COVID-19 Risk Dial & Community Guidance

COVID19.lincoln.ne.gov
The purpose of the Lancaster County COVID-19 Risk Dial is to inform residents regarding the current level of risk from COVID-19 and actions residents can take to stay healthy, and protect themselves, their family and the community. Each color on the COVID DIAL provides specific guidance for what you can do to stay safe. Special guidance is included for people who are most at risk and vulnerable to the COVID-19 virus.

Levels of Risk
The COVID-19 Risk Dial advises four risk levels of transmission: Red - Severe; Orange – High; Yellow – Moderate; and Green - Minimal. Along with the risk level of transmission are actions residents should follow: Stay home, (red); minimize all contacts (orange); stay vigilant (yellow); and resume normal contacts (green).

Red – Severe Risk - Stay Home
Red signifies a severe and uncontrolled level of COVID-19 in Lincoln and Lancaster County, meaning multiple outbreaks are present and broad community spread exists. At this level, residents should take actions to minimize contact with others wherever possible and limit activities outside the home unless for work, school, medical care or food. Residents should wear face masks, ensure 6 feet of distance from others, avoid all gatherings with anyone outside of your own home, and only visit businesses that follow public health guidance.

For older adults, anyone with underlying health conditions, and other populations at heightened risk from COVID-19:
- Stay home
- Rely on help for needs outside the home (groceries, medications, etc.)
- Distance from those working outside of the home
- Wear a face mask around other persons.

Orange – High Risk - Minimize Contacts
Orange signifies a significant level of spread of COVID-19 in Lincoln and Lancaster County, meaning that there is an ongoing high level of transmission of the virus. At this level, residents should limit activities outside the home unless for work, school, medical care or food. Residents should wear face masks, ensure 6 feet of distance from others, avoid gatherings, and only visit businesses that follow public health guidance.

Yellow – Moderate Risk - Stay Vigilant
Yellow signifies a moderate, but controlled level of COVID-19 in Lincoln and Lancaster County. Residents should remain vigilant but can resume more interaction with others using face masks and 6 feet of distance.

Green – Low Risk - Resume Normal Activity
Green signifies a minimal and controlled level of COVID-19 in Lancaster County, meaning new chains of transmission are limited and quickly broken. At this level, residents may resume normal contact with others unless sick.
