Applications

The summary below provides an indication of the volume and trends in recent applications submitted to the Planning Department over the past six fiscal years. The Planning Commission directly reviewed about half of these applications. Fiscal Year 2022 was the 10th year in a row of over 400 applications coming to the Planning Department. The 543 applications received in FY 2022 is the second highest amount during this time period and increased the six year average number of applications reviewed to 499 from 488. This amount of applications is indicative of sustained elevated levels of planning activity. Final Plat approvals continue to be the single largest application type in volume and indicates approved plans continue to be constructed.

Annexation Major Work Effort

The Planning Department conducted a major work effort in 2022 to propose, discuss, and process a large annexation of acreage properties in Southeast Lincoln that had become completely surrounded by City limits. In accordance with the *annexation policy* in the Lincoln-Lancaster County 2050 Comprehensive Plan, the City proposed to annex approximately 445 acres, including 77 dwelling units, near 70th & Pine Lake. The City of Lincoln regularly studies areas adjacent to but outside of the City's limits for recommendations to be annexed. Properties on the urban edge already benefit from many City services, such as streets, parks, trails, libraries, and snow removal on adjacent streets, without paying City taxes and fees. Annexation balances the provision of appropriate and reliable services with the "fair share" payment for those services and equity for all that benefit. Overall, City-initiated annexation typically does not change the character of annexed acreage areas. The zoning and Future Land Use designations do not change with annexation.

After numerous informational mailings, public discussions, and a briefing of the Planning Commission, the proposed annexation of this area was approved by the Planning Commission on October 19, 2022. Approval by the City Council is expected in early 2023.

Workshops

The past year included briefings and work sessions for the Planning Commission on various topics. Below is a complete listing of briefings and workshops the Planning Commission held in 2022:

06/08/2022

The Fair Housing Act, Reasonable Accommodations, and the implications for city zoning and land use regulations

10/05/2022

Annexation

11/02/2022

Briefing by Lincoln Transportation and Utilities Watershed Management Division on the proposed flood and water quality protection revisions to Title 26, 27 and 28 and design standards for zoning and subdivision regulations

Technology Upgrades

With the approval of the FY 23-24 two year budget, the Planning Department will maintain the computer hardware and software upgrades initiated at the beginning of the pandemic and the need to become more mobile and remote-capable. This level of budget support will result in the updating of the staff laptops purchased since 2020 on a regular basis per industry standards. An increase in staff capabilities related to design programs will also occur with the purchase of additional design software packages. Also, a new large-scale plotter and scanner will be purchased in 2023 to support our activities. The completion of the update to the Project Dox plan review program used by the department was also completed in 2022. A significant and ongoing work effort is the replacement of the Accela Automation permit review and workflow program with a new Visual Vault system. This is a major interdepartmental work effort that will continue through 2023.

The Planning Department said farewell to both Stacey Hageman and Allan Zafft in 2022. Stacey served the department for many years in the Long Range Planning section providing us her advanced design skillset in Historic Preservation and Urban Design work. Allan provided us his advanced skillset in federal transportation planning to lead us in creating the 2050 Long Range Transportation Plan. We wish them both well in their new opportunities.

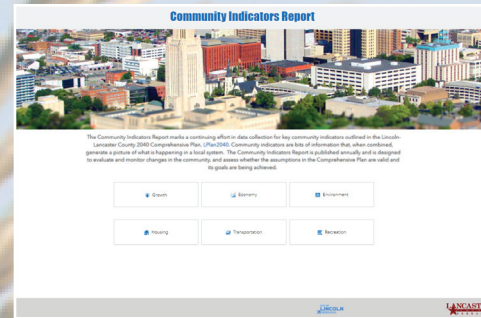

As a result of Allan's departure, Rachel Christopher was able to move from the Development Review Section to the Long Range Section to fill that vacant position and take on a new professional opportunity. Rachel's vacant planner position in Development Review was then filled by Emma Martin. Welcome Emma! The carryover vacant position of Office Specialist from 2021 was also filled by Alexis Longstreet. Welcome Alexis!

And Finally, Geri Rorabaugh, the Department's Administrative Officer for many years, was provided the opportunity to return to the Health Department in a similar role in early 2022. We will miss Geri but look forward to continuing to work with her from her new position. As a result, Shelli Reid was hired to become the new Administrative Officer for the department. Shelli's vacant position was then filled by Jennifer McDonald. Welcome Jennifer!!

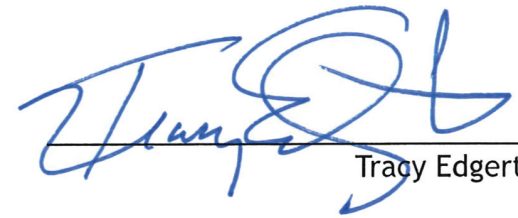

Farewells, Moves and Arrivals

Looking Ahead

- ◇ Continued implementation of the Plan Forward 2050 Comprehensive Plan and the 2050 Long Range Transportation Plan
- ◇ Continued Implementation of the Climate Action Plan
- ◇ Continued implementation of the Affordable Housing Coordinated Action Plan
- ◇ Complete the development of the Complete Neighborhoods GIS tool
- ◇ Annual development and action on the Metropolitan Planning Organization Transportation Improvement Program
- ◇ Review of the Lancaster County I & 6 Streets Program
- ◇ Review of the 2023 Community Indicators Report and Residential Lot Inventory Report
- ◇ Continued high amount of development applications for review and action
- ◇ Regular updates related to Complete Streets projects and their implementation
- ◇ Begin the development of the 2024/25-2029/30 Capital Improvement Program for project prioritization and Comprehensive Plan conformity review
- ◇ Begin development of a new subarea plan
- ◇ Continued updates to the City and County zoning regulations to improve their functionality
- ◇ Work on a Collaborative Living Facility group living text amendment
- ◇ Review of the 2022 Community Indicators Report and Residential Lot Inventory Report

The Planning Commission continued to play an important role in the development of Lincoln and Lancaster County over the past year. Commissioners deliberated numerous and sometimes contentious development applications and worked on various improvements to local codes and administrative procedures. We appreciate the opportunity to serve our community in this role and hope that our local elected officials have found our efforts to be helpful.
