed on a previous page.

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, CHE will not be able to recover the value of its investment securities that are in the possession of an outside party. All investments are held in CHE's name.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. As a means of limiting its exposure to fair value losses arising from rising interest rates, CHE's investment policy requires the average duration of the fixed income portfolio to be no more than 120% of the appropriate fixed income benchmark.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. It is CHE's policy to limit its investments in fixed income securities to issues with at least BBB-/Baa3 ratings. Short-term fixed income issues should have a minimum A-2/P-2 rating. None of CHE's investments were rated at August 31, 2019.

Concentration of Credit Risk. Concentration of credit risk is the risk associated with the amount of investments CHE has with any one issuer that exceeds 5% or more of its total investments. CHE limits the percentage that may be invested in any one sector, company and issuer. CHE's portfolio shall not own more than 5% of the outstanding securities of any single issuer. Exceptions are allowed where a fund's benchmark includes securities greater than 3%, in which case the investment manager may have no more than the securities index weight plus 2%. The entire portfolio shall have no more than 5% of its assets invested in the securities of any one issuer, with the exception of U.S. Treasury and U.S. agencies obligations.

Foreign Currency Risk. This risk relates to adverse affects on the fair value of an investment from changes in exchange rates. CHE had no investment denominated in foreign currency at August 31, 2019.

Police & Fire Pension Trust Policy

The Police & Fire Pension Trust Investment Board, established by the City Council in accordance with Lincoln Municipal Code chapter 4.62, directs and oversees the trust's investments for the sole benefit of plan participants and beneficiaries. The Board consists of nine members. Two board positions shall be filled by the City Finance Director and the City Human Resources Director; two board positions shall be elected by secret ballot by the active paid police officers of the City; two board positions shall be elected by secret ballot by the active paid firefighters of the City; and three board positions shall be appointed by the Mayor, after consultation with the other six members, subject to approval by the City Council. The three appointed members shall have at least five years demonstrated experience in financial, actuarial, investment or employee benefit plan matters.

The board also provides oversight and directions to the plan administrator with regard to the investments of the trust's funds. The daily management responsibility of the trust and routine investment transactions are delegated to the plan administrator.

The Police & Fire Pension Trust is allowed to invest in domestic and international equity funds, domestic and foreign bonds, real estate, and alternative investments.

The investment board has the responsibility to allocate plan assets in various investment strategies to reach the overall return and risk objectives of the plan. Annually the board reviews the plan's investments from an "asset allocation" perspective. The strategic allocation process is based on such factors as historical absolute returns of the benchmarks, recent returns for benchmarks, volatility of benchmark returns as measured by standard deviation, and the correlation of returns with other asset classes used in the portfolio. The following was the asset allocation as of August 31, 2019:

Asset Class	Target Allocation
Developed Equity	40.0 %
Emerging Markets Equity	5.0
Private Equity	10.0
Fixed Rate Debt (Intermediate)	10.0
Floating Rate Public Debt	5.0
Private Credit	5.0
Low Volatility Hedge Funds	10.0
Private Real Estate	15.0_
Total	100.0 %

Custodial Credit Risk. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the Police & Fire Pension Trust will not be able to recover the value of its investment securities that are in the possession of an outside party.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Investment Board for the Police & Fire Pension Trust compares the risk and return characteristics derived from the actual performance of the Fund, by separate asset classes and specific securities to appropriate benchmarks, and financial indices and/or funds, at least annually. Asset allocation, investments, and/or investment managers are adjusted as necessary by this monitoring.

Credit Risk. The policy states that the plan will select appropriate investments, or investment manager(s), to fill each asset class allocation. The individual investment, or investment managers, chosen shall be those determined to meet the board's objectives in terms of their overall combination of risk, return, and liquidity.

Concentration of Credit Risk. The policy places no limit on the amount that may be invested in any one issuer. The following individual investments currently held by the Plan are greater than 5% of the Plan's fiduciary net position:

Vanguard Total Stock Market Index	25.17	%
RREEF America REIT II	11.00	
American New Perspective R6	10.90	
J.P. Morgan Core Bond Fund	9.87	
Dodge and Cox Global Stock Fund	9.37	
Prudential PRISA III LP	5.29	
Bain Capital Senior Loan Fund	5.27	
Parametric Defensive Equipty Fund LLC	5.19	
Bpif Non-Taxable LP	5.07	

The Trust is required to fund the following additional amounts in accordance with the related investment agreements:

Tenaska TPF II, LP - \$66,521

Aberdeen U.S. Private Equity VI - \$630,000

Greenspring Partners IX-B - \$3,990,000

Warburg Pincus Global Growth - \$3,288,250

Weathergage Venture Capital IV - \$1,200,000

Golub Capital Partners International Fund 11 - \$1,300,000

Principal Real Estate Debt Fund II - \$2,717,867

Summary of Deposit and Investment Balances

Following is a reconciliation of the City's deposit and investment balances as of August 31, 2019:

	_	Totals

Electric System Capital Assets, Net	\$	904,155,000	91,518,000	57,326,000	938,347,000

The costs of LES retirement work orders are closed into accumulated depreciation, which follows Federal Energy Regulatory Commission guidelines. Therefore, as shown above, the decrease in LES accumulated depreciation exceeds the decrease in Utility Plant assets and the decrease in Construction in Progress exceeds the increase in Utility Plant.

Lincoln Electric System utility plant includes an allowance for funds used during construction for projects costing in excess of \$500,000. The allowance for funds used during construction is based on LES' true interest cost of the most recent borrowing. The rate for 2018 was 2.3% from January to June and 3.2% from July to December.

(8) INTERFUND BALANCES AND ACTIVITY

Balances Due To/From Other Funds at August 31, 2019, consist of the following:

Due To				Due From				
	_	General Fund	Street Construction	West Haymarket JPA	Nonmajor Governmental	Nonmajor Enterprise	Internal Service	Total
General Fund	\$	-	389	130	351,496	125,702	54	477,771
Street Construction		1,240,365	-	_	10,595,643	´ -	4,575	11,840,583
Nonmajor Governmental		2,274,002	-	160,000	1,693,437	7,830	-	4,135,269
Lincoln Wastewater System		413,455	-	-	1,313,435	-	-	1,726,890
Lincoln Water System		1,240,365	-	-	5,570,401	-	-	6,810,766
Nonmajor Enterprise		1,240,451	14,764	228,370	15,314	-	-	1,498,899
Internal Service	_	2,175,885	159,271	54,072	73,113	25,188	112,315	2,599,844

"Due to" and "Due from" balances are recorded when funds overdraw their share of pooled cash. Other balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Transfers To/From Other Funds for the year ended August 31, 2019, consist of the following:

Transfer To			Transfer From							
	General	Street	West	Nonmajor	Lincoln	Lincoln Water	Lincoln Electric	Nonmajor	Internal	
	Fund	Construction	Haymarket JPA	Governmental	Wastewater	System	System	Enterprise	Service	Total

Internal Service	305,454	1,338,546								1,644,000
Total	\$ 36,873,730	6,359,992	361,900	27,987,721	8,493	10,310	9,897,044	4,248,038	182,548	85,929,776

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) use unrestricted revenues in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations, and (3) transfer payment in lieu of taxes and return on equity from LES to the General Fund.

The \$105,044 variance for transfers on the Statement of Activities is caused by the different fiscal year end dates used by the City (August 31) and Lincoln Electric System (December 31). Lincoln Electric System records an estimate for payments of return on equity as an accrued liability at December 31. The City however, receives the payments before the August 31 fiscal year end, and records the total amount as a transfer in.

(9) <u>DEBT OBLIGATIONS</u>

SHORT-TERM

Established by City Ordinance, LES may borrow up to \$150 million under a commercial paper note program. The payment of the commercial paper notes is subordinated to the payment of the principal of, and interest on, the outstanding bonds. At December 31, 2018, LES had \$65.5 million of tax-exempt commercial paper notes outstanding. The notes mature at various dates but not more than 270 days after the date of issuance. The weighted-average interest rate for the year ended December 31, 2018, was 1.42%. The outstanding commercial paper notes are secured by a revolving credit agreement. There were no advances outstanding under the credit agreement at December 31, 2018. LES uses commercial paper notes as part of their long-term financing strategy. As such, commercial paper is typically renewed as it matures. The weighted average length of maturity of commercial paper for 2018 was 62 days.

Commercial paper activity for the year ended December 31, 2018, is as follows:

	Beginning			Ending	Due Within
Lincoln Electric System:	Balance	Additions	Reductions	Balance	One Year
Commercial Paper Notes	\$ 95,500,000	493,000,000	(523,000,000)	65,500,000	65,500,000

LONG-TERM

The City issues general obligation, special assessment, and revenue bonds to finance the acquisition and construction of major capital assets. Bonded indebtedness has also been entered into to advance refund several general obligation and revenue bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the government. Special assessment bonds are repaid from amounts levied against affected property owners, but in the unlikely event collections are not sufficient to make debt payments, the responsibility rests with the City to meet that obligation. For revenue bonds the government pledges income derived from the acquired or constructed assets to pay the debt service.

Net position of \$1,545,479, \$3,665,997, \$1,116,232, and \$2,012,273 is currently available in the debt service funds to service the Tax Allocation Bonds, General Obligation Bonds, Tax Supported Bonds, and Special Assessment Bonds, respectively. Revenue Bonds are funded partially from reserve accounts set up for debt repayment and partially from proceeds of daily operations.

The City has entered into lease agreements for financing the acquisition of land, buildings, streetlights, entry corridor improvements, sidewalks, dump trucks, street sweepers, motor grader, emergency vehicles and equipment, golf equipment, and computer equipment and software. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. Assets acquired through capital leases are as follows:

	Governmental Activities	Business-Type Activities
Land	\$ 1,780,066	\$ 199,546
Buildings	28,996,161	1,647,945
Improvements	5,070,465	-
Infrastructure	30,925,499	-
Machinery and Equipment	10,988,333	3,293,849
Construction in Progress	-	-
Less Accumulated Depreciation,		
(where applicable)	(22,605,604)	(2,544,400)
Total	\$ 55,154,920	\$ 2,596,940

Under the City's Home Rule Charter, there is no legal debt limit. The various bond indentures contain significant limitations and restrictions on annual debt service requirements, minimum amounts to be maintained in various bond reserve funds, and minimum revenue bond coverages.

In January 2019, the City executed a Promissory Note in the aggregate principal amount of \$2,175,079, with an interest rate of 1.95% per annum, and final maturity date of January 15, 2034. The note is issued to provide financing for a portion of the costs of various HVAC and lighting improvements and related equipment in and for the City Libraries and Park's facilities. The note is secured by and payable from any and all general fund resources of the City, including but not limited to any and all authorized levies of taxes.

