Project: ADA Compliance Improvements								
Description:								
The Americans with Disabilities Act (ADA) requires modifications to many of the existing facilities Lincoln Parks & Recreation (LPR) is responsible for operating in order to provide improved accessibility to individuals with physical limitations. Current system deficiencies are continuously identified and prioritized as part of LPR's 10-Year Facilities Plan. Priority projects over the next several years will focus on improvements to pool facilities and restroom structures at Oak Lake, Mahoney, Roper, Peter Pan and Tierra Parks. It is noted that this priority list is subject to change as immediate repair needs arise during the course of each year.					Budget Outcome:		Equitable and Inclusive City

Project: Backflow Prevention Compliance Program								
Description:								
Lincoln Water Systems has identified below-grade backflow prevention equipment as a potential hazard to community health. Lincoln Parks & Recreation continuously encounters deficiencies in its current water distribution systems and uses funding from this program to make improvements in operation efficiencies, reduce maintenance concerns and comply with City standards. Work to be funded by this program over the next several years is anticipated to include repair/replacement of the water service and metering at Bethany, Mahoney and Pioneers Parks as well as the replacement of numerous drinking fountains in parks and along trails across the City. Project: Mech/Elec Systems and Pool Pumps								
Description:								
Funding from this project is used for the ongoing repair, replacement and renewal of mechanical and electrical systems located throughout Parks & Recreation (LPR) facilities. This includes pool pumps/filter systems/controllers associated with aquatic facilities and public fountains in order to keep them all in safe and efficient operating conditions for both staff and patrons/visitors. These funds are also used to refinish pool basin surfaces and to purchase materials used by LPR's Mechanical Maintenance Section.					Budget Outcome:		Vibrant City Economy & Quality of Life

Project: Area/Ballfield/Play Court Lighting								
Description:								
Recreational lighting associated with ballfields, play courts and pools has an anticipated life span of approximately 30 years. LPR's facilities inventory includes 24 lighted ballfields and 26 lighted play courts. This program provides funding needed to repair and/or replace existing (aged) electrical service and area lighting located throughout the park system in order to meet current electrical codes and outdoor/recreational lighting standards, as well as to provide for safe, comfortable and efficient operation. Priority projects are identified by staff in Lincoln Park & Recreation's (LPR) 10-Year Facilities Plan but are subject to change as more immediate needs arise during the course of each year. Where feasible/applicable, fixtures are updated with LED lighting.					Budget Outcome:		Vibrant City Economy & Quality of Life

Project: Tennis Facilities Improvements								
Description:								
Under the operating/lease agreement between the City of Lincoln and the Friends of Woods Tennis (FOWT), funds for this program are generated from user fees at the Woods Tennis Center facility and used for the ongoing maintenance, periodic repairs and any upgrades needed to continue providing safe, operational tennis facilities. Funding is routinely used for resurfacing needs for the asphalt courts, lighting repairs and fencing/screening improvements associated with the outdoor courts. Project: Drainage Channel Stabilization/Erosion Control/Dams								
Description:								
The increased volume and intensity of storm water runoff resulting from development and urbanization in and around many of the properties Lincoln Parks & Recreation is responsible for maintaining has resulted in erosion that leads to the increased depth and width of the drainage channels running through them. These funds are used in partnership with Public Works & Utilities - Watershed Management to restore and to stabilize these channels and protect park land and park infrastructure against future degradation. Project: Communications Towers								
Description:								
There are multiple communication towers currently located on City-owned property to accommodate 18 cell service provider's equipment through lease agreements. Once these towers are constructed on public property, the City of Lincoln is responsible for the well-being of these towers. Funding in this program will be used to complete assessments and make any needed repairs to the tower structures to assure that public safety is not compromised by the presence of these towers at park sites, ballfields and the municipal golf courses. Project: Prairie in the Parks Seeding Program

