Transportation Vehicle Replacement

Overview

Request Owner	Aging CIP, Aging
Department	20-Aging Partners
Type	Capital Improvement

Description

One of the goals at Aging Partners is individual self-determination and control. Vehicles are used to transport older adults and people with disabilities to Aging Partners' Senior Centers and program activity sites. This helps to keep those individuals fully engaged in their communities and facilitate self-determination and control about their independence, well-being and health. Aging Partners' vehicles, equipped with wheelchair lifts, are used to meet the needs of individuals having mobility limitations. Vehicles are routinely analyzed to justify replacement needs. Aging Partners' fleet maintenance plan calls for an annual replacement of a paratransit vehicle each year. If available, we should begin to shift to electric powered paratransit vehicles beginning in 2023-2024. Funding is split between federal (80%) and local match(20%).