In July 2019, the Parking System issued \$21,285,000 of General Obligation Parking System and Refunding Bonds with an average interest rate of 2.532% to refund \$23,990,000 of Parking System Revenue Bonds, Series 2011 and 2012. The System completed the advance refunding to reduce its total debt service payments for the next 13 years by \$2,280,643 for an economic gain (difference between the present values of the old and new debt service payments) of \$2,084,485. At August 31, 2019, \$22,610,000 of Series 2011 and 2012 Bonds remain outstanding.

In August 2019, the Water System issued \$10,170,000 of Water Revenue Refunding Bonds with an average interest rate of 3.971% to refund \$11,180,000 of Water Revenue Bonds, Series 2009. The System completed the refunding to reduce its total debt service payments for the next 15 years by \$2,413,462 for an economic gain (difference between the present values of the old and new debt service payments) of \$2,081,929.

During 2018, LES replaced its existing revolving credit agreement with The Bank of Tokyo-Mitsubishi with a similar agreement with JPMorgan Chase Bank, National Association, dated August 24, 2018. The new agreement expires on August 23, 2021. The revolving credit agreement, which primarily supports LES' commercial paper program, also includes a Note Purchase Agreement which provides LES the ability to borrow monies on a short-term basis. There was \$1.5 million outstanding under the Note Purchase Agreement as of December 31, 2018. Amounts outstanding under the agreement reduce the amount available under the revolving credit agreement.

Lincoln Wastewater System has entered into a loan agreement with the Nebraska Department of Environmental Quality (NDEQ) consisting of three separate contracts. Under contract 317247 the Lincoln Wastewater System has borrowed \$4,808,792 to fund certain sewer system extension and sewer repairs. The System also borrowed \$5,000,000 under contract 317078 to fund certain treatment facilities projects. The interest rate throughout the term of these loans is 2.0%. The Wastewater System has also borrowed \$17,000,000 under contract 317830 to fund certain wastewater solids handling, trunk sewer, and selected facility replacement improvements. The interest rate throughout the term of this loan is 3.25%.

Lincoln Water System has entered into a \$14,977,829 loan agreement with NDEQ to fund certain water system extension and water repairs. The interest rate throughout the term of the loan is 2.25%. In addition, an administrative fee of 1% will be incurred on the loan.

Long-term bonded debt of the City is comprised of the following individual issues (in thousands of dollars):

Internal Service funds predominantly serve the governmental funds, therefore, their long-term liabilities are included with the governmental activities. Compensated absences for governmental activities are generally liquidated in the General Fund as well as various other Special Revenue and Internal Service funds where personnel costs are incurred. The claims and judgments liability will generally be liquidated through the City's Insurance Revolving Internal Service Fund, which will finance the payment of those claims by charging other funds based on management's assessment of the relative insurance risk that should be assumed by individual funds. The net pension liability will be liquidated through the Police & Fire Pension Contributions Special Revenue Fund with financing provided by an annual property tax levy. The total OPEB liability for an implicit rate subsidy will be liquidated with those governmental funds where personnel health insurance costs are incurred.

Long-term liability activity for the major enterprise funds for the year ended August 31, 2019, was as follows (in thousands of dollars):

DEVELOPER PURCHASED TAX INCREMENT FINANCING NOTES AND BONDS

At August 31, 2019, \$91,643,459 of developer purchased tax increment financing notes and bonds were outstanding. Developer purchased tax increment financing allows the City to create special districts to enable public/private improvements within those districts that will generate public/private-sector development. For a period of 15 years, the tax base is frozen at the predevelopment level, and taxes generated from the incremental increases in assessed value are remitted to the developer. The agreements between the City and developer expressly limit the City's commitment for debt repayment to the incremental tax collected during the 15-year period. At the end of the 15-year period, the tax jurisdiction collects on the increased property values. The related tax increment districts are not component units of the City; therefore, the City is not liable for the outstanding debt. The City's responsibility for this liability is limited only to remittance of paid taxes, thus these notes and bonds are not reflected in the City's financial statements.

CONDUIT DEBT

On January 26, 2012, the City issued \$19,815,000 of Educational Facilities Revenue and Refunding Bonds for the purpose of paying the cost of acquiring, constructing, equipping and furnishing improvements to Nebraska Wesleyan University's (NWU) higher education facilities and refinancing certain outstanding indebtedness of NWU.

The Bonds are limited obligations of the City and are payable solely from payments to be made by NWU pursuant to a loan agreement dated January 1, 2012, by and between the City and NWU. The Bonds shall not be a charge against the City's general credit or taxing powers. The Bonds shall never constitute an indebtedness of the City within the meaning of any constitutional provision or statutory limitation and shall never constitute or give rise to a pecuniary liability of the City, thus these bonds are not reflected in the City's financial statements. At August 31, 2019, \$14,165,000 of these bonds remain outstanding.

(10) RECONCILIATION OF BUDGET BASIS TO GAAP

Amounts presented on a non-GAAP budget basis of accounting differ from those presented in accordance with GAAP due to the treatment afforded accruals, encumbrances, funds for which budget and reporting structures differ, and funds for which legally adopted annual budgets are not established. A reconciliation for the year ended August 31, 2019, which discloses the nature and amount of the adjustments necessary to convert the actual GAAP data to the budgetary basis, is presented below:

		Street
	General	Construction
	Fund	Fund
Net Change in Fund Balances:		
Balance on a GAAP basis	\$(5,669,635)	(11,115,902)
Basis differences (accruals) occur because the cash		
basis of accounting used for budgeting differs from		
the modified accrual basis of accounting prescribed		
for governmental funds.	(2,549,352)	1,131,539
Perspective differences occur when the structure used		
for budgeting differs from the fund structure used for		
financial reporting.	(1,418,401)	=
Amount budgeted on a project basis.		36,654,761
Balance on a budget basis	\$ (9,637,388)	26,670,398

(11) DEFICIT NET POSITION OR FUND BALANCE

The following funds had a net position or fund balance deficit as of August 31, 2019:

Special Revenue – Lincoln Bike Share Fund	\$ (298,670)
Internal Service - Transportation & Utilities	
Revolving Fund	(1,518,071)

- The Lincoln Bike Share Fund shows a fund balance deficit due to large start up costs of the Lincoln Bike Share Program.
- The Transportation & Utilities Revolving Fund is evaluating various means to reduce expenses and improve revenue collections affected by staffing levels, overhead costs, billing practices, and intra-City services reimbursements.

(12) EXCESS OF EXPENDITURES OVER APPROPRIATIONS

The following fund had expenditures for which there were no appropriations:

General Fund

Traffic Engineering \$ 4,317 Street Lighting \$963,072 Debt Service \$53,482

(13) EMPLOYEES' RETIREMENT PLANS

The employees of the City are covered by several retirement plans. Article II Section 3 of the Lincoln Charter assigns the authority to establish and amend benefit provisions of the various plans to the City Council. The Police and Fire Pension Plan (PFP) is administered by the City and is included in the Fiduciary Fund type. All other plans are administered by outside trustees and are not included in the City's basic financial statements.

POLICE AND FIRE PENSION

<u>Plan Description</u> – PFP is a single-employer defined benefit pension plan administered by the City of Lincoln for all commissioned police and firefighters. PFP provides retirement, disability, and death benefits to plan members and beneficiaries. The City does not issue a separate report that includes financial statements and required supplementary information for PFP.

Summary of Benefit Provisions -

Plan A is applicable to members who were hired on/after April 1, 1995 or who were hired prior to that date, but elected Plan A coverage.

Plan B is applicable to members who were employed on/after April 11, 1984 or who, prior to April 11, 1984, elected Plan B coverage.

Plan C is applicable to members who were employed before April 11, 1984 and did not elect to move to Plan B or A.

Regular Pay - All plans include member's base pay and City's contributions to the Post-Employment Health Plan for the last consecutive 26 bi-weekly pay periods, or in the case of a demotion or out-of-class pay, the highest consecutive 26 bi-weekly pay periods.

Normal Retirement Age – Plan A: Age 50 Plans B and C: Age 53

Normal Retirement – Plan A: Normal retirement age and 25 years of service.

Plans B and C: Normal retirement age and 21 years of service.

Amount of Pension -

Plan A: 2.56% of regular pay times years of service to a maximum of 64% of regular pay.

Plan B: 58% of regular pay with 21 years of service, plus 2% of regular pay for each year of service rendered after becoming eligible for retirement to a maximum increase of 10%.

Plan C: 54% of regular pay with 21 years of service, plus 2% of regular pay for each year of service rendered after becoming eligible for retirement to a maximum increase of 10%.

Early Retirement - Eligibility for all plans is age 50 and 21 years of service.

Amount of Pension -

Plan A: 2.56% of regular pay times years of service up to a maximum of 64% of regular pay.

Plan B and C: 52% and 48% of regular pay, respectively, plus 2% of regular pay for each year of service rendered after becoming eligible, up to a maximum increase of 6%.

Partial Annuity - Eligibility for all plans is normal retirement age and 10, or more, years of service.

Amount of Pension -

Plan A: 2.56% of regular pay times years of service.

Plan B: 58% of regular pay with 21 years of service. Members with less than 21 years of service receive a ratio of years of service to 21 years of 58% of regular pay.

Plan C: 54% of regular pay with 21 years of service. Members with less than 21 years of service receive a ratio of years of service to 21 years of 54% of regular pay.

Deferred Annuity (Vested Termination) - Eligibility for all plans is age less than normal retirement age and 10, or more, years of service. Payments begin at age 50.

Amount of Pension -

Plan A: 2.56% of regular pay times years of service.

Plan B: 58% of regular pay with 21 years of service. Members with less than 21 years of service receive a ratio of years of service to 21 years of 58% of regular pay.

Plan C: 54% of regular pay with 21 years of service. Members with less than 21 years of service receive a ratio of years of service to 21 years of 54% of regular pay.

Duty-Related Disability - Eligibility for all plans is permanent inability to perform the duties of the position from a cause occurring while in line of duty.

Amount of Pension -

Plan A: 58% of regular pay.

Plan B and C: A benefit equal to 58% or 54% of regular pay, respectively, plus 2% of regular pay for each year of service rendered after becoming eligible for retirement, to a maximum increase of 10% of regular pay.

Such benefits shall continue after the member's death to the member's surviving spouse (until their death or remarriage), minor children or designated beneficiary (at a reduced amount). The above amounts are subject to deduction of the amount received from worker's compensation.

Non-Duty Disability - Eligibility for all plans is permanent inability to perform duties of position from a cause not occurring in the line of duty.

Amount of Pension – equal to the following percent of regular pay:

Years of Service (YOS)	Plan A	Plan B	Plan C
$5 \le YOS < 10$	23%	23%	21%
$10 \le YOS < 15$	39%	39%	36%
$YOS \ge 15$	53%	53%	49%

Duty-Related Death - Eligibility for all plans is an active member death in the line of duty, or as a result of injuries received while in the line of duty.