Description:		Budget Outcome:	Strong and Resilient City
Lincoln Parks & Recreation is responsible for maintaining over 6,000 acres of parkland and open space throughout the community. In an attempt to improve environmental stewardship, enhance the community's landscape diversity and to decrease routine O&M expenses, low traffic/passive use parkland, drainage way corridors and open spaces are being converted to more drought tolerant native prairie grasses. This type of landscaping requires less frequent mowing while increasing habitat diversity and stabilizing area soils from erosion associated with extreme weather conditions and storm water runoff. This program is used as a source of matching funds for potential environmental grant opportunities and to purchase seed/establishment materials in a continued effort to develop Prairie in the Parks areas on City-wide basis. Project: Park Acquisition/Demolition/Development Projects

Description:		Budget Outcome:	Vibrant City Economy & Quality of Life
This project provides funding for park land acquisitions and park-related maintenance activities that include demolition of park facilities deemed not feasible for repair/renovation and the development of new/replacement facilities. Projects that are identified in LPR's 10-Year Facilities Plan include future land acquisitions to provide outdoor recreational opportunities consistent with community growth and park master planning as well as rehabilitation to existing park structures used for maintenance operations and equipment storage. The funds are also used to purchase materials needed by LPR's Carpentry/Heavy Equipment Section to address various repair and replacement work that will arise each year.		Map ID:	409387

Project: Playground Renovations & Safety Components

Description:

LPR is responsible for maintaining 84 playgrounds across the community. Much of the equipment in these playgrounds is in excess of 20 years old which represents the industry standard anticipated life span. Over the years, equipment which does not meet current guidelines for safety and/or ADA accessibility standards has been removed. With this funding, approximately two to four playgrounds will be redeveloped annually utilizing proto typical designs adapted to each individual park site with consideration of maintenance, accessibility and cost efficiency. The Parks & Recreation Advisory Board reviews the sites identified by staff as in need of renovation as part of LPR's 10-Year Facilities Plan and recommends prioritization of phased improvements. The highest priority project sites currently include the playgrounds at Easterday, Nevin, Stuhr, Sunrise, Filbert, Near South, Williamsburg, and Antelope South Parks. Funds will also be used for play surfacing repairs/replacements at multiple playground locations.

Playground funding is regularly utilized to repair and/or purchase replacement playground equipment to assure that all playgrounds located throughout the park system are in safe, working order and kept in compliance with national safety standards and ADA accessibility guidelines.

Project: Hard Surfacing

Description:

Hard surfacing funds are regularly used to repair and/or replace concrete/asphalt/rock associated with the existing hiker/biker trails, parking lots, roads, park pathways and play courts. Many such facilities were constructed approximately 20 to 40 years ago and were not designed for the traffic loads they now experience. The community-wide system requires ongoing rehabilitation to provide for continued safe and comfortable usage and to meet ADA accessibility standards. The Lincoln Park & Recreation's 10-Year Facilities Plan identifies a large number of repair and replacement projects in all four quadrants of the City and priorities remain subject to change as immediate repair needs arise during the course of each year.

