

LINCOLN-LANCASTER COUNTY HEALTH DEPARTMENT (LLCHD)

- A. In accordance with Article 2, Section 14 of the Lincoln-Lancaster County Air Pollution Control Program Regulations and Standards (LLCAPPRS), the LLCHD gives notice of the preliminary determination to approve the following permitting action(s) for the source identified in item 'B' below. The 30-day public comment period commences **April 28, 2026** and ends on **May 28, 2026**.
1. Proposed significant modification of a minor New Source Review (minor-NSR) Construction Permit
- B. Issuance of the proposed permit allows for construction at the subject emission source within Federal, State and Local requirements. Provided below are the name, address, and the North America Industry Classification System (NAICS) code describing the nature of business at the subject emission source:
1. Source Name: Lincoln Electric System (LES) Terry Bundy Generating Station
 2. Source Address: 7707 Bluff Road, Lincoln, Nebraska 68517
 3. NAICS Code(s): 221112 – Fossil Fuel Electric Power Generation
- C. Potential emissions exceed the construction permit thresholds set forth under Article 2, Section 17 of the LLCAPPRS. However, the net emissions increase is lower than the significance thresholds established for Prevention of Significant Deterioration of Air Quality (PSD) construction permits. As a result, the proposed project is not subject to PSD permitting, and is being permitted under minor New Source Review procedures and requirements. Limitations and emission controls elected by the owner/operator have been established as requirements of the permit, and will limit emissions to less than PSD permitting thresholds.
- D. The proposed permit will allow for net changes in emissions of the following regulated air pollutants in the associated quantities. Any regulated pollutants not listed herein either will not be emitted from the permitted emissions units, or emissions will be negligible. All quantities are in units of tons per year (tpy).

|---|----------------|
| Particulate matter <10 micrometers in diameter (PM ₁₀) | +0.00 tpy |
| Particulate matter <2.5 micrometers in diameter (PM _{2.5}) | +0.00 tpy |

- E. Lancaster County is an 'attainment/unclassifiable' area for all pollutants subject to the National Ambient Air Quality Standards (NAAQS), meaning air quality in Lancaster County meets or is cleaner than the national standards. This permitting action is not expected to change that status.
