

NOTICE OF INTENT TO ISSUE PERMIT

LINCOLN-LANCASTER COUNTY HEALTH DEPARTMENT (LLCHD)

- A. In accordance with Article 2, Section 14 of the Lincoln-Lancaster County Air Pollution Control Program Regulations and Standards (LLCAPCPRS), the LLCHD gives notice of the preliminary determination to approve the following permitting action(s) for the source identified in item 'B' below. The 30-day public comment period commences June 26, 2025, and ends on July 26, 2025.
1. Proposed modification of a minor New Source Review (NSR) Construction Permit
- B. Issuance of the proposed permit allows for installation and operation of the subject emission source within Federal, State and Local requirements. Provided below are the name, address, and the North America Industry Classification System (NAICS) code describing the nature of business at the subject emission source:
1. Source Name: Archer Daniels Midland Company – Oilseed Processing Facility
2. Source Address: 7800 Thayer Street, Lincoln, Lancaster County, Nebraska 68507
3. NAICS Code(s): 311224 (Soybean and Other Oilseed Processing)
- C. The issuance of this construction permit will not result in the net increase of potential emissions of regulated air pollutants at levels that equal or exceed any Minor-NSR Construction Permit or Prevention of Significant Deterioration of Air Quality (PSD) significance thresholds. However, the source is subject to emission limits based on the potential to emit from the emission units included in this permit. Therefore, due to the increase in the potential to emit with the installation of the new equipment under this permit, the emission limit in the previous permit will be exceeded. As such, a significant modification of a Minor-NSR construction permit is being issued for this project.
- D. The proposed minor-NSR construction permit will allow for change in emissions of the following regulated air pollutants, with the potential increase/decrease reflected as follows. All quantities are in units of tons per year, or tpy.
- | | |
|--|------------|
| Particulate matter less than 10 micrometers in diameter (PM10) | +0.471 tpy |
| Particulate matter less than 2.5 micrometers in diameter (PM2.5) | -0.085 tpy |
- E. Lancaster County is an 'attainment/unclassifiable' area for all pollutants subject to the National Ambient Air Quality Standards (NAAQS), meaning air quality in Lancaster County meets or is cleaner than the national standards. This permitting action is not expected to change that status.
- F. The proposed permit, statement of basis, permit application, and a copy of this public notice document are available online at: <http://lincoln.ne.gov>, keyword search "air". Those materials are also available for inspection during business hours at the office of the LLCHD at 3131 O Street, Lincoln, NE 68510. If alternate formats of materials are needed, please notify the Department by calling 402-441-8040 or 402-441-6284 for TDD users.
- G. Within the 30-day public comment period, any interested person, agency, or group may submit comments on the proposed permit(s), or request or petition the Director of the LLCHD for a public hearing in accordance with item 'H' below. Comments on the proposed permit(s) may be mailed to the attention of the Air Quality Section Supervisor at the address provided

in item 'F' above, or submitted via e-mail to health@lincoln.ne.gov using the subject line 'Comment on Air Quality Permit'. Individuals commenting via e-mail are asked to provide their home address and phone number for follow-up correspondence.

- H. Requests for public hearing must be made in writing, and must state the nature of the issues to be raised and all arguments and factual grounds supporting their position. If a public hearing is granted by the Director, the hearing will be advertised by public notice at least 30 days prior to its occurrence.