Project: Commuter/Recreation Trails								
Description:								
An ongoing program to rehabilitate the existing community-wide trail network is essential to maintaining a safe, operational commuter/recreational trail system. The current trail network consists primarily of concrete surfacing with some segments of asphalt and rock, all of which is exposed to extreme weather conditions. In addition, portions of older trail segments do not meet today's ADA accessibility standards. Experience has shown that multiple 'immediate repair needs' will arise during the course of each year and thus priority use of these funds is subject to change. Funds from this program are also used as matching funds to federal Recreational Trails Program (RTP) grants to complete larger-scale repair/replacement project and to conduct regularly scheduled pedestrian bridge inspections to ensure structural safety per EO No. 83372. Project: HVAC Systems								
Description:								
Lincoln Parks & Recreation (LPR) is responsible for maintaining nearly 200,000 square feet of indoor recreation space across the community with effective Heating, Ventilation and Air Conditioning (HVAC Systems). These systems are becoming aged and require an ongoing program to fund repair and replacement needs in order to provide for continued safe, comfortable and efficient operations. Priority rehabilitations include the HVAC systems at the F Street Community Centers and the Chet Ager Building at the Pioneers Park Nature Center along with replacement of the chiller at the Belmont Recreation Center. Project: Ballfields/Playfields								
Description:								
Lincoln Parks & Recreation maintains numerous ballfields/playfields at locations across the City. With 25 lighted ballfields and 68 backstops, periodic repair/replacement/renewal of the supporting infrastructure is needed to provide for their continued enjoyable use and to insure public safety. Example infrastructure includes fencing/gates, backstops, goal structures, dugouts, bleachers, irrigation systems and ancillary facilities. Project: Building/Structure Flooring & Wall Treatments								
Description:								
Lincoln Parks & Recreation estimates that its building facilities include approximately 170,000 square feet of interior floor coverings of various types (i.e., carpet, tile, wood, etc.). Wall treatments include painted dry wall, concrete block, etc. The anticipated life span for these floor coverings and wall treatments is 20-25 years on the average and an ongoing program of repair/replacement and/or renewal is necessary to sustain continued safe, desirable and appealing use. Project: Building/Structure Roofing								
Description:								
Lincoln Parks & Recreation is responsible for maintaining nearly 400,000 square feet of building roof area on structures throughout the community. Funds from this program will be used to repair and/or replace the roofs of existing park and recreation structures, including community centers, support buildings, restroom facilities and shelter structures. These roofs include a multitude of types and composition with an average anticipated life span of 25 years. Where determined feasible, composition roofs and flat roofs will be replaced with pitched metal roofs to reduce ongoing maintenance costs. It is important to note that priority projects for this program will generally develop throughout the year as immediate repair needs arise, but at this time priority projects include the Log Cabin Picnic Shelter in Antelope Park, the multiple buildings at the Star City Shores Aquatic Facility and the F Street Community Center. Project: Skatepark Renovations								
Description:								
Lincoln Park & Recreation's facilities inventory currently includes two skateparks located at Peter Pan and Tierra Parks. Both facilities consist of modular pieces constructed of various material types. These materials are exposed to extreme elements and are among the most heavily used in the park system. As a result, they require a high level of continuous repair/replacement activity to provide for continued safe and desirable use. This funding is used to repair components as needed and to replace them when repair is no longer feasible.					Budget Outcome:		Safe and Healthy City

Project: Park Area Alt. Irrigation Source Development

Description:		Budget Outcome:	Strong and Resilient City
The use of potable water supplied by the Lincoln Water System places an economic strain on Lincoln Parks & Recreation's (LPR) operations and maintenance budget. It also can create a significant demand on a limited supply of public drinking water. The installation of individual irrigation wells at various LPR sites will provide more cost-effective and environmentally preferred alternative water sources (i.e., non-potable) for landscape irrigation purposes. Priority sites for well installation currently consist of Antelope Park (Elks Ballfield, Veterans Memorial Garden, Legacy Tree Grove and the public use areas surrounding the Auld Recreation Center and band shelter); Sampson Park (Sherman Field and Midget Football Complex) and Peter Pan Park. Project: Air Park Recreation Center - Replace Facility

Description:		Budget Outcome:	Vibrant City Economy & Quality of Life
<p>The building housing the Air Park Recreation Center is a remnant of the former Lincoln Air Base facilities and is in need of significant structural repairs and renovations. It is located on the east side of NW 48th, but serves a youth population that lives primarily on the west side of this major arterial. Given the fact that the building is in a dilapidated condition, generally dysfunctional for its current programming and poorly located for its service area, planning efforts were made with Lincoln Public Schools during the design of the new Arnold Heights School to locate a future community recreation center adjacent to the school building. In response to this planning effort, construction of the Arnold Heights School included two adult-sized gyms funded in part by the City (previous LPR-CIP) for joint use as a community recreation facility. This project will provide the funding needed to continue design development and construction of a replacement community center building on undeveloped park land located between NW 48th and Arnold Heights School.</p> <p>Other Financing may include grants and private donations compiled through a capital campaign by the Lincoln Parks Foundation.</p>		Map ID:	409424