Amount of Pension -

Spouse beneficiary paid at duty disability rate until remarriage or death. Upon spouse's remarriage or death, dependent children paid at same rate until age 19. Non-spouse beneficiary paid at 100% survivor rate for lifetime. The above amounts are subject to deduction of the amount received from worker's compensation.

Non-Duty Death - Eligibility for all plans is member dies from non-duty related cause and 5 years of service.

Amount of Pension - Benefits which would have been payable as a non-duty disability awarded the day prior to death and elected option A (joint and 100% survivor).

Death After Retirement – Remainder Refund - Eligibility for members employed on January 1, 1992, or hired between January 1, 1992, and March 31, 2010.

Upon retirement, the member's balance of contributions plus accrued interest is reduced each month by a level amount equal to the member's balance divided by the expected number of payments. Once both the member and, if applicable, their joint annuitant have died, the remaining balance is paid as a lump sum to a designated beneficiary. The expected number of monthly payments is established in the Internal Revenue Code in effect April 1, 2010, and depends on the age of the retiree at retirement, or the combined ages of the retiree and joint annuitant.

Non-Vested Termination - Eligibility for all plans includes termination of employment and no pension is or will become payable.

Amount of Benefit – all plans will refund member's contributions plus annual interest.

Employee Contributions - Plan A: 8.0% of pay

Plan B: 7.6% of pay Plan C: 7.0% of pay

Upon reaching 21 years of service, member contributions are discontinued for Plans B and C.

Cost of Living Adjustments (COLA) – Eligibility requirements include receiving benefits for at least twelve months preceding September 1. The base amount of the lump sum payment is \$750 effective 9/1/1994. The base amount is increased each year by the lesser of three percent or the annual percentage increase in the Consumer Price Index. Members who retired with at least 21 years of service and members who were granted a duty disability pension will receive the full payments amount. All other members who have been receiving a pension for at least 12 months (and their beneficiaries) will receive a partial payment, determined on a prorata basis according to their service.

<u>Deferred Retirement Option Plan (DROP)</u> - The City has established DROP for police and fire pension members. The DROP program allows a member to retire for pension purposes, but to continue working. The member receives a paycheck and the member's monthly pension benefit is deposited into the member's DROP account. At the end of five years, or anytime before five years, the member must "retire-in-fact". Contributions to the pension are eliminated at the beginning of the DROP period. Pension benefits are set, and will not be increased because of raises, promotions, increased years of service or pension enhancements. When a member retires-in-fact, their monthly pension benefit will be paid directly to them and the member will have access to the funds in their DROP account. The balance held by the third party DROP administrator at August 31, 2019, is \$7,824,152.

Membership of the pension plan consisted of the following at August 31, 2019, the date of the latest actuarial valuation:

Retirees and beneficiaries receiving benefits	536
Terminated plan members entitled to	
but not yet receiving benefits	24
Active plan members (non-DROP)	590
Death benefit refund due	4
DROP members	42
Total	1,196
Number of participating employers	1

<u>Funding Policy</u> – The contribution requirements of plan members and the City are established by City Ordinance and may be amended by the City Council. Plan members are required to contribute between 7% and 8% of their annual covered salary based on an election made by the employee. It is recommended that the City contribute an actuarially determined amount; the contribution amount for fiscal year 2019 was \$8,333,901. For the fiscal year ended August 31, 2019, the Plan received \$8,333,901 in employer contributions.

Actuarial Methods and Assumptions – The annual required contribution for the current year was determined as part of the August 31, 2017, actuarial valuation using the entry age actuarial funding method. The actuarial assumptions included (a) a rate of return on the investment of present and future assets of 7.50% per year compounded annually, (b) projected salary increases of 7.3% grading down to 3.5% per year, including wage inflation at 2.5%, and (c) the assumption that benefits will increase 2.50% after retirement. The actuarial value of assets was determined using a five year smoothed market method. The unfunded actuarial accrued liability is being amortized as a level percentage of payroll on a closed basis over a remaining period of layered bases varying from twenty to twenty-seven years.

Net Pension Liability

Total pension liability 325,109,208 Plan fiduciary net position (246,294,314)Net pension liability 78,814,894

Plan fiduciary net position as a percentage

of the total pension liability 75.76%

The total pension liability was determined by an actuarial valuation using the entry age normal cost method and calculated based on the discount rate and actuarial assumptions below.

Valuation date August 31, 2019 Measurement date August 31, 2019

Assumptions

The total pension liability as of August 31, 2019, was determined by an actuarial valuation performed as of August 31, 2019, using the following key actuarial assumptions:

Price inflation 2.25%

Salary increases, including

wage inflation

2.75% to 8.25%

Long-term Rate of Return,

net of investment expense,

7.45%

including price inflation Municipal Bond Index Rate

3.16%

Single Equivalent Interest Rate, net of investment expense, including price inflation

7.45%

Post-retirement adjustment

COLA benefit payments are assumed to increase

2.25% each year.

Mortality Mortality rates are based on the PubS-2010 Mortality

Tables for Actives, Healthly Annuitants, and Disabled, with generational mortality improvement using the Nebraska Public Employees Retirement

System Mortality Improvement Scale.

The actuarial assumptions that determined the total pension liability as of August 31, 2019 were based on the results of the most recent actuarial experience study for the four-year period ending August 31, 2018.

Discount Rate

The discount rate used to measure the total pension liability at August 31, 2019, was 7.45%, which is a change from the discount rate of 7.50% used to measure the total pension liability at August 31, 2018. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that City contributions will be equal to the actuarially determined contribution rates determined in the actuarial valuation prepared two years prior to the current fiscal year end. Based on these assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments of 7.45% was applied to all periods of projected benefit payments to determine the total pension liability. Future benefit payments for all current pension members were projected through 2118.

Long-Term Rate of Return - The long-term expected rate of return on pension plan investments is generally reviewed on a regular basis as part of an experience study. The 7.45% long-term assumed rate of return for the current measurement date and the 7.50% long-term assumed rate of return for the prior measurement date were actuarially developed. Several factors are considered in evaluating the long-term rate of return assumption, including long-term historical data, estimates inherent in current market data, and an analysis in which best-

estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation), along with estimates of variability and correlations for each asset class, were developed by investment consultants. These ranges were combined to develop the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the pension plan's target asset allocation as of August 31, 2019, are summarized in the following table:

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return*	
Developed Equity	40.0 %	5.0 %	
Emerging Markets Equity	5.0	5.9	
Private Equity	10.0	8.0	
Fixed Rate Debt (Intermediate)	10.0	1.4	
Floating Rate Public Debt	5.0	3.3	
Private Credit	5.0	4.2	
Low Volatility Hedge Funds	10.0	2.9	
Private Real Estate	15.0	4.9	
Total	100.0 %		

^{*} Geometric mean, net of investment expenses

<u>Sensitivity of the net pension liability to changes in the discount rate</u> - The following presents the net pension liability of the City, calculated using the discount rate of 7.45%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.45%) or 1 percentage point higher (8.45%) than the current rate.

		1%	Current	1%
		Decrease	Discount Rate	Increase
	_	6.45%	7.45%	8.45%
Total Pension Liability	\$	365,268,605	325,109,208	291,587,390
Fiduciary Net Position	_	246,294,314	246,294,314	246,294,314
Net Pension Liability	\$	118,974,291	78,814,894	45,293,076

Rate of Return - For the year ended August 31, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 2.24 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

PFP financial statements are prepared on the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when a liability is incurred. Employee and employer contributions are recognized in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the plan terms.

Investments as reported in the financial statements include long-term investments. Law or legal instruments may restrict these investments. All investments are stated at fair value based on quoted market prices. For investments where no readily ascertainable fair value exists, management has received an estimate of fair value from the investment fund manager based, in part, on real estate appraisals.

There have been no changes since the measurement date that would materially alter the pension plan financial report.

Changes in the Net Pension Liability

ELECTRIC SYSTEM

The City owns and operates its own electric system, which is included in the enterprise funds in the accompanying basic financial statements. The electric system is controlled and managed by an administrative board and is not supported by the City's general tax revenues. The electric system provides retirement benefits to its employees under its own separate plan, such benefits being funded solely from revenues derived from the operation of the electric system. A summary of the electric system plan is as follows:

LES has a defined contribution retirement plan created in accordance with Internal Revenue Code Section 401(K). The plan assets are held, managed and administered by a custodian. The plan was established under the authority of the LES administrative board and contributions are also established by the administrative board. LES' contribution is equal to 200% of the employees' contributions, up to 5% of applicable compensation for employees hired prior to 1/1/11. For employees hired after 1/1/11, LES' contribution is equal to 100% of employee's contributions up to 10% of applicable compensation. Vesting of LES

contributions occurs over a three-year period. Employee forfeitures are used to reduce future employer contributions. For the year ended December 31, 2018, LES incurred contribution expense of approximately \$4,508,000 or 10.04% of covered payroll and its employees contributed approximately \$3,705,000 or 8.25% of covered payroll.

DEPARTMENT DIRECTORS

Directors of City departments are eligible the first of the month following the date employed to be covered by the Director's Money Purchase Plan, established by City Ordinance, and administered by an insurance company. The Plan is a defined contribution plan requiring contributions determined by the employees' date of hire. The City contributes 6% to 12% and the employee contributes 0% to 6% of earned income in one calendar year. Employees covered by the Plan may also make voluntary contributions. Participant accounts are immediately 100% vested. City contributions totaled \$194,067 and employee contributions totaled \$65,175. There were no voluntary employee contributions made for the year ended December 31, 2018.

ALL OTHER CITY EMPLOYEES

All other City employees are eligible after 6 months' service and age 19 to be covered under the City's Money Purchase Pension Plan, established by City Ordinance, and administered by an insurance company. Enrollment in the program is mandatory at age 40 with 5 years service. Vesting occurs in increments between 3 and 7 years of enrollment in the plan. The Plan is a defined contribution plan requiring employees to contribute at a rate determined by the employees' bargaining unit and date of hire. The City contributes between \$1.29 and \$2.00 for every \$1.00 contributed by employees. Employee forfeitures are used to reduce employer contributions. Employees covered by the Plan may also make voluntary contributions. During the year ended December 31, 2018, the City incurred contribution expense totaling \$8,353,442, which included a reduction in expense of \$66,918 for employee forfeitures. Employee contributions totaled \$4,689,878. Employees made \$337,866 in voluntary contributions for the year ended December 31, 2018.

