

Residential Cross Connection Plumbing Survey

City of Lincoln, Transportation and Utilities Department

The safety of Lincoln's water is very important. The Nebraska Department of Health and Human Services requires water utilities in Nebraska to have all water customers inspect their plumbing systems for potential cross connections with the public water supply and ensure these connections are properly protected against backflow or back-siphonage. **Please review the enclosed brochure regarding plumbing cross connections and complete this simple survey for the property listed below.**

Plumbing Survey for Address at:

Please indicate if you are the:

Owner Tenant Both

Please correct name and address

Please return the survey within 14 days of receipt. You may also complete the survey by visiting lincoln.ne.gov, keyword: Plumbing Survey; or scan and send this form to backflow@lincoln.ne.gov. Thank you for assisting in compliance with State regulations and protecting Lincoln's drinking water.