Project: Lincoln Cares Program

Description:		Budget Outcome:	Vibrant City Economy and Quality of Life
<p>Lincoln Cares is a voluntary community donation program that offers customers of the Lincoln Electric System (LES) an opportunity to add one dollar each month to their bill payments to provide funding for Lincoln Parks & Recreation facilities and program improvements. The improvement projects selected for Lincoln Cares funding would not otherwise be possible within the constraints of the available City budget. Projects to be funded by the Lincoln Cares Program are determined annually and since the start of the program in 2003, approximately \$35,000 have been applied to 1-3 projects on an annual basis.</p> <p>Other Financing may include annual projection of donations collected through the Lincoln Cares Program.</p>		Map ID:	295640

Project: Pinewood Bowl Renovations									
Description:									
With the increased programming (SMG produced concerts) at the Pinewood Bowl amphitheater in Pioneers Park, the support facilities and infrastructure are in need of renovating for the continued safe, efficient and enjoyable use by both patrons and performers. Much of the existing infrastructure is aged and in need of significant improvements including the restroom and storage facilities, mechanical and electrical systems, roof structures, lighting, irrigation, drinking fountain, and hard surface walkways. A multi-year renovation effort of this facility will be completed using funds provided by the Visitors Promotion Committee and the Lancaster County Board of Commissioners. Project: Sherman Field - Infield Rehabilitation

Description:									
Recognizing this facility as one of Lincoln’s historic icons, a major renovation effort of the Sherman Field at Sampson Park support facilities was completed in 2012.				Budget Outcome:		Vibrant City Economy and Quality of Life			
Rehabilitation of the infield is needed for the continued safe, desirable use of the ballfield itself. Over time, portions of the irrigation system have worn out and become compromised with granular material. To level/create uniform grades across the infield and eliminate areas of inadequate drainage, a complete regrading and revegetating of the infield is planned.				Map ID:		409438

Project: Facility Renovations & Community Growth Projects

Description:		Budget Outcome:	Vibrant City Economy and Quality of Life
<p>The Mayor's (Coleen Seng, September 2005) appointed Lincoln Parks & Recreation (LPR) Infrastructure Finance Committee recommended going to a vote of the people for general obligation (GO) bond funding for multiple 'Quality of Life' projects associated with repair/replacement/renovation of existing LPR facilities and system/facilities improvements to meet the City's growth demands for recreational opportunities. Bond funding could potentially serve as a means to close the gap between funding currently identified for LPR repair and replacement projects (i.e., cell tower lease proceeds, keno revenue and limited General Revenue) and the amount needed annually in the most recent update (2019) of the LPR 10-Year Facilities Plan.</p> <p>The 2019 update to the Lincoln Parks & Recreation 10-Year Facilities Plan estimated approximately \$2.6M (excluding replacement of the Air Park Recreation Center and funding needed for EAB Response & Recovery) is needed annually for repair/replacement projects to keep existing facilities and supporting infrastructure in operable condition for safe and desirable public use. Keno revenue and the proceeds from cell tower leases associated with park sites currently provide about \$1.3M annually for repair/replacement projects. An additional \$1.3M is needed each year to reach the projected \$2.6M.</p> <p>This project may include numerous projects identified in the 10-Year Plan including replacement of the Air Park Pool, renovation of the Auld Pavilion, development of bike park in Boosalis Park, improvements in Cooper Park, green infrastructure improvements across multiple facilities, development of play/sports fields in Jensen Park, rehabilitation of several existing pool facilities, development of new neighborhood parks, renovation of the Pioneers Park lodge, renovation of Standing Bear Park, upgrades to the Star City Shores aquatic facilities and renovation of the Woods Pool Bath House.</p> <p>Other Financing is unspecified at this time.</p>		Map ID:	409483

Project: Street Tree Replacements								
Description:								
<p>One of the hallmarks of Lincoln's quality of life is its community forest, which is a prominent feature of its landscape. The Street Tree Replacement program provides funding to maintain and preserve the community's existing street tree infrastructure. Funds are used to (a) replace public street trees systematically as they are removed due to damage, structural deficiency or disease, and (b) in-fill the current deficit of street trees in the estimated 12,000 "gaps" generally located in the community's older neighborhoods along public streets. Funding for this program is provided in-part by the 2-for-Trees Program.</p> <p>Other Financing may include grants and donations from sources such as the Nebraska Statewide Arboretum, Arbor Day, local corporations, etc.</p>					Budget Outcome:		Strong and Resilient City