(14) OTHER POSTEMPLOYMENT BENEFITS (OPEB)

<u>Plan Description</u> – The City offers employees and their families the opportunity to continue their health care coverage when there is a qualifying event, such as retirement, that would result in a loss of coverage under the City's plan. Each qualified beneficiary pays the entire cost of premiums for the continuous coverage. The City recognizes as OPEB the implicit rate subsidy provided to retirees when their premium is the "full cost" of the insurer's charge for the active population. Since the retirees have higher costs, the premium they pay is not expected to cover their costs, and the difference is essentially covered by the City's payment for active employees. The City plan is a single-employer defined benefit plan. The City does not issue a separate report that includes financial statements and required supplementary information for OPEB.

<u>Funding Policy</u> – The plan is a pay-as-you-go and therefore, is not funded.

The following table summarizes the membership of the OPEB plan as of August 31, 2018 for members in payment and as of April 30, 2019 for active members. Active data was not available retroactively, thus the valuation was ran as of the date census data was provided. This was the data used in the valuation to develop the August 31, 2018 total OPEB liability:

Retired members	47
Spouses of retired members	12
Surviving spouses	4
Active employees	2,008
Total	2,071
Number of participating employers	1

August 31, 2019

Actuarial Methods and Assumptions

The total OPEB liability of \$17,899,234 at August 31, 2019, was measured at August 31, 2018. An actuarial valuation was prepared as of August 31, 2018 for members in payment under the plan, and for active members an actuarial valuation was prepared as of April 30, 2019, rolled backward 8 months using standard actuarial formulae. The total OPEB liability is based on the following actuarial assumptions and other inputs:

2.50% Price Inflation Municipal Bond Index Rate 3.96%

Mortality

Healthcare Cost Trend Rate 7.25%, decreasing by 0.25% per year until an ultimate rate of 4.75% is

reached in 2028.

Premiums, effective as of November 1, 2018, were trended forward to the valuation date, April 30, 2019 for active members, and backward to **Cost-Sharing Premiums**

August 31, 2018 for members in pay. Civilian premium rates were based on the base plan and the combined rate for Police and Fire was

based on an average of the Police group and the Fire group.

Police/Fire Civilians Premiums trended to August 31, 2018 Retiree \$8,791 \$9,846 Spouse \$12,013 \$10,724 Premiums trended to April 30, 2019 Retiree \$10,317 \$9,211 Spouse \$12,586 \$11,236

RP-2014 Total Dataset Mortality Table, adjusted for mortality improvement using Projection Scale MP 2015.

Mortality rates are based on the RP-2000 Mortality Tables for Police and Fire: Employees, Healthly Annuitants, and Disabled Retirees with

Generational Projection using Scale AA.

The civilian demographic actuarial assumptions for retirement and withdrawal used at the April 30, 2019 valuation date for actives and August 31, 2018 valuation date for members in pay were consistent with the assumptions used in the September 1, 2015 GASB 45 valuation as they are considered reasonable estimates of future experience.

The Police and Fire demographic actuarial assumptions are consistent with those used in the valuation of the Lincoln Police and Fire Pension Plan, which are based on the most recent actuarial experience study covering the five-year period ending August 31, 2014. The experience study report was prepared by a prior actuary and is dated October 14, 2015.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of DROP participation, etc.) used in the valuation were based on a review of recent plan experience.

Sensitivity of the total OPEB liability to changes in the rates

Civilians:

The following presents the total OPEB liability of the plan, calculated using health care cost trend rates ranging from 7.25% in 2018 and trending downward to 4.75% in 2028, as well as the total OPEB liability calculated using trend rates that are 1% lower or 1% higher than the current rate:

	1%	Current	1%	
	<u>Decrease</u>	Trend Rate	<u>Increase</u>	
Total OPEB Liability	\$ 16,021,703	17,899,234	20,111,616	

The following presents the total OPEB liability of the plan, calculated using the discount rate of 3.96% (3.53% at prior measurement date), as well as the Plan's total OPEB liability calculated using a discount rate that is 1% lower or 1% higher than the current rate:

		1%	Current	1%
		Decrease	Discount Rate	<u>Increase</u>
	_	2.96%	3.96%	4.96%
Total OPEB Liability	\$	19,608,140	17,899,234	16,354,879

Changes in the Total OPEB Liability

	Total OPEB
	Liability
Balance at Beginning of Year	\$ 18,762,241
Changes for the year:	
Service cost at end of year	1,160,514
Interest on total OPEB liability	645,475
Difference between expected and	
actual experience	(231,632)
Assumption changes	(1,475,337)
Benefit payments	(962,027)
Net changes	(863,007)
Balance at End of Year	\$ 17,899,234

The assumption changes, shown above, are due to the change in the discount rate from 3.53% to 3.96% related to a change in the municipal bond rate since the prior measurement date.

OPEB Expense

The calculation of the OPEB expense for the fiscal year ended August 31, 2019, is shown below:

OPEB Expense Year Ending August 31, 2019

Service cost at end of year	\$ 1,160,514
Interest on the total OPEB liability	645,475
Expensed portion of current-period differences between	
expected and actual experience in the total OPEB liability	(31,302)
Expensed portion of current-period assumption changes	(199,370)
Amortization of beginning deferred inflows of resources	 (153,232)
Total OPEB Expense	\$ 1,422,085

Deferred Outflows and Inflows of Resources

Deferred Outflows of Resources
As of August 31, 2019

2	
Benefit payments subsequent to the measurement date	\$ 1,003,235
Total	\$ 1,003,235
Deferred Inflows of Resources As of August 31, 2019	
Differences between expected and actual experience	\$ 200,330
Changes of assumptions	2,103,417
Total	\$ 2,303,747

The Deferred Outflows of Resources related to OPEB resulting from contributions subsequent to the measurement date will be recognized as a reduction of total OPEB liability in the fiscal year ending August 31, 2020. Amounts reported as Deferred Inflows of Resources related to OPEB will be recognized in OPEB expense in future years as follows:

Fiscal Year Ending August 31	Inflows of Resources
2020	\$ 383,904
2021	383,904
2022	383,904
2023	383,904
2024	383,904
Thereafter	384,227
	\$ 2,303,747

<u>PEHP – Defined Contribution Plan</u>

The City has a defined contribution Post Employment Health Plan (PEHP) administered by Nationwide Retirement Solutions. The purpose of the PEHP plan is to provide reimbursement of qualifying health care and medical insurance premium expenses for employees upon separation from employment.

Terms for eligibility and contribution rates are specified in the City's various collective bargaining agreements. Individual employee accounts consist of employer contributions, investment returns and any forfeiture allocations. Current employer contributions range from \$18-\$50 per pay period based on union contracts. Current year contributions totaled approximately \$1,362,000.

Long-Term Disability Plan

The City also provides employees with long-term disability benefits when they become disabled due to a non-work related accident or illness and are unable to perform their essential job functions. Results of an actuarial valuation have not been included here as it did not have a significant impact on the City's financial statements. Long-term disability claims liability of \$794,933 has been included in the Insurance Revolving Internal Service Fund, as it relates to these benefits.

(15) PROPERTY TAXES

The Home Rule Charter of the City imposes a tax ceiling for general revenue purposes. The City tax ceiling was established by using the September 1, 1966, City dollar tax limit as an initial tax limit, and increasing that tax limit each year following 1966 by 7% so that in each fiscal year thereafter the amount of the City tax limit shall be the amount of the City tax limit for the previous year plus 7% thereof. In addition, the City has the power to levy taxes each year sufficient to pay any judgment existing against the City, the interest on bonded debt, and the principal on bonded debt maturing during the fiscal year or within 6 months thereafter, as well as taxes authorized by state law. The 2018 tax levy, for the 2018-2019 fiscal year, was \$165,508,208 below the legal limit, with a tax rate per \$100 valuation of \$0.3165. The assessed value upon which the 2018 levy was based was \$21,670,357,076.

The tax levies for all political subdivisions in Lancaster County are certified by the County Board on or before October 15th. Real estate taxes are due on December 31st and attach as an enforceable lien on property on January 1st following the levy date and become delinquent in two equal installments on April 1st and August 1st. Personal property taxes are due December 31st and become delinquent on April 1st and August 1st following the levy date. Delinquent taxes bear 14% interest.

Within the government-wide financial statements, property taxes are recognized as revenue in the year for which they are levied. Property taxes levied for 2018-2019 are recorded as revenue in the fund financial statements when expected to be collected within 60 days after August 31, 2019. Prior-year levies were recorded using these same principles, and remaining receivables are re-evaluated annually. Property taxes expected to be collected after 60 days are recorded as unavailable revenue on the fund balance sheets.

The City-owned electric utility is required by City Charter to make payments in lieu of taxes, aggregating 5% of its gross retail operating revenues derived from within the city limits of incorporated cities and towns served. Payments in lieu of taxes are transferred to the City of Lincoln, Lancaster County, Lincoln Public Schools, and the City of Waverly.

(16) RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees and the public; or acts of God. All risk management activities are accounted for in the Insurance Revolving Fund, an internal service fund, and administered through the Risk Management Division.

For the year ended August 31, 2019, the City had a self-insured retention for workers' compensation exposures up to \$800,000 per claim; law enforcement liability, commercial general liability, public officials liability, public transportation liability, EMT and medical professional liability, and auto liability exposures up to \$250,000 per occurrence; all-risk property exposures up to \$100,000 per occurrence; health care claims of \$150,000 per person; self-insured dental benefits; and self-insured employee long-term disability benefits.

The City also obtained excess liability insurance coverage in the current year. Workers' compensation was covered by a policy that provided statutory limits above the City's retention of \$800,000 per individual. Law enforcement, commercial general, public officials, public transportation, EMT and medical professional, and auto liabilities were covered by an aggregate policy that provided limits of \$6 million per occurrence with a \$12 million annual aggregate above the City's \$250,000 retention.

All-risk property exposures were covered by an insurance policy with a total property limit of \$500,000,000 over the City's retention of \$100,000. Healthcare was covered by an unlimited stop loss insurance policy above the \$150,000 retention per claim. The Nebraska Political Tort Claims Act limits the City's liability for tort claims to \$1 million per individual and \$5 million per occurrence.

There were no significant insurance recoveries in the current year, and settled claims have not exceeded coverage in any of the past three fiscal years.

The City annually retains the services of independent actuaries to analyze the self-insured workers' compensation, general liability, public transportation liability, law enforcement liability, and auto liability exposures. Such analysis has been used to assist the City with its financial planning and management of the self-insurance program. Included in the specific objectives of the studies were to:

- Estimate the outstanding liabilities for the current fiscal year ended August 31,
- Forecast ultimate incurred losses and incurred but not reported losses for future years, and
- Estimate the required funding level for the City's self-insured liabilities.

