I think the rules are way TOO RESTRICTIVE!!! We have a chance for clean energy/revenue from the wind(which blows almost all the time) and the board is going to regulate the wind farm out of happening. This comes RIGHT AFTER a 200% PROPERTY TAX INCREASE FOR AG LAND OVER THE LAST 2 YEARS!! FARMERS AND RESIDENTS ARE WATCHING AND WILL VOTE NEXT ELECTION ACCORDINGLY!! We are being TAXED OUT OF OWNING OUR LAND! As far as noise complaints from wind farms go, while my wife and I were passing through Iowa we parked DIRECTLY UNDER operating wind turbines. Got out of the car and stood silent and listened...WHAT NOISE?!? I don't believe this!! If the county restricts this project and they block this project, I am going to insist that the county start to monitor " other " so called noise producing activities i.e. OUTDOOR CONCERTS, SPORTING EVENTS AT MEMORIAL STADIUM, CAR STEREOs, LAWN MOWERS etc,etc. I hope you are ready to hold ALL activities to the same NOISE standards you are setting for wind turbines! WE VOTE AND WE DON'T FORGET!!