Project: Park Landscape								
Description:								
<p>One of the hallmarks of Lincoln's quality of life is its community forest, which is a prominent feature of its landscape. The Park Landscape Program is an ongoing landscape planting, development and maintenance program that typically includes the addition of private donations and grants. This program assists in the establishment and preservation of multi-generational stands of trees, shrubs and other landscape vegetation within the park system to assure variety in age and species. Funds are used to replace landscape components lost to the natural aging process, extreme weather events, vandalism and disease. These funds will also be used to support a phased (multi-year) effort to remove and replace the aging trees that create the iconic view corridors/vistas in Pioneers Park.</p> <p>Other Financing may include grants and donations from sources such as the Nebraska Statewide Arboretum, Arbor Day, local corporations, etc.</p>					Budget Outcome:		Strong and Resilient City

Project: Emerald Ash Borer Treatment and Recovery								
Description:								
These funds will be used for the treatment, contractual removal and the replanting of public trees due to the infestation of the Emerald Ash Borer. This project requests to be funded with General Revenue. In the event that General Revenue funds are not available a delay in implementation or other sources may be explored to fund the project. Project: Wetlands/Open Space Acquisition, Easements, Restoration								
Description:								
The Comprehensive Plan discusses the importance of the community to acquire parkland, conserve open space areas and preserve saline/freshwater wetlands, prairies and other natural resources in cooperation with development and population growth. These funds are used for conservation and restoration projects, acquisition of land by title and/or easements, development of recreational trail segments, and as 'matching funds' with the Nebraska Environmental Trust and other funding sources/partners per interlocal agreement. Project activities conserve and restore natural resources in the Salt Creek watershed for the purpose of ecological preservation, protection, management and enhancement as well as flood water management. Project: Neighborhood Park Land Acquisition & Development - I.F. Zone 1

Description:		Budget Outcome:	Vibrant City Economy and Quality of Life
The Lincoln Lancaster County Comprehensive Plan establishes a service standard of one neighborhood park per square mile of residential development which is consistent with a newer national goal of having a neighborhood park within a 10-minute walk of all residences. Land for neighborhood parks will need to be acquired and development of park sites should coincide with an increase in operational funding for ongoing upkeep and maintenance of the park. It is anticipated that consistent with typical neighborhood park development, improvements may include a playground, hard-surface play court (i.e., half-court basketball court), picnic facilities, connecting sidewalks, seating, open lawn/play field space and landscaping. These neighborhood parks will be located in Impact Fee Zone 1.		Map ID:	409431

Project: Fletcher Landmark Trail Phase I - Zone 2

Description:		Budget Outcome:	Vibrant City Economy and Quality of Life
Following primarily along the south right-of-way of Fletcher Street, this concrete trail will extend generally in an east-west direction from N. 14th Street to N. 27 Street. Located in Impact Fee Zone 2, this addition to the overall community-wide trail system will provide additional recreation and commuting opportunities/connections for trail users. The funding shown in this project represents the City's 20% match for anticipated Federal Transportation Alternatives Program funds. The total project costs are estimated to be \$929,800 with the Federal share to be \$743,800, or 80% of project costs. This project received prior year appropriations of \$86,000 in FY 19/20. Other Financing may include a Transportation Enhancement Grant.		Map ID:	409432

Project: Golf Course Hard Surfacing

Description:		Each of the municipal golf course has hard surfacing that includes cart paths, sidewalks, parking lots, etc. that are continuously exposed to extreme weather conditions. These hard surfaces require ongoing repair, rehabilitation and replacement to assure that the facilities are maintained in manner that is safe for public use and desirable to golfers. Currently, the priority project for use of these funds is the rehabilitation of parking lots and cart paths as identified in the Golf Program 10-Year Facilities Plan; however, it often becomes necessary to revise priorities as more critical repair needs arise. Project: Golf Course Clubhouse