The City funds its self-insurance program on an "incurred loss" basis. The governmental and proprietary funds pay annual premium amounts, based on past experience of incurred losses, to the Insurance Revolving Fund. Claim liabilities of \$10,106,713 were recorded at August 31, 2019, which do not include claims relating to Lincoln Electric System's self-funded health and dental insurance programs. Excluding medical care claims approximating \$1,692,000, the remaining liability is the actuarially estimated amount of claims based on an estimate of ultimate incurred and incurred but not reported losses as of that date and is calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs, and other economic and social factors. The claims liability estimate also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of their allocation to specific claims. These liabilities have been discounted using a 1.82% discount rate. The City has purchased no annuity contracts in the current fiscal year to resolve City of Lincoln claims.

The following is a summary of the changes in the estimated claims liability for the years ended August 31, 2019 and 2018:

Balance at August 31, 2018 Current year claims and changes in estimates Claims payments Balance at August 31, 2019	\$ Worker's Compensation and Others 8,075,000 2,825,007 (3,280,007) 7,620,000	Long-Term Disability 718,344 230,169 (153,580) 794,933	Health and Dental 2,539,029 33,316,392 (34,163,641) 1,691,780	Total 11,332,373 36,371,568 (37,597,228) 10,106,713
Balance at August 31, 2017 Current year claims and changes in estimates Claims payments Balance at August 31, 2018	\$ Worker's Compensation and Others 7,755,000 3,012,292 (2,692,292) 8,075,000	Long-Term Disability 1,044,639 (161,355) (164,940) 718,344	Health and Dental 1,797,538 32,359,048 (31,617,557) 2,539,029	Total 10,597,177 35,209,985 (34,474,789) 11,332,373

LINCOLN ELECTRIC SYSTEM

LES has self-funded health and dental insurance programs with claims processed by a third party administrator on behalf of the utility. As part of the health plan, a reinsurance policy has been purchased which covers claims in excess of \$150,000 per individual. Total accrual and payment history is shown below:

	2018	2017
Balance beginning of year	\$ 532,000	541,000
Claims and fees incurred	6,194,000	5,597,000
Claims paid/other	(6,138,000)	(5,606,000)
Balance end of year	\$ 588,000	532,000

As required by state statute, LES maintains an incurred but not reported claims reserve which is actuarially determined, the balance of which was \$588,000 and \$532,000 at December 31, 2018 and 2017, respectively. LES established two separate bank accounts for the self-funded employee health and dental insurance plan reserve to ensure compliance with statutory requirements. Although not required by the statute, LES maintains excess insurance that limits the total claims liability for each plan year to not more than 125% of the expected claims liability, up to an annual aggregate maximum of \$1,000,000.

(17) COMMITMENTS AND CONTINGENCIES

GENERAL

The City participates in a number of federal and state assisted grant programs. Federal and state financial assistance programs are subject to financial and compliance audits. The amount of expenditures, if any, which may be disallowed by the granting agencies is not determinable at this time; however, City officials do not believe that such amounts would be significant.

At August 31, 2019, approximately 96% of the full-time, regular City's employees are represented by a Union. Labor contracts involving civilian City employees are negotiated to cover, at a minimum, a two-year period coinciding with the biennial budget process.

The City is a defendant in a number of lawsuits and claims in its normal course of operations. Management is currently of the opinion that ultimate settlement of such lawsuits and claims will not have a materially adverse effect on the financial statements.

The City has been identified as a potentially responsible party (PRP) or equivalent status in relation to several sites with environmental remediation activities. Management currently believes that the liability of the City in connection with these activities will be immaterial. However, the ultimate cost will depend on the extent of remediation required. Management does not believe that changes in these cost estimates will have a materially adverse effect on the financial statements.

The City of Lincoln owns a solid waste disposal area which discontinued operations in 1990, but still requires certain closure and postclosure care, including the construction of final cover, monitoring of groundwater conditions and landfill gas migration, and general site maintenance. While accrual of closure and postclosure care costs has been reflected in the financial statements in the current year, unanticipated corrective action costs related to landfill gas migration or groundwater contamination, if identified through current monitoring procedures, may be recorded once these costs can be reasonably estimated.

STREET CONSTRUCTION PROJECTS

The City's Street Construction Fund has commitments under major construction contracts in progress of approximately \$9,417,000 as of August 31, 2019, which will be financed primarily through highway user fees, bond proceeds, federal and state grants, and developer contributions.

WEST HAYMARKET JOINT PUBLIC AGENCY

In connection with the West Haymarket Development Project, the WHJPA is involved with the clean-up and remediation of several development sites relating to soil and groundwater contamination. This clean-up and remediation is performed as sites are developed, as the WHJPA has not been designated as a potentially responsible party (PRP or equivalent status) by any regulatory agency requiring the immediate clean-up of impacted areas. Although future costs may be incurred, it is not possible at this time to reasonably estimate the amount of any obligation for remediation activities because of uncertainties with respect to assessing the extent if the contamination or the applicable regulatory requirements. No liability has been recorded for potential future remediation activities as of August 31, 2019.

LINCOLN WASTEWATER SYSTEM

The Lincoln Wastewater System has commitments under major construction contracts in progress of approximately \$20,753,000 as of August 31, 2019.

LINCOLN WATER SYSTEM

The Lincoln Water System has commitments under major construction contracts in progress of approximately \$4,453,000 as of August 31, 2019.

LINCOLN ELECTRIC SYSTEM

LES has an allocation from the U.S. Department of Energy, through Western Area Power Administration (WAPA), of firm power under contract from Upper Missouri Basin hydroelectric plants of approximately 56 MW. LES has also received an allocation of 72 MW of firm peaking power from WAPA for the six month summer season and 22 MW for the remaining months. LES has signed an amendment which extends the contract to 2051.

During 2018, LES had a participation contract in one existing Nebraska Public Power District (NPPD) coal-fired power plant that provided for an entitlement of eight percent (109 MW) of the output of the Gerald Gentleman Station Power Plant (GGS) (nominally rated 1,365 MW), respectively.

LES is responsible for its respective participating interests in GGS capital additions and improvements. LES recognizes its share of capital acquisition costs and debt service payments as power costs in the period the costs are billed with the exception of costs approved for deferral under GASB Codification Section RE10, *Regulated Operations*. Fixed cost payments under the agreement are on a participation basis whether or not the plant is operating or operable.

The participation contract for GGS continues until the facilities are removed from commercial operation or the final maturity occurs on the related debt incurred by NPPD to finance the facilities, whichever occurs last. The fixed cost payments to NPPD under this contract, including capital additions and improvements, debt service payments, fixed costs and credits were \$9,225,000 in 2018.

Through the participation contract LES may be required to pay costs associated with compliance with environmental regulations for GGS.

LES also participates in three wind plants through direct Power Purchase Agreements with the plant's developer/owner: 100 MW Arbuckle Mountain Wind farm in Oklahoma, 100 MW Buckeye Wind Energy Center in Kansas and 73 MW Prairie Breeze II Wind Energy Center in Nebraska. These wind energy facilities were placed in commercial operation in 2015. LES also participates in four Nebraska-based wind plants through Power Sales Agreements with NPPD: Laredo Ridge (10 MW), Broken Bow (10 MW), Elkhorn Ridge (6 MW), and Crofton Bluffs (3 MW). For each of these plants, NPPD has the actual Power Purchase Agreement with the wind plant developer/owner.

LES has outstanding contract commitments totaling \$42,213,000 as of December 31, 2018. These are primarily related to construction contracts for the LES Operations Center.

(18) LANDFILL CLOSURE AND POSTCLOSURE CARE COSTS

The City of Lincoln currently owns and operates both a municipal solid waste landfill and a construction and demolition debris landfill. State and federal laws require the City to close the landfills once capacity is reached and to monitor and maintain the site for thirty subsequent years on the municipal solid waste landfill and five subsequent years on the construction and demolition debris landfill. Although certain closure and postclosure care costs will be paid only near or after the date that the landfills stop accepting waste, the City reports a portion of these closure and postclosure care costs as an operating expense in each period based on landfill capacity used as of each statement of net position date. These costs are accounted for in the Solid Waste Management Fund, a nonmajor enterprise fund.

At August 31, 2019, the City had incurred a liability of approximately \$15,738,000 for the municipal solid waste landfill which represents the amount of costs reported to date based on the approximately 61% of landfill capacity used to date. The remaining estimated liability for these costs is approximately \$10.2 million, which will be recognized as the remaining capacity is used (estimated to be approximately 17 years).

As of August 31, 2019, the City had incurred a liability of approximately \$1,405,000 for the construction and demolition debris landfill which represents the amount of costs reported to date based on the approximately 39% of landfill capacity used to date. The remaining estimated liability for these costs is approximately \$2,229,000, which will be recognized as the remaining capacity is used (estimated to be approximately 30 years).

The estimated costs of closure and postclosure care, as determined by an independent engineering consultant, are subject to changes including the effects of inflation, revision of laws, changes in technology, actual sequence of landfill development and closure, and other variables.

The City of Lincoln, in a review by the Nebraska Department of Environmental Quality (NDEQ), has demonstrated compliance with the financial assurance requirements as specified in Title 132 - *Integrated Solid Waste Management Regulations*, through the Local Government Financial Test.

The City of Lincoln also owns a solid waste disposal area that discontinued operations in 1990. Although exempt from the U.S. Environmental Protection Agency *Solid Waste Disposal Facility Criteria* issued October 9, 1991, the City must still adhere to certain closure and postclosure care requirements under prior legislation, including the construction of final cover, monitoring of ground water conditions and landfill gas migration, and general site maintenance. At August 31, 2019, a liability for closure and postclosure care costs is recorded in the amount of approximately \$6,944,000. If any unanticipated corrective action costs related to landfill gas migration or groundwater contamination are identified through current monitoring procedures, then an additional accrued liability will be recorded once these costs can be reasonably estimated.

(19) **SEGMENT INFORMATION**

The City has issued revenue bonds and other debt instruments to finance capital construction and acquisitions for both the Urban Development and Transportation & Utilities Departments. The Parking Facilities Division of the Urban Development Department operates the City's downtown parking garages and is accounted for in the Parking System Fund. The Solid Waste Management Division of the Transportation & Utilities Department operates the City's solid waste disposal sites, yard waste composting facility, and re-cycling drop-off program. Summary financial information for these divisions as of and for the year ended August 31, 2019, is presented as follows:

(20) PLEDGED REVENUES

The City has pledged future revenues derived from the operation of the Lincoln Wastewater System, net of operating and maintenance expenses, to repay all outstanding wastewater revenue bonds and loans. Proceeds from the debt provided financing for improvements to the sanitary sewer system, as well as refunding prior year wastewater debt. The debt is payable solely from the net earnings of the Wastewater System and is payable through 2044. The total principal and interest remaining to be paid is \$114,202,383 with annual payments expected to require 41% of net revenues. Principal and interest paid for the current year and net system revenues were \$7,022,081 and \$18,218,916, respectively.

