

Memo

City of Lincoln: Standard Specifications for Municipal Construction

Standard Plans (LSPs)

Effective Date: October 1, 2026

All information including directives, materials, and procedures contained in the Lincoln Standard Specifications for Municipal Construction and the Lincoln Standard Plans are current and adopted as of the above effective date. These documents which govern construction in the public right-of-way supersede any prior versions and shall be utilized as the current standards until such time as new documents are certified.