Description:		In order to serve the large numbers of golfers that visit the municipal golf course clubhouses, funds are needed for both annual repairs and for major maintenance activities to assure the safe, comfortable, attractive and efficient usage of each of the golf course clubhouse facilities. While it is often necessary to revise priorities as repair needs arise, the priority projects for use of these funds includes replacement of the flooring in the Highlands Golf Clubhouse and repair/replacement of multiple HVAC systems as identified in the Golf Program 10-Year Plan. Project: Golf Course Infrastructure								
Description:								
These funds are used to address critical repair/replacement needs related to the infrastructure for each of the municipal golf courses. Given the age and usage of much of the municipal golf course infrastructure, priority projects are continuously evaluated in an attempt to keep each of the golf courses in good working order. Priority projects identified for use of these funds include shoreline wall repairs at the Highlands and Mahoney Golf Courses and the development of forward tees at various courses. Project: Golf Course Irrigation Systems								
Description:								
Effective and efficient automated irrigation systems are vital to the daily and long-term operations of the municipal golf courses. Each course must be maintained in a healthy, inviting condition to continue attracting golfers. The existing irrigation systems at each of the courses require continuous maintenance and rehabilitation to assure that they are in working order and these funds are used to support both "in house" work as well as any contractual repair/replacement needs. At this time, the priority project identified for use of this funding over the next multiple years consists of replacing the complete irrigation system at the Pioneers (funding provided by a \$1.0M short term bond - COPS - with the Golf Program Surcharge funding debt retirement) and Holmes Golf Courses (funding also provided by the Golf Program Surcharge). Project: Waterford Development Trail - I.F. Zone 4								
Description:								
Extending generally south and west from the current trail terminus at about 37th and Yankee Hill Road, and located in Impact Fee Zone 6, this concrete trail will provide additional recreation and commuting opportunities/connections to the overall community-wide trail system for trail users. The funding shown represents the City's 20% match for anticipated Federal Transportation Alternatives Program funding. Total project cost is estimated to be \$1,150,000 with Federal funding of \$920,000, or 80% of project costs.					Budget Outcome:		Vibrant City Economy and Quality of Life

Project: Cascade Fountain & Plaza Renovation

Description:		Budget Outcome:	Vibrant City Economy and Quality of Life
<p>The Cascade Fountain, dedicated to Nebraska's retired teachers, is located at the intersection of 27th Street and Capitol Parkway in the Antelope Park Triangle where it has served as a Lincoln icon since 1978. As a result of continued operation over the last 41 years, the fountain basin/infrastructure and mechanical systems are in need of significant repairs and rehabilitation to keep the fountain in good working order. In partnership with the University of Nebraska-Lincoln Public Policy Center, the Lincoln Parks Foundation initiated a survey in 2019 to determine the community's connection to the Cascade Fountain, as well as gain input on its possible refurbishment. More than 7,500 individuals took the survey, surpassing all our expectations. The results showed a strong passion and love for the Cascade Fountain. Overwhelmingly, the community indicated a desire to retain and fix the fountain, shorten the basin, and create a plaza-like seating area for reflection, picnics, and events. This input has guided planning and design efforts that include replacement of the fountain basin and surrounding deck/plaza, renewed electrical service and lighting, and replacement and relocation of the mechanical pumps and piping.</p> <p>Other Financing may include grants and private donations compiled through a capital campaign by the Lincoln Parks Foundation.</p>		Map ID:	409387

Project: Wilderness Park Master Plan Improvements

Description:		Budget Outcome:	Vibrant City Economy and Quality of Life
<p>Wilderness Park has over thirty miles of natural surface trails for hiking, cycling, riding and skiing. In 2020, the master plan for Wilderness Park will be updated to guide future park renovation efforts and improve park visitors' experience. General categories of improvements are envisioned to include multi-use trail restoration as well as the addition of wayfinding signage/kiosks, parking lot improvements and associated amenities. In addition, the bridges located throughout Wilderness Park will be an area of focus. Each of the existing bridges is inspected on a regular rotation and those in need of repair and replacement are prioritized according to their condition and role in providing critical park access.</p> <p>Other Financing may include grants and private donations.</p>		Map ID:	409369