The City has pledged future revenues derived from the operation of the Lincoln Water System, net of operating and maintenance expenses, to repay all outstanding water revenue bonds and loans. Proceeds from the debt provided financing for improvements to the water supply system, as well as refunding prior water revenue bonds. The debt is payable solely from the net earnings of the Water System and is payable through 2034. The total principal and interest remaining to be paid is \$48,119,432, with annual payments expected to require 28% of net revenues. Principal and interest paid for the current year and net system revenues were \$6,400,358 and \$23,574,739, respectively.

The City has pledged future revenues derived from the operation of the Lincoln Electric System, net of operating and maintenance expenses, to repay all outstanding electric revenue bonds. Proceeds from the bonds provided financing for construction of additional utility plant, as well as refunding certain issues of electric revenue bonds. The bonds are payable solely from the net earnings of the Electric System and are payable through 2040. The total principal and interest remaining to be paid on the bonds is \$968,911,000, with annual payments expected to require 41% of net revenues. Principal and interest paid for the current year and net system revenues were \$47,477,000 and \$132,150,000, respectively.

The City has pledged future revenues derived from the operation of the Lincoln Parking System, net of operating and maintenance expenses, and amounts, if any, distributed by the State for street purposes to repay all outstanding parking revenue bonds. Proceeds from the bonds provided financing for construction and improvements to the parking system, as well as refunding prior revenue bonds. The bonds are payable from the net earnings of the Parking System and are payable through 2039. The total principal and interest remaining to be paid on the bonds is \$60,669,767, with annual payments expected to require 30% of net revenues. Principal and interest paid for the current year and net system revenues were \$2,405,065 and \$8,423,517, respectively.

The City has pledged future revenues derived from the operation of the municipally owned solid waste management facilities, net of operating and maintenance expenses, to repay outstanding solid waste management revenue bonds. Proceeds from the bonds provided financing for improvements to the solid waste facilities and to refund prior revenue bonds. The bonds are payable solely from the net earnings of the Solid Waste System and are payable through 2035. The total principal and interest remaining to be paid on the bonds is \$11,418,674, with annual payments expected to require 34% of net revenues. Principal and interest paid for the current year and net system revenues were \$1,158,896 and \$3,348,159 respectively.

(21) PUBLIC BUILDING COMMISSION

In 1990, the City and the County of Lancaster, pursuant to state statute, activated a separate governmental entity denominated as the Lincoln-Lancaster County Public Building Commission. The purpose of this joint venture is to design, acquire, construct, maintain, operate, improve, remodel, remove and reconstruct, so long as its corporate existence continues, public buildings, structures, or facilities for use jointly by the City and the County. The City and the County each appoint two members to the five-member Commission, with the fifth member being appointed by the other four members. All property held or acquired by the Commission is held or acquired in the name of the City and the County for use by the Commission in its corporate capacity. The Commission's costs of operation and debt service are funded through rental payments made by the City and the County based upon their proportionate occupancy of such buildings to the extent not covered by a maximum property tax levy of 1.7 cents for each \$100 of actual valuation of taxable property in the County. For the year ended August 31, 2019, the City made rental payments of approximately \$3.1 million to the Commission.

As of August 31, 2019, the Commission has debt outstanding of \$31,573,176. Bond and note proceeds have been utilized by the Commission to acquire, construct, and/or renovate certain buildings occupied by the City

and County. The City's proportionate share of these buildings has been recorded in capital assets in accordance with the terms of the joint venture agreement regarding the ultimate transfer of assets to the City and County.

For certain bonds it is anticipated that property tax levies by the Commission will be sufficient to meet bond principal and interest payments. Should revenues from such property tax levies not be sufficient to meet debt service requirements in any given year, the City and County would contribute the necessary payments based on their proportionate building occupancy. Such contributions are expected to be minimal and will be expensed in the appropriate funds when incurred.

For all other debt, funded through rental payments, the City's proportionate share is recorded as capital assets and the corresponding debt is reflected as capital lease long-term obligations in the City's statement of net position. Lease payments are not recorded as capital lease payments in the Debt Service Funds' financial statements but rather are recorded as current expenditures in the various individual funds at the time the payment is made.

Complete separate financial statements for the Commission may be obtained from the Lancaster County Budget & Fiscal Officer, 555 South 10th Street, Suite 110, Lincoln, NE 68508.

(22) TAX ABATEMENTS

As of August 31, 2019, the City provides tax abatements through three programs-the Tax Increment Financing (TIF) program, the Employment and Investment Growth Act and the Nebraska Advantage Act:

The Tax Increment Financing law allows for the increased property taxes generated by the improvement of blighted property to be used to pay for the financing of the community redevelopment/TIF projects. The state statutes for community redevelopment/TIF are found in Nebraska Revised Statutes 18-2101 through 18-2150. The City must declare the area as substandard, blighted, and in need of redevelopment. The City is required to prepare a redevelopment plan. TIF bonds may be issued for the acquisition of property, site preparation, and public improvements. An agreement is entered into between the City and the Developer and a base valuation is established. The base property valuation remains assessable to all taxing entities. Any increase in value and resulting taxes are used to pay off the debt incurred for the redevelopment project. The project must not exceed a 15-year period. Currently, the City has Developer TIF bonds that extend through December 31, 2035.

During the fiscal year ended August 31, 2019 the City abated \$1,681,289 in property tax revenue under the tax increment financing program.

The Employment and Investment Growth Act and the Nebraska Advantage Act provide benefits in the form of sales tax rebates for businesses which invest and/or increase employment by specified amounts (Nebraska Revised Statute 77-4101 et. seq). Businesses that qualify must be involved in research, data processing, finance or insurance, manufacturing, technology-related services or a headquarters operation. The Act is available to businesses transporting, wholesaling, storing, or selling products, but not retailers who do not make their own products. Businesses must propose a qualifying project and be approved by Department of Revenue. The obligations of each party are set out in a contract with the State. If the project qualifies for benefits, but later falls below the required levels of jobs or investment, the company receives no benefits for that year and one-seventh of the benefits already received are recaptured for each year the company fails to qualify.

During the fiscal year ended August 31, 2019 the City abated \$768,802 in sales tax revenue under these two programs.

(23) JOINTLY OWNED FACILITIES

Laramie River Station (LRS)

LES is a 12.76% share owner of the Missouri Basin Power Project that includes LRS, a coal-fired generating station in eastern Wyoming and a related transmission system. LES has sold approximately 13% of its ownership in LRS to Municipal Energy Agency of Nebraska (MEAN). Costs, net of accumulated depreciation, and excluding costs allocated to MEAN for its ownership share, associated with LRS of approximately \$39 million are reflected in utility plant at December 31, 2018.

LRS has certain postretirement obligations, which have not yet been billed to the owners, as these costs are not due and payable. Thus, LES has not reflected these costs in its financial statements. As a co-owner of LRS, LES' allocation of these postretirement obligations was \$2 million at December 31, 2018.

LES has a participation power sales agreement with the County of Los Alamos, New Mexico (the County) whereby the County purchases from LES approximately 10 MW of LES's capacity interest in LRS. The section of the agreement which provides for the County to pay LES monthly payments for the capital budget, processing and dispatch costs was amended in September 2016. The monthly payments are subject to true-up each January 1 based on actual costs (as compared to budget) of LRS. The agreement remains in effect until either the final maturity occurs on any LRS related debt or LRS is removed from commercial operation. During 2018 LES billed the County approximately \$3.2 million for demand and energy charges.

Walter Scott Energy Center (WSEC #4)

MidAmerican Energy's Walter Scott Energy Center includes four coal-fired units. LES maintains ownership interest in 12.66%, or 103 MW of WSEC #4. In order to minimize unit outage risk, LES has executed a power purchase and sales agreement with MidAmerican Energy to "swap" capacity and energy from LES' WSEC #4 ownership with capacity and energy from WSEC #3. Under this agreement LES will schedule 50 MW of capacity and energy from WSEC #3 and 53 MW of capacity and energy from WSEC #4. This twenty-year unit agreement can be extended through mutual agreement of the parties. LES is responsible for the operation and maintenance expense and maintains a fuel inventory at the plant site. LES issued debt in conjunction with the construction of WSEC #4 and has capitalized these costs plus interest. Costs, net of accumulated depreciation, associated with WSEC #4 of approximately \$127.8 million are reflected in utility plant at December 31, 2018.

(24) JOINTLY GOVERNED ORGANIZATIONS

District Energy Corporation

The District Energy Corporation (DEC) was formed in 1989 by the City of Lincoln and Lancaster County to own, operate, maintain, and finance the heating and cooling facilities utilized by certain city, county, and state buildings. The Board of Directors of DEC is comprised of five members: two appointed by the Lancaster County Board of Commissioners, two by the Mayor of Lincoln who must be confirmed by the City Council, and one appointed by LES. No participant has any obligation, entitlement, or residual interest.

The DEC Board of Directors, under a management agreement, has appointed LES to supervise and manage the system and business affairs of DEC. LES is reimbursed for these management services based on the allocated actual costs of these services. LES also provides electric energy to DEC on an established rate schedule. The total amount of payments to LES for management, operations, and maintenance services was approximately \$1,736,000 in 2018. The total amount of payments to LES for energy was approximately \$650,000 in 2018.

Nebraska Utility Corporation

On May 17, 2001, LES, in conjunction with the University of Nebraska Board of Regents, created the Nebraska Utility Corporation (NUCorp) to purchase, lease, construct, and finance facilities and acquire services to meet energy requirements of the University of Nebraska Lincoln (UNL). The Board of Directors of NUCorp is comprised of five members: three members appointed by UNL and two members appointed by LES. No participant has any obligation, entitlement, or residual interest. NUCorp is considered a component unit of the University of Nebraska; therefore, financial statements of NUCorp are included in the University of Nebraska's financial statements.

Operations commenced in January 2002. The NUCorp board of directors, under a twenty-year management agreement, appointed LES to supervise and manage the energy supply and financial affairs of NUCorp. LES is reimbursed for these management services based on the allocated actual costs of these services. LES also provides electric energy to NUCorp on an established rate schedule. The total payment to LES for management services was approximately \$123,000 in 2018. The total amount of payments to LES for energy was approximately \$8.8 million in 2018.

(25) SUBSEQUENT EVENTS

In November 2019, the West Haymarket Joint Public Agency issued \$100,000,000 of General Obligation Facility Refunding Bonds, Series 2019. The bond proceeds, together with other Agency funds, will be used to provide for payment of the principal and interest on the \$100,000,000 outstanding principal amount of the Agency's General Obligation Facility Bonds, Series 2011, through the redemption date of December 15, 2021, and to redeem any remaining balance of the Series 2011 bonds on that redemption date. The refunding resulted in debt service savings of approximately \$26,858,000 and net present value savings of approximately \$21,042,000.

