**PARKING METER HOOD GUIDELINES FOR FOOD TRUCKS:**  
 Before requesting a meter hood, please review these guidelines to ensure compliance with the City of Lincoln's vendor truck ordinances.

1. Applications can only be submitted by food truck owners/permit holders.
2. Food trucks can only park in parallel stalls. No angled parking.
3. Food trucks cannot park on state highways. This eliminates "O" Street and 10th Street.
4. Food trucks cannot park within 300 feet of an existing restaurant.
5. Parking Services is required, by ordinance, to give the public a minimum of 24 hour notice. Therefore, we ask for a two-day minimum to review this application and place the meter hood. Meter hoods requested less than two business days in advance will not be approved.
6. Parking stalls are 22 feet long. Food trucks must fit completely in the parking space. If not, more than one stall must be hooded.
7. Food trucks cannot park on the left side of a one-way street into on-coming traffic.
8. Parking Services is unable to relocate or change meter hoods once payment has been processed. **No refunds will be issued.**

**There is a \$10 per meter charge per reservation.**  
*Note: Payment is required at the time of application.*

Please make checks payable to:  
City of Lincoln Parking  
1100 "N" Street  
Lincoln, NE 68508