In January 2020, Lincoln Electric System issued \$72,200,000 of Revenue Bonds, Series 2020A. The bond proceeds will be used to reimburse Lincoln Electric System for previously incurred capital expenditures, to fund a deposit into the 2020 Debt Service Reserve Fund, and to pay certain costs and expenses relating to the issuance of the Series 2020A Bonds.

Note to schedule:

Results for the other years within the last ten years are not available and will be developed prospectively from 2014. Information prior to 2015 was restated after a change in the actuarial firm providing services

Changes of benefit and funding terms: 8/31/2016 valuation - City Ordinance No. 20343, as passed by the City Council, merged the COLA Pool fund into the general pension fund. No benefits were impacted, only the funding of the benefits.

Changes in actuarial assumptions:

8/31/2019 valuation - Price inflation was reduced from 2.50% to 2.25%

Expected future investment return was reduced from 7.50% to 7.45% compounded annually. Interest on member contributions as reduced from 7.50% to 7.45% compounded annually.

General wage increase assumption was reduced from 3.00% to 2.75%. Payroll growth assumption was reduced from 3.00% to 2.75%.

Disabilities that are assumed to be duty-related were increased from 50% to 65%.

Retirement rates were adjusted to better reflect actual observed experience and were changed to a service-based assumption.

Termination rates were adjusted to better reflect actual observed experience and were changed to a service-based assumption.

Salary increasese were adjusted to better reflect actual observed experience and were changed to a service-based assumption.

Mortality assumptions were changed to use the public safety specific PubS tables, with generational mortality improvement using the Nebraska Public Employees Retirement System (NPERS) Mortality Improvement Scale.

8/31/2016 valuation - Expected future investment return was increased from 6.40% to 7.50% compounded annually.

8/31/2015 valuation - Expected future investment return was reduced from 6.75% to 6.40% compounded annually.

8/31/2014 valuation - Expected future investment return was reduced from 7.50% to 6.75% compounded annually. Assumed salary increase rates were reduced.

Mortality tables were updated from the 1994 Group Annuity Mortality tables with a 2 year set forward for males and 1 year set forward for females to the RP2000 Mortality table with generational improvements using Scale AA.

Assumed rates of retirement were generally lowered for Plans A, B and C. The payroll growth assumption was reduced from 4.25% to 3.00%.

Covered payroll	\$	140,466,565	\$	138,350,403	
Total OPEB liability as a percentage of covered payroll		12.74%		13.56%	

Notes to schedule:

Results for the other years within the last ten years are not available and will be developed prospectively from 2017.

The City of Lincoln has no accumulated assets held in trust to pay related benefits.

Changes in actuarial assumptions:

8/31/18 valuation -The discount rate has changed from 3.53% to 3.96% due to a change in the municipal bond rate.

> The trend rate assumption is now 7.25% decreasing by 0.25% per year until an ultimate rate of 4.75% is reached in 2028, which changed from 7.50% for 2017, decreasing by 0.50% per year for four years, then decreasing by 0.25% per year until an ultimate rate of 5.00% is reached in 2023.

8/31/17 valuation -The discount rate has changed from 2.85% to 3.53%

COMBINING AND INI	DIVIDUAL FUND SCHEDULES	STATEMENTS AND

GENERAL FUND COMBINING FUNDS

The following are reported as part of the General Fund for financial reporting purposes but are maintained individually for accounting purposes and budgetary comparisions of legally adopted budgets.

Athletic Field & Facilities Improvement Fund - To account for proceeds from a surcharge applied to registration fees charged by the Recreation Division for various athletic activities, and revenues received from the rental of park land for telecommunications towers. These monies are used for improvements to athletic field and facilities, and the maintenance and repair of Parks and Recreation property and facilities.

<u>Lincoln Area Agency On Aging Fund</u> - To account for the costs of providing various services to senior citizens through the Lincoln/Lancaster Commission on Aging. Financing is provided by Federal, State, County, and City funds.

911 Communication Fund - To account for the costs of answering and processing all incoming 911 and non-emergency calls as well as the cost of dispatch service for the Lincoln Police Department, Lincoln Fire Department, Lancaster County Sheriff's Office and Rural Volunteer Fire and Rescue Departments. Financing is provided by County and City funds and a 911 telephone surcharge.

<u>Unemployment Compensation Fund</u> - To account for the cost of unemployment benefits paid to former employees of departments supported primarily from tax revenues. The City reimburses the State for actual costs rather than a percentage of payroll. Financing has been provided by a specific annual property tax levy to be used only for this purpose.

<u>Fast Forward Fund</u> - To make funds available for economic development projects where there is a demonstrated benefit to the community and/or where incentives can positively influence the outcome of a project. Funding was provided by a surplus of Special Assessment Debt Service funds.

NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue Funds are established to account for the proceeds from specific revenue sources that are restricted, committed, or assigned to expenditures for specified purposes.

<u>Advance Acquisition Fund</u> - To account for funds to be used for the acquisition of real estate for public purposes. Net proceeds from the sale or exchange of real estate owned by the City shall be credited to this fund, and the fund may also be increased by General Fund appropriations, or proceeds from general obligation borrowing.

<u>Cable Access Television Fund</u> - To account for the receipt and use of franchise fees, imposed by the City, from the cable provider in order to construct, operate and maintain a cable television system within the boundaries of the City.

<u>Lincoln City Libraries Fund</u> - To account for the costs of providing library services to the citizens of Lincoln. Financing is provided by a specific annual tax levy, fines and fees, and reimbursement from Lancaster County for services provided to County residents.

<u>Lincoln/Lancaster Co. Health Fund</u> - To account for the costs of providing health services to the citizens of the City of Lincoln and Lancaster County. Financing is provided by Federal, State, County, and City funds, as well as permit and user fees.

<u>Social Security Fund</u> - To account for the City of Lincoln's matching share of Social Security costs for employees paid from the General Fund and other funds supported primarily from general tax revenue. Financing is provided by a specific annual property tax levy. Such property taxes may only be used for this purpose.

<u>Police & Fire Pension Contributions Fund</u> - To account for the City's contributions to the Police and Fire Pension. Financing is provided by a specific annual property tax levy.

<u>StarTran Fund</u> - To account for the cost of operating the City-owned transit system. Financing is provided primarily through passenger revenue and Federal, State, and City funds.

<u>Keno Fund</u> - To accumulate resources from the City's percentage of Keno revenue in the City and account for activities financed with Keno revenues.

Federal Grants Fund - Includes federal sub-funds as follows:

<u>Community Development Block Grant Fund</u> - To account for the costs of providing services under the City's Community Development Block Grant Program with funding provided by grants from the Department of Housing and Urban Development.

<u>Grants-In-Aid Fund</u> - To account for monies received from various federal and state agencies under several small categorical grants and the City's matching funds where applicable. Monies are utilized to provide services as stipulated in the individual grant agreements.

<u>Workforce Investment Act (WIA) Fund</u> - To account for the costs of providing services under the Workforce Investment Act with funding provided by grants from the Department of Labor.

<u>Disaster Recovery (FEMA) Fund</u> - To account for reimbursements from the Federal Emergency Management Agency due to disasters caused by storm and flood damage. Funds are used to reimburse other funds for related costs and to pay disaster related expenses.

<u>Special Assessment Fund</u> - To account for the receipt and disbursement of special assessment bond proceeds and other income which is derived from interest income, developers share of districts and City subsidies. This fund is also used to account for the administrative cost of collection of and accounting for special assessments levied against benefited properties. Expenditures for capital improvement projects are accounted for in the Special Assessment Capital Projects Fund. Periodic transfers are made to the Capital Projects Fund to cover expenditures.

<u>Building & Safety Fund</u> - To account for the cost of providing building and safety permit and inspection services to the citizens of Lincoln. Financing is provided through permit and inspection fee revenues and City funds.

 $\underline{\operatorname{Impact Fees Fund}}$ - To account for receipts and disbursements of impact fees in accordance with City ordinance.

<u>Parks & Recreation Special Projects Fund</u> - To account for the proceeds of various trusts and donations to be used for the development of various projects, such as a mini-park, an observatory, landscaping, etc.

<u>Library Special Trust Fund</u> - To account for the receipt of investment earnings from the following trusts:

Charles Gere Library Fund - To be used as directed by the Library Board for the benefit of the Lincoln City Libraries.

Lillian Polley Trust Fund - To be used for the Polley Music Library.

<u>RP Crawford Park Fund</u> - To accumulate resources required to be distributed from the Crawford Trust per IRS regulations. Such funds to be held until the end of the Trust period, then combined with the Trust assets to be used for the purchase of land and the development of a City park and playground.

<u>Lincoln Bike Share Fund</u> – To capture the financial activity, including revenues, sponsorships, donations, user fees and expenses generated by additions to the Lincoln Bike Share Program.

<u>Vehice Tax Residual Revenue Fund</u> - To account for monies derived from the payment of wheel tax which is to be used for street improvements in the City.

NONMAJOR DEBT SERVICE FUNDS

Debt Service Funds are established to account for the resources for, and the payment of, general long-term debt principal, interest, and related costs.

<u>Tax Allocation Projects Debt Service Fund</u> - To accumulate resources for payment of principal and interest on the various outstanding tax allocation bonds. Resources are derived from additional taxes generated by the specific properties upon completion of the Redevelopment Projects.

<u>Bond Interest & Redemption Fund</u> - To accumulate resources derived from an annual tax levy for payment of principal and interest on several general obligation bond issues and capital leases outstanding as follows:

2009 Certificates of Participation – Street Lights

2010 Certificates of Participation – Street Lights & Emergency Equipment

2011 Stormwater Bonds

2011 General Obligation Refunding Bonds

2011B Certificates of Participation – Street Lights

2012 General Obligation Refunding Bonds

2012 Certificates of Participation – Street Lights

2013 Stormwater Bonds

2014A Certificates of Participation - Street Lights, Corridor Improvements, Sidewalks

2015 Storm Sewer and Drainage System Refunding Bonds

2015 Certificates of Participation – Street Lights

2016 Stormwater Bonds

2016 Certificates of Participation - Street Lights, Fire Equipment, and Fire Station

2017 Stormwater Refunding Bonds

2017 Certificates of Participation – Street Lights

2019 Stormwater Drainage and Flood Management System Bonds

2019 Certificates of Participation - Street Lights

Tax Supported Bonds Fund – includes bonded debt funds as follows:

<u>Highway Allocation Debt Fund</u> - To accumulate resources for payment of principal and interest on the Highway Allocation Bonds, Series 2006, and the Highway Allocation Refunding Bonds, Series 2012 and Series 2016. For the prompt payment of principal of and interest on the bonds, the City has pledged funds received and to be received by the City from the State Highway Allocation Fund as authorized under Section 66-4,101, Reissue Revised Statutes of Nebraska, as amended.

<u>Turn Back Tax Debt Fund</u> - To accumulate resources for payment of principal and interest on the Limited Tax General Obligation Arena Bonds, Series 2013. The bonds are payable from sales tax passed through from the State of Nebraska, pursuant to the Convention Center Facility Financing Assistance Act, Section 13-2603, of the Reissue Revised Statutes of Nebraska.

SouthPointe EEA Fund – To accumulate resources from a 1% occupation tax on gross receipts for retail establishments within the Enhanced Employment Area designated as SouthPointe Pavilions. The revenue generated will be used to pay for construction and maintenance of a public parking garage located at SouthPointe Pavilions. The tax will end at such time as the bonds and maintenance costs for which it has been pledged have been paid off but not later than December 31, 2041. Payment on the principal of and interest on the Developer Bonds is limited solely and exclusively to the pledged tax revenue and is not payable from any other City source.

<u>Special Assessment Fund</u> – To accumulate resources for payment of principal and interest on special assessment bond issues. Income is derived from special assessment tax collections, interest on special assessment taxes and interest from investments.

NONMAJOR CAPITAL PROJECTS FUNDS

Capital Projects Funds are established to account for all resources received and used for the acquisition or development of major capital improvements (other than those financed by proprietary funds and trust funds).

<u>Vehicle Tax Fund</u> - To account for monies derived from the payment of wheel tax which is to be used for street improvements in the City.

<u>Storm Sewer Bonds Fund</u> - To account for the cost of providing improvements and extensions to the City's storm water sewer and drainage system. Financing is provided by general obligation bond issue proceeds.

1999 G.O. Various Purpose Bonds Fund - To account for the cost of financing, acquiring, and improving interactive recreational facilities for children and families, referred to as the Children's Museum; financing the construction and equipping of two new park and recreational facilities; and financing construction and equipping of two public libraries and necessary site improvements.

Other Capital Projects Fund - To account for the cost of acquiring or improving various general capital assets. Financing is provided from a variety of sources, such as General fund appropriations, revenue sharing, federal/state grants, bond proceeds, ¼ cent sales tax collections, etc.

<u>Special Assessment Fund</u> - To account for the cost of capital improvements to be assessed against benefited properties. Resources are derived from fund transfers from the Special Revenue fund type and interest on investments.

NONMAJOR PERMANENT FUNDS

Permanent funds are established to account for resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the City's programs.

<u>Community Health Permanent Endowment Fund</u> – To account for the cash proceeds realized by the City from the sale of Lincoln General Hospital, together with any interest or other investment earnings. Monies in the fund are used for funding health and health-related programs that further the health, safety, or welfare of the citizens of Lincoln.

<u>JJ Hompes Fund</u> - To account for the receipt of investment earnings to be used to buy books as stipulated by the trust agreement.

NONMAJOR ENTERPRISE FUNDS

Enterprise funds are established to account for operations that are financed and operated in a manner similar to private business enterprises where the costs of providing goods or services are recovered primarily through user charges and where periodic determination of net income is appropriate.

<u>Golf Fund</u> - To account for the revenues and expenses of the four public adult golf courses and one youth golf course.

<u>Parking System Fund</u> - To account for the revenues and expenses of nine downtown parking garages: Carriage Park, Que Place, Center Park, Cornhusker Square, University Square, Market Place, Haymarket, Larson Building, and Lumberworks; and the revenues and expenses of City owned parking lots, leased parking lots, third party owned parking facilities operated for special events, and parking facilities operated on behalf of the West Haymarket Joint Public Agency.

<u>Pinnacle Bank Arena Fund</u> – To account for the operating revenues and expenses of the Cityowned arena.

<u>Solid Waste Management Fund</u> - To account for the revenues and expenses of the City-owned landfills.

<u>Emergency Medical Services Fund</u> - To account for the revenues and expenses of the City-operated emergency ambulance service.

<u>Broadband Enterprise Fund</u> - To account for the revenues generated from broadband franchise fees, conduit lease fees, fiber infrastructure support fees, conduit access permit fees, and other sources arising from the activities associated with a broadband franchise. These resources are to be used to support the construction, maintenance, operations, extensions, and other associated activities of the City's broadband system, as well as to support the City's telecommunication needs.

INTERNAL SERVICE FUNDS

Internal Service Funds are established to account for the financing of goods or services rendered by one department or agency to other departments or agencies or to other governmental units on a cost-reimbursement basis.

<u>Information Services Fund</u> - To account for the cost of operating a central data processing facility for the City of Lincoln and Lancaster County. User City and County departments are charged for the resources used on a full costs recovery basis.

<u>Transportation & Utilities Revolving Fund</u> - To account for the cost of operating a central engineering pool. Revenues are derived from billings to various capital improvement projects as well as private developers.

<u>Insurance Revolving Fund</u> - To account for the cost of providing a self-insurance program for workers' compensation, health, dental, liability, property insurance, and long-term disability. Revenues are derived from billings to operating departments.

<u>Fleet Services Fund</u> - To account for the operation of a centralized maintenance facility for equipment used by other City departments, such as trucks, heavy equipment, miscellaneous other equipment and radio maintenance. Revenues are derived from billings to user departments.

<u>Police Garage Fund</u> - To account for the operation of a maintenance facility for the Police fleet and vehicles from various other City departments. Revenues are derived from billings to the Police and other user departments.

<u>Municipal Services Center Fund</u> – To account for the purchase of, improvements to, and operation of a facility to provide a consolidated location for various functions of city government. Revenues are derived from the issue of certificates of participation and rental payments from user departments and other occupying agencies.

AGENCY FUNDS

Agency funds are used to report fiduciary resources held by the City for individuals, private organizations, or other governments.

<u>Collections Due Other Governments</u> - To account for the collection and payment to:

State of Nebraska - Sales tax collections on sales made by the City of Lincoln and lottery tax collections on keno proceeds to be remitted to the State.

Lincoln Public Schools - Fines, fees, licenses and permits collected on its behalf.

<u>HILP Escrow Accounts</u> - Various bank accounts used for the Home Improvement Loan Program for owner-occupied housing rehabilitation loans. The City is the fiduciary agent for these accounts.

<u>Contractor Deposits</u> - To account for good faith money deposited with the City to assure the completion of special projects. The money will be returned to the contractors upon completion.

Payroll Revolving - To account for payroll liabilities such as taxes and fringes.

Outstanding Warrants - To account for money held by the City to pay outstanding warrants.

<u>Telephone Bill Suspense</u> - To account for the accumulation and disbursement of funds to pay the <u>University of Nebraska</u>, State of Nebraska and Windstream for miscellaneous phone and data line charges.

<u>Unredeemed Bonds and Coupons</u> – To account for funds held for the redemption of matured bonds and coupons. The City Treasurer is the trustee for these bonds.

STATISTICAL SECTION

This part of the City of Lincoln's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents	<u>Page</u>
Financial Trends	159
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	
Revenue Capacity	164
These schedules contain information to help the reader assess the City's three most significant local revenue sources; electrical sales, sales tax, and property tax.	
Debt Capacity	173
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	
Demographic and Economic Information	177
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	
Operating Information	179
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the city provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial

reports for the relevant year.

CITY OF LINCOLN, NEBRASKA DIRECT AND OVERLAPPING GOVERNMENTAL ACTIVITIES DEBT AS OF AUGUST 31, 2019

Governmental Units	Debt Outstanding	Estimated Percentage Applicable ¹		Direct And Overlapping Debt To The City
Direct:		·	_	
City \$	469,601,000	100.0 %	\$_	469,601,000
Overlapping:				
School District #1	357,952,134	99.5		356,162,000
Public Building Commission	30,220,000	85.4		25,808,000
Lancaster County Correctional Facility	33,600,000	85.4		28,694,000
Lancaster County Fairgrounds	7,855,000	85.4	_	6,708,000
_	429,627,134			417,372,000
Total \$	899,228,134		\$	886,973,000

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Lincoln. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

Sources: Assessed value data used to estimate applicable percentages provided by the County Assessor's Office. Debt outstanding data provided by each governmental entity.

¹ The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the governmental unit's taxable revenue base that is within the City of Lincoln's boundaries and dividing it by the unit's total taxable revenue base.

Note: The Wastewater System, Water System, and Lincoln Electric System bonds are secured by revenues are from utility service charges. Parking Facilities bonds are secured by revenues from parking fees, and Solid Waste Management's gross revenues include various waste disposal fees. Details regarding the City's outstanding debt can be found in the notes to the financial statements. Direct Operating Expenses do not include interest, depreciation and amortization expenses, or in lieu of taxes.

CITY OF LINCOLN, NEBRASKA NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS FOR THE YEAR ENDED AUGUST 31, 2019

REPORTING ENTITY

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the City of Lincoln, Nebraska (the City) under programs of the federal government for the year ended August 31, 2019. The City for purposes of the Schedule, includes all funds of the City as defined in Note 1 of the Notes to the Financial Statements, including Lincoln Electric System, Lincoln Water System, and Lincoln Wastewater System. Lincoln Electric System (LES) operates on a calendar year basis for reporting purposes as opposed to the August 31 fiscal year basis of the City. As a result, the amounts included in the City's August 31, 2019, basic financial statements for LES are audited amounts as of and for the year ended December 31, 2018. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of the basic financial statements. Because the schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

BASIS OF ACCOUNTING

Expenditures reported on the Schedule are reported on the modified cash basis of accounting. Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87 or the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The City has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance. Federal awards provided to subrecipients are treated as expenditures when paid to the subrecipient.

PASS-THROUGH AWARDS

The City receives certain federal awards in the form of pass-through awards. Such amounts received as pass-through awards are specifically identified on the Schedule.

MAJOR PROGRAMS

In accordance with the Uniform Guidance, major programs are determined using a risk-based approach. Programs in the accompanying Schedule denoted with an asterisk (*) are determined by the independent auditor to be major programs.

FEDERAL LOANS OUTSTANDING

The federal loan programs listed subsequently are administered directly by the City and balances and transactions relating to these programs are included in the City basic financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the Schedule. The balance of loans outstanding, at August 31, 2019, consist of:

		Outstanding Balance as
CFDA#	Program Name	of August 31, 2019

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditor's Report

The Honorable Mayor and Members of the City Council City of Lincoln, Nebraska

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the City of Lincoln, Nebraska (the City), as of and for the year ended August 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated February 21, 2020. Our report includes a reference to other auditors who audited the financial statements of Lincoln Wastewater System and Lincoln Water System, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major Federal Program and Report on Internal Control over Compliance

Independent Auditor's Report

The Honorable Mayor and Members of the City Council City of Lincoln, Nebraska

Report on Compliance for Each Major Federal Program

We have audited the City of Lincoln, Nebraska's (the City's) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the year ended August 31, 2019. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City of Lincoln, Nebraska, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2019.

Report on Internal Control over Compliance

Management of the City of Lincoln, Nebraska is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
